MR. ADVERTISER, a few words if you please:

In making up your list of papers in which you will place your advertisements for 1890, you want at least an assurance of probable return in the way of profits, to justify the expense, this holds good, whether as Manufacturer, Dealer or Contractor; you advertise to catch those WHO MUST BUY.

The great army of buyers for American products, are not Dealers, by any means. Their relations to the wares sold, is that of distribution only. The Dealer aims to sell the goods that sell readily; there is little sentiment in the question with him. To popularize his wares should be the objective point of every advertiser. The Dealer soon tires of goods that find no sale, dead stock, soon becomes a dead-loss. It is better that the demand should push the Manufacturer, than the Manufacturer should push the Dealer.

BARTLETT, the manufacturer of "Crumbs of Comfort," says: that through advertising he can force the people into stores to buy anything he desires to sell them. It is a simple question as to whether the profit will justify the expense.

During 1890, there will be many thousand new buildings erected in Philadelphia, Pennsylvania, New Jersey, Maryland, Delaware and Washington, D. C., which will be reported in the way of advance news in the columns of this journal. No proper estimate can now be made of the cost of the Building Material, including Heating Apparatus, Boilers, Pumps, Engines, Machinery, Elevators, Electric Work, Decorations, Glass and all other accessories that must enter into the construction and completion of these buildings, representing Factories, Ware-houses, Churches, School Houses, Dwellings, &c., &c., but it will certainly aggregate many millions of dollars.

We want your advertisement for 1890, we want to place it in the hands of every one of these persons reported in our columns weekly, as going to build, in the above sections, this includes of course, persons obtaining building permits in Philadelphia and Camden, it also includes our Lot buyers and Miscellaneous builders.

If your advertisement is read by this army of buyers at a time when their minds are full of the question of selection is it not even more than probable, that at least a fair percentage of them will be attracted by it and become purchasers of your goods? We think so, and we are sure that after you have tried it for a year, you will also think so.

We will send advertising rates to all who want them.

PHILADELPHIA, WED'Y. JAN. 8, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THE Warden apartment house, \$380,000 and the Hotel Metropole, estimated to cost \$1,000,000, are not included in our summary for 1889.

THERE is, probably, no city in America that can show more than one-third of the building operations of Philadelphia, for 1889.

THE annual report of the Brooklyn, L. I., Building Commissioners, shows that 5,084 new buildings were erected in that city during 1889, at a cost of \$25,679,405, this is an increase of 858 new building over 1888, representing an increase in expenditures of \$4,201,580 over the same year.

IN the report of the New York Acqueduct Board for 1889, the statement of expenditures up to December 1st, elicit some singular facts, among which is the statement that the amount allowed for land damages was \$50,482.12, while the expenses of the Commissioners who appraised the damages were \$1,406,611.85, or nearly twenty-eight times more than the value of the land appraised. Of course, New York can afford to employ public servants, with luxurious tastes and extravagant ideas of indirect compensation, but it would have been much cheaper for New Yorkers, if every old farmer, whose land was taken, had been paid his own price without the formality of appraisalment.

It is stated that the applications for apartments in the new apartment house, to be erected

by Mr. W. G. Warden, at Eleventh and Pine streets are already so large in number as to guarantee the success of the building as an investment. This statement, if correct, verifies our belief, often expressed in these columns, that there was not only a great necessity for apartment as well as small houses in the central part of the city, but that many old properties, now entirely too dilapidated to command the attention of a desirable class of tenants, could be renovated at small cost, and made to pay a handsome interest on the investment. In fact, we believe that there are many properties on such streets as Wood and Locust streets that could not only be redeemed, but could be so altered and reconstructed, as to appearances, as to command the attention of the better class of tenants at double the rent they now command.

WE present to our readers in this issue an interesting summary of the building and real estate business of the City of Philadelphia for 1889. The magnitude of the construction work although sufficiently large to call forth expressions of surprise from most of our readers, does not, in our opinion, compare in importance with the absolutely astonishing magnificence of the eighty millions of dollars representing the real estate transactions for the year. The man who would have predicted such results at the beginning of 1889, would have been regarded as an idiot, and yet the amount, as large as it seems, does not by any means represent the full value of the 15,945 conveyances made, for it does not include the value of hundreds of properties that were transferred during the year for merely nominal consideration, and which were so reported in our weekly list of conveyances from which our summary is made. When it is considered that the great volume of business done in 1888, amounting to \$62,663,201.87, was regarded by many as largely forced, or to use the words of many, "was the result of a pernicious system of instalment mortgages," but which idea we at the time succeeded in refuting by showing that the mortgage incumbrance on the entire amount was but 19.1-5 per cent. How much more astonishing to those people must seem the \$80,225,270.88 representing the business of 1889, bearing a mortgage incumbrance of only 21.9. It may be justly argued that the mortgages represented in the deeds of conveyances do not represent the full amount of the mortgage incumbrance. This is doubtless true, so far as builders transfers are concerned, but we do not think it is the case to any great extent where property is purchased for investment, and we believe that the amount of incumbrance not mentioned in the conveyances, and subject to a

separate record, is greatly exaggerated, or to quote the words of a prominent real estate man of this city who said that "outside of the builders, I do not believe that the real estate held in true ownership in this city is now bearing a mortgage of over ten per cent." At all events, without constant access to the full record of mortgages, ours is the best data obtainable.

From our summary it is safe to conclude, that the people will continue to purchase real estate for some time to come, and we regard the outlook for 1890 sufficiently encouraging to justify a liberal amount of building. The two greatest impediments that will certainly present themselves will be the increased price of land and the failure of our city authorities to advance street improvements in keeping with the rapid pace of our builders.

Thanks.

The Cedar Hollow Lime Company, 900 Jefferson street, this city, has graced our office walls with its calender for 1890. For attractive and artistic calenders the Cedar Hollow folks are far ahead this year, as this one is richer in coloring and better as to finish than any we have seen. It is highly embossed, the scene representing old Santa Claus seated beneath a snow-laden tree, his well-stored basket of rich gifts beside him. Two pretty children richly dressed, patiently listening to the old man's usual admonitions and good cheer, with a country home in the distance, complete the scene.

The business of the company has been unusually heavy, its output of lime for 1889 having been heavier than ever before.

WE are in receipt of a calender from the Lawrence Cement Company, which is a "thing of beauty," and a model of good taste and artistic treatment. "Rich, but not gaudy," this beautiful souvenir satisfies the eye, besides being highly useful both in the office and in the home.

A Window Glass Combination.

At Columbus, Ohio, a meeting of the window glass manufacturers of Ohio and Indiana was held December 31, 1889, the prices that were named at Findley, on November 12, 1889, of eighty and five per cent off on single strength, and eighty and ten per cent. off on double strength glass, were reaffirmed. They also allied themselves to a syndicate with a capital stock of \$800,000, which will take the glass of the weaker manufacturers, when they would otherwise have to place it upon the market during the months of January, February, March and April at a discount lower than named by the association. The Pittsburg, Pa., manufacturers, the Chambers, McKee Company and the United Window Glass Company, will co-operate in the movement. Thomas F. Hart, of Muncy, Ind., was elected president, and U. G. Baker, of Findley, Ohio, secretary and treasurer of the association.

The Real Estate Record's Predictions More than Fulfilled.

As is our custom, we herewith present our annual statement, showing the building operations in this city for the twelve months of 1889. And although the present report cannot be justly regarded as more than an auxiliary to our very elaborate report that appeared in our issue of November 6th, 1889, which was intended to cover the building season for the year ending October 31st, yet it will be found sufficiently succinct to afford such information as those most interested require.

The total number of two-story dwellings erected during the year was 7,450, against which we place the total number erected during the year 1888 as 5,987, showing an excess of two-story dwelling houses over the previous year of 1,463.

The total number of three-story dwellings erected during 1889 was 1,992, against which we place the total for 1888 of 1,428, showing an excess over 1888 of 564.

A noticeable feature of this year's building has been the considerable increase of four-story dwellings. This is somewhat singular, from the fact that so much significance of late years has been given to small houses for investment. Of course the number of four-story dwellings erected is not so great as to even cause an expression of surprise, yet as small as the number is, it certainly indicates that there are more persons who feel justified from a business standpoint to erect four-story houses than there were last year. The figures for four-story dwellings for 1889 are 34 against 14 for 1888.

The months of November and December 1889 were, according to the figures, particularly advantageous for building purposes when compared with the same months of 1888, as the figures show that during these months in 1889 2,527 new buildings were commenced against 539 for the same months of 1888.

The industrial branches for which new buildings were erected during 1889 show a considerable increase over 1888, although in some respects the increase is but a trifle over the showing for 1887. The item of factory buildings shows that 73 were erected during 1887, 42 during 1888 and 77 during 1889. Of course the minor industries are represented by the erection of a large number of buildings, shops and foundries showing 14 for 1887, 55 for 1888 and 75 for 1889.

As to large office buildings, the year does not present any very noticeable feature, as but 4 are included in the report for 1889, whereas 1888 embraced 12 large office buildings.

As to the sales of real estate we firmly believe that considerably more houses were sold during 1889 than were erected. It will be noticed that the number of transfers amounted to 15,945, many of these transfers represented considerably more than a single property, to be

sure also, many of them were for vacant lots, but if we allow 5,000 of the number for vacant lots, and still a fair per centage for properties that changed hands more than once during the year, the remainder will more than equal the number of new buildings erected, when proper consideration is given to the actual number of buildings that were included in the transfers.

The 15,945 transfers represented \$80,225,270.88, against which we place the sales for 1888, which amounted to 12,679 transfers, amounting to \$62,663,201.87.

The incumbrances on the real estate sold during 1889, represented \$17,618,932.46 mortgage incumbrance, or 21.9 per cent, while the ground rent incumbrance represents \$576,175.97, which on a basis of six per cent. amounts to \$9,602,932.83. It will be seen that the total amount of mortgage and ground rent incumbrance resting upon the property conveyed during 1889, amounts to \$27,221,865.29, or 33.9 per cent.

The sales of real property at auction for 1889 amounted to \$3,923,360.82, which was incumbered to the amount of \$492,909.43, while the sales of 1888, amounted to \$3,890,390.51, bearing an incumbrance of \$540,923.22.

The following carefully prepared tables will prove of great interest, as they are based on our own data, carefully compiled and entered as a matter of record in our own office weekly:

Miscellaneous.

At Chicago, Ill., the Masons contemplate the erection of a building, to cost about \$2,000,000.

At Rensselaer, Jasper Co., Ind., a college building will be erected, from plans prepared by T. P. Kendrick, of Fort Wayne, same State.

At Salem, Roanoke Co. Va., negotiations are under way for the erection of a handsome hotel on College avenue, at a cost of \$50,000.

At Washington, Litchfield Co., the congregation of the Roman Catholic church has bought a lot on which a church will be erected.

At Danville, Pittsylvania Co. Va., a new market-house, police station and engine house, will be erected at a cost of \$50,000.

At Boston, Mass., the city has appropriated \$165,000, for the erection of a building to be used as the central fire headquarters. It will likely be erected on Tremont street.

At Attleboro, Bristol Co., Mass.. The congregation of the Roman Catholic church, will erect a new church building, to cost \$80,000. P. W. Ford, of Boston, Mass., is the architect.

At Yonkers, N. Y., the Episcopal congregation of St. John's Parish, has begun the erection of a handsome new chapel, rectory and parish building. The entire property will be surrounded by a stone and iron fence.

Building and Real Estate Notes.

Thomas Marshall, builder, 413 Locust street, will erect two fine houses on Forty-fourth street,

West Philadelphia, fitted with all modern conveniences, and in keeping with the locality.

John O. Broadbent, builder, 314 Haines street, Germantown, will build four handsome houses on Duval street, which will be fitted with all modern conveniences.

Mr. Charles E. Webster, has purchased of the heirs of Hamilton Disston Sr., ground at Cottage street and Dark Run Lane, Twenty-third ward, and will at once open the same and erect the necessary machinery for the manufacture of bricks, the soil and location being especially adapted for that purpose.

At a recent meeting of a committee of the German Lutheran Congregation, it was decided to establish a new orphanage for motherless children. It was determined to rent and furnish a house until a suitable building can be erected for the purpose. Mr. F. Wischan, 726 N. Seventh street, is interested in the project.

E. Clinton & Co., manufacturers of brushes, 931 Market street, having purchased a fine property on the south side of Market street, No. 1008, will, at an early day, commence the rebuilding of the same, and adapting it to their purposes, this will consist of introducing new gas pipes, elevators for freight, new floors, windows, and modes of heating the structure. It is their intention to have the benefit of two fronts, the lot forming a complete letter L, facing upon Market street as well as Tenth street. It is the intention of the firm to occupy these premises before April, 1890.

Architects' Notes.

S. Elvin Jackson, architect, 804 Walnut street, has plans for the erection of a house for W. K. Mitchell, Ridley Park, Pa., it will be 32x36 feet, three stories high, stone and shingle work, stained and plate glass windows, open grates, soft wood finish, and best sanitary plumbing.

Architect Walter T. Pippin, of Chestertown, Cecil Co., Md., is now erecting two church buildings at Queenstown, Queen Anne Co., Md. One is 30x52 feet, with tower. The other is 30x40 feet, both to be hard oil finish, open ceiling rafters, etc.

Messrs. Hazlehurst & Huckel, Furness & Evans, and Addison Hutton have entered as competitors for the architectural designs for the new and grand hotel to be erected at Bryn Mawr during the coming spring, upon or near the site of the one destroyed by fire two years since.

F. L. & W. L. Price, architects, 731 Walnut street, have been awarded the contract for making plans for the erection of a new building for the Wayne Title and Trust Company, at Wayne, Pa., it is expected to begin work upon this structure as soon as plans and specifications have been completed, and which are now under way.

The Protestant Episcopal Church to be located at Walnut and Twentieth streets, and reported in Architect Notes of our edition of December 25, 1889. T. Frank Miller, chosen as supervising architect, is the Church of St. Thomas, which for more than half a century worshipped at the corner of Fifth and Adelphi streets, below Walnut street. For description of the new structure see as stated above.

Harold Godwin, architect, 905 Walnut street, is engaged on plans for the erection of a factory, on Fairmount avenue, below Fifth street, for Thomas Jackson, who will conduct the manufacture of hats in the building. The dimensions are 40x100 feet, three stories high, to be of brick, red mortar, the power will consist of one 80-horse power engine, two boilers 60-horse power each, one freight elevator, and the structure to be heated throughout by steam.

James H. Windrim, architect, 132 S. Third street, has been engaged by the Base Ball Brotherhood, of Philadelphia, to prepare plans for the improvement of the grounds at Forepaugh's

Park, on North Broad street, and to submit the same for approval at their next meeting. These plans will consist of the enclosure of grounds and a seating pavillion, ticket offices, gates of entrance, and additional means of exit, all of which will be upon improved ideas, with a view to convenience and comfort.

Hazlehurst & Huckel, architects, 410 Walnut street, have completed plans for a country house, at Oak Lane, N. P. R. R., for H. Becker, Esq., to be stone, slate roof, inside hardwood finish, steam heat, electric bells, dumb waiters, to have gas machines and pipes, plain and stained glass windows, wood mantels, and plumbing of the best, etc.; also, for a fine brown-stone house, for John Loughran, on Broad street, above Susquehanna avenue, to have steam heat, hard-wood finish, slate roof, electric work, and best of sanitary plumbing; also, the same gentlemen have made plans for a house for Dr. Arthur Van Hollinger, to be of Colonial style, two stories and attic, to be fitted with all modern conveniences; also, plans for a large building operation soon to be commenced at Pittsburg, Penna.

Through Maryland.

At Baltimore, Edward Austin, will erect a one story brick factory building at N. E. corner of North and Oliver streets. Charles Milske will erect a three story brick dwelling on Baltimore street between Bradford alley and Patterson Park. Julius Oxhelm, will erect a two story brick dwelling at No. 18 Heath street. Mason R. Stone, will erect fifteen two story brick dwellings on Keyser street between Washington and Chester streets. Mr. O. F. Bresee, will erect a row of marble-front residences, on St. Paul street, just above the bridge. John Waters, warden of the city jail, will erect a residence. The Maryland Screw Company lately incorporated with a capital of \$50,000, will erect a large factory, 65 by 100 feet, at the N. E. corner of Oliver street and Guilford avenue. Ed. Austin, is president of the Company. William J. Clendinin, will erect eleven two story brick dwellings on Broadway and seven on Oliver street. James T. Armstrong & Co., have been awarded the contract for furnishing the bolts, washers and spikes, for the new bridge to be erected at Light street. The amount will reach about \$3,000. J. S. Deitrick and others, have incorporated the Deitrick & Harvey Machine Co., capital, \$150,000. Mayor Davidson and Register Robb, were busy January 2, paying off the holders of the bonds of the B. & O. R. R. Co., for the \$5,000,000, guaranteed by the city in 1835. The old Law Building, at Lexington and Saint Paul streets, has been purchased by Jas. M. Cone. The price paid was \$100,000. Mr. Cone expects to petition the City Councils, to widen Saint Paul street, from Baltimore street, to the alley between Lexington and Saratoga streets, which being done, he will demolish the present structure and erect a six story office building with a restaurant on the top floor.

Through New Jersey.

At Burlington, Burlington Co., the congregation of the Baptist Church contemplate the erection of a new church edifice.

At Morristown, Morris Co., Rev. M. Rice has been given ten acres of ground for his colored industrial school.

At Bridgeton, Cumberland Co., a syndicate wishes to purchase the water works for \$500,000, and promise to spend a like sum on improvements for a larger and purer supply of water.

At Berlin, Camden Co., Charles Collins of Downingtown, Pa., will soon begin the erection of a two-story building for the manufacture of printers' ink. Wm. Congeizer is the contractor.

At Atlantic City, at a recent meeting of City Council it was reported that the owners of all but four hundred feet along the beach have agreed to give the city enough ground for the

erection of the new ocean boulevard. Commissioners will be appointed to condemn the four hundred feet, so that the work can be pushed.

At Plainfield, Union Co., the Plainfield Bicycle Club has begun work on the erection of a handsome gymnasium and club house. The City Council has granted a franchise for water works construction to the water works company of Plainfield, composed of the following persons: J. H. Johnson, of New York; C. N. Hoagland, of Brooklyn; William Foster, of Brooklyn; James Moore, Samuel Knox and John R. Moore, of Elizabeth, and George Kyte, of Fanwood. Twenty-five miles of water mains are to be completed within one year.

At Camden, it is said that a large warehouse will be erected by H. J. Burrichter. Articles of incorporation have been filed in the Camden County clerk's office by the National Gas and Electric Fixture Company. The capital stock is \$500,000 and the object of the company is the manufacture of gas and electric light fixtures. The incorporators are Benjamin Thackara and Clement M. Biddle, of Philadelphia; Heinrich C. Beck, of Brooklyn, N. Y.; John C. Cassidy, of East Orange, N. J., and Charles H. Fisher, of Mount Vernon, N. Y. The company has not yet decided if a factory will be erected.

Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Penn, Lancaster Co., J. W. Handschew will erect a new house and barn in the spring.

—At Monongahela City, there is some talk of establishing a home for aged colored people.

—At New Tripoli, Lehigh Co., William Hoffman will erect a dwelling in the spring.

—At Milton, Northumberland Co., a bridge will probably be built over the Susquehanna.

—At Avondale, Chester Co., Robert L. Pyle will remodel the old Avondale Hotel property into a store building.

—At Coplay, Lehigh Co., the Coplay Iron Company has decided to enlarge and to rebuild all of its furnaces.

—At Waynesboro, Franklin Co., Joseph Clugston has purchased a lot on which he will erect a bonded warehouse.

—At Kingston, Luzerne Co., Alfred Smith, of Wilkesbarre, same county, has purchased a lot and will erect a dwelling.

—At Steelton, Dauphin Co., it is said that the I. O. O. F. contemplate the erection of a large three-story hall in the spring.

—At Morrisville, Bucks Co., the Pennsylvania Railroad will probably locate a number of workshops.

—At Lock Haven, Clinton Co., the Board of Trade has secured a new industry for the town in the shape of a knitting factory.

—At Bangor, Northampton Co., ground has been broken by Thomas J. Stofflet for a double dwelling house on Broadway.

—At Bedford, Bedford Co., a company has been organized to erect a sanitarium adjoining the springs property. A charter will be applied for in a few days.

—At Punxsutawney, Jefferson Co., a glass factory will be erected to employ from 70 to 75 men and boys. The firm will be M. H. McDonough & Company.

—At Johnstown, Cambria Co., the congregation of the Welsh Baptist Church will soon begin the erection of a new building. The plans are now ready.

—At Carlisle, Cumberland Co., the property opposite the C. V. R. R. has been purchased by President Kennedy, of that road, who it is said will have a new depot erected on the site.

—At Jeannette, Westmoreland Co., the school Directors have purchased a lot for \$7,000, on which it is proposed to erect a new school building at a cost of from \$25,000 to \$40,000.

—At Greensburg, Westmoreland Co., a movement is on foot for the erection of a soldiers' monument. The idea most favored is the erection of a memorial arch.

—At Spring City, Chester Co., John Latschaw has sold twenty-four building lots, each lot is 40x160 feet. These lots were purchased principally by residents of Spring City for building purposes.

—At Washington, Washington Co., a building will be erected on the College campus, to cost \$25,000. It will be used as a gymnasium and commencement hall, and will accommodate two thousand persons.

—At Nether Providence, Delaware Co., Mr. Dickson will erect the present year one of the handsomest dwellings in the neighborhood. The ground is now being prepared by Mr. Trickett, a landscape gardener.

—At Sharon, Mercer Co., the Sharon Stove Works have been purchased by Graff, Hughes & Company, of Pittsburg, who will erect a brick addition one hundred feet long to the present building for a moulding department.

—At Easton, Northampton Co., Mr. Maxwell has purchased a lot from Mr. Mattis, on Reeder street, and will erect a dwelling. William Laubach has also bought a lot. Abraham Meyer will demolish the building he now occupies and erect a handsome brick store and dwelling.

—At Royer's Ford, Montgomery Co., David Springer has sold five building lots. One of the purchasers will erect a dwelling at once, the other lots will be built on the spring. John S. Morey, Sr. has bought a lot on Winter street, and will erect a dwelling.

—It is reported that John B. Lott, of Kittanning, Armstrong Co., the steel wheel builder, is about to organize a company with a capital of \$2,000,000 for the purpose of erecting four plants for the manufacture of wheels, one to be erected at Pittsburg, one at New York, one at Chicago, and the fourth at San Francisco.

—At Secane, Delaware Co., the summer boarding house known as Ye Highland Inn, owned by Willis P. Hazzard, is being enlarged by an addition 35x70 feet, which will contain about thirty-five rooms. A. C. Lewis has received the contract for the work, and expects to have it done for next season's trade.

—At Beaver Falls, Beaver Co., it is said that plans are now being drawn for a large rod mill for a company composed of George Layberger, a former brass roller with Carnegie, Phipps & Co., and three wealthy gentlemen of Pittsburg. Several sites have been offered the new company, but as yet no selection has been made.

—At Altoona, Blair Co., the subject of a new public building is being agitated. A committee has been appointed to visit Washington to explain the needs of Altoona for such a building. Messrs. H. H. Herr, Edmund Shaw, Charles Moore, L. Plack, William Stoke, W. L. Woodcock and B. F. Custer constitute the committee.

—At Pottstown, Montgomery Co., a petition has been prepared and signed by nearly three hundred property owners for the erection of a new depot in the eastern part of the town, probably at Keim's crossing. Mr. Thomas Beekley has the petition in charge, and will take it to Reading to present it to the proper officials of the Philadelphia and Reading Railroad.

—At McKeesport, Allegheny Co., a large new building will be erected at Fifth and Sinclair streets. The structure will be a two-story iron-clad building, with a steel roof, the dimensions will be 50x100 feet. When completed it will be occupied by W. D. Reed & Company, who will conduct the business of handling general building supplies, flour, feed, grain, etc. There is a prospect that another new industry will be established, that of a brick manufactory, to employ about one hundred men. The W. D. Reed Commission Company are ready to break ground for its new building.

—At West Chester, Chester Co., it is probable that two properties on Market street, adjoining the Court house, will be purchased as a site for an annex to the present Court-house. About twenty-three thousand dollars is asked for these two properties. A decision will be made soon, as it is the intention of the County Commissioners to push the work as rapidly as possible.

—At Wilkesbarre, Luzerne Co., at the last meeting of the school Board, steps were taken towards the erection of a new school building in the Second ward. H. C. Reichard, W. D. Jones, Dr. W. G. Weaver, Lawrence Casey and Edward Mackin are members of the Board. A number of public improvements are being agitated, and it is probable that by a vote of the people a loan will be negotiated for such purposes. Among the improvements contemplated are new sewers to cost \$20,000, a cremator \$10,000, a city hall \$50,000 and asphalt paving \$20,000.

—At Reading, Berks Co., the subject of the erection of a handsome hotel is being discussed by the Board of Trade. A meeting was held the other day, at which Messrs. F. P. Heller, James P. Sellers, Major S. E. Ancona and John D. Mishler were present, and a definite plan of action was agreed upon, and a stock company will probably be formed. Quite a number of sites have been suggested, but as yet none has been selected. It was thought at the meeting that a suitable location could be purchased for \$50,000, and that \$75,000 would be a sufficient sum for the erection of the hotel building, with an additional \$25,000 for furnishings. Another meeting will be held early in January, at which more definite arrangements will be made.

—At Uniontown, Fayette Co., a lot has been purchased by postmaster Baker, who will erect a dwelling at once. A handsome office building will be erected next season by Hon. N. Ewing, S. E. Ewing, Esq., and John Boyle, Esq., on the site now occupied by their present offices. The structure will be brick, with stone front, and will contain about twenty-four rooms, heated by steam, steam elevator and all modern conveniences. E. M. Burtz, of Pittsburg, Pa., is preparing the plans. The cost will be \$15,000. Squire McCrum will break ground in a few days for the erection of a two-story brick building 20x50 feet, with glass front. The first floor will be used for stores, and the second floor will be used by societies for Lodge rooms, etc.

—At Pittsburg, the property between Eleventh and Twelfth streets, on Penn avenue, has been bought by the Allegheny Valley Railroad Company. A new freight depot and general offices will be erected on the site. The cost will be about \$150,000; work will begin early in the spring. It is reported that Mr. Jackman has been approached in regard to his property on Penn avenue as a site for a new theatre. Henry A. Weaver & Company have sold the Gordon property on Penn avenue to Charles Lockhart for \$57,850. This property is on the North side of Penn avenue, between Eighth and Ninth streets. Mr. Lockhart will tear down the old house and erect a handsome business block in the spring. E. M. Rosenblatt will erect a three-story brick store and dwelling, to cost \$4,000. Mrs. Ringwalt will erect a frame two-story dwelling, to cost \$5,000. J. H. Sorg will erect eight two-story dwellings, to cost \$10,000. Bickel and Brennen, Hamilton Building, Fifth avenue, have finished plans for four dwellings to be erected by W. J. A. Kennedy, on Neville and Bayard streets. These dwellings will be of brick, with stone fronts, and will be finished on the inside with hard wood, and will contain all the modern conveniences. The contracts have not yet been let. D. F. Henry, of the Pleasant Valley street railway, expects to erect a large building on Fifth avenue in the spring, to be used as an auction house and furniture warerooms. Jacob H. Miller, 129 and 131 Fifth avenue, contemplates the erection of a fine office building in the spring.

—At Norristown, Montgomery Co., the trustees of the De Kalb street M. E. Church have decided to make a number of improvements to the main audience room, among which will be the introduction of new pews.

WANAMAKER'S

Of course there are styles of headwear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

PHILADELPHIA, WED'Y. JAN. 15, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

WHAT'S the matter with John Wanamaker for Governor of this grand old Commonwealth? said a prominent real estate man this week. The Quay and Magee factions are pulling and hauling away until the people are tired reading about it. Wanamaker is clean, capable and level headed, and his naming such a man as John Fields for Postmaster of Philadelphia, and sticking to him through thick and thin, is enough in itself to commend him to every decent voter in the State.

MAYOR FITLER has expressed considerable indignation against the treatment ordinary every-day people receive in the horse cars, although he admits that his experience is extremely limited. Why not, Mr. Mayor, try the Traction Company's cars on Market street, and get robbed out of your car fare a half dozen times and see how you like it. Perhaps, though, you would be better able to appreciate the experience if you were a poor man and had to foot it home on a wet night after a hard day's work. The Mayor of a great city can only discover the annoyances and sufferings of a patient people by a little practical experience. There is much, Mr. Mayor, that you do not know about Philadelphia and Philadelphians, but which you ought to know and could know without much effort.

Postmaster General Wanamaker's Report.

To do justice to a document of so much public importance as the first annual report of the

Postmaster General, would require more space than this Journal can afford.

Of course, Philadelphians have looked forward to the presentation of Mr. Wanamaker's report with greater interest than could be expected from the citizens of any other section of the country. They were, naturally enough, anxious to see for themselves just what their townsman, fresh from his dry goods store, without the usual political schooling of his predecessors, had to say from his highly executive position, about the most important branch of the public service, and those who, from their knowledge of the man, expected much, have certainly no reason to be disappointed.

The document itself is a refreshing novelty. It is as crisp as a new bank note.

It contains more salient points to the page than any report of a departmental head that we have ever read.

We have only room to quote a few pointed paragraphs. Speaking of the postal service, Mr. Wanamaker says:

* * * "Nevertheless, the postal service is not a money-making enterprise. It is not intended to be. It is a mistake to expect it to be self-sustaining until it is fully perfected.

"The post office is the visible form of the Federal Government to every community and to every citizen. Its hand is the only one that touches the local life, the social interests, and business concern of every neighborhood. It brings the Government to every door in the land and makes it the ready and faithful servitor of every interest of commerce and society. The people, from whom alone this all pervading agency springs into action, and by whose encouragement alone it can supply their jealous needs, simply want the system administered with such efficiency and economy that it shall offer them more and more accommodations and tax them less and less. The only method I can suggest by which all their desires may be gratified, is not merely to talk about the application of business principles to the Department; it is really to apply them. It is not to work in poor quarters; it is not to transport mails afoot when they should go in railroad trains; it is not to tolerate disloyal or listless employees if better ones can be had; it is not, finally, to keep unwillingly abreast of the times. It is always to lead the times."

Among other recommendations he suggests the appointment of a permanent officer as Controller or General Secretary as "no great business establishment can succeed that changes its principal officer once in fifteen months. To enlist and retain the services of a man of the ability required, would necessitate the payment of a large salary. He should be appointed by the President for ten years, subject to removal at any time if not equal to the work."

He suggests twenty-six postal districts according to population and territory; postmasters to be graded into three classes. The establishment of a Model Postoffice in Washington, to become the High School for postmasters all over

the country, to be under the charge of a Fifth Postmaster General, who is also to have charge of the educational and civil service work of the entire service.

He suggests the utilization of every known scientific or mechanical means to expedite the work of the Department; pneumatic tubes, in cities or towns for more rapid collection and distribution.

"The venerable clerk who is always with us, faithful to tradition and proudest of all in remembering precedents, should not worry and retard a progressive Department in this progressive age by making a wall of an opinion delivered in 1823 or citing a precedent that governed in 1848. And especially should the postal service utilize in this advanced time of the world everything that can make the mails anticipate the wishes and expectations of the people. The one man who should be expected to ascertain and apply to the postal service all possible better agents, whether they be thus employed in the business world or developed in science, is the Postmaster General, who, under the present methods is allowed no time for studying such great questions or of dealing with anything more than the passing subjects of every day."

He suggests the erection of a well-planned building in Washington, and the grouping together of all the post office business in that city.

He states that the total number of employees in the postal service is 150,935.

He handles the Western Union Telegraph Company without gloves. He wants the people to have the benefit of the telegraphic service at popular rates, and his aim is to have the telegraph companies work as cheaply for the Government as for other people. He recommends the retirement of superannuated clerks, worn out in the service, with a year's pay. He regards one cent postage as an easy possibility of the near future. He places the total net revenue of the Department, for the fiscal year ending June 30, 1889, at \$56,148,014.92, expenditures at \$62,498,198.35, showing a deficit for the year of \$6,350,183.43.

THE fire loss in Philadelphia, according to Chief Cantlin, of the Fire Department, is not as large as for several years previous. This is due, so he says, to the increased number of engines and the general excellency of the department. The total loss by fire in Philadelphia, is estimated at \$1,613,776, and the number of alarms were 925.

The Guarantee Trust and Safe Deposit Company.

The assets and liabilities of a company is its true measure of strength after all. Among the older companies, the Guarantee Trust and Safe Deposit Company, of this city, not only merits a place, from its high financial standing, at the top, but so high up in this scale of measurement that few over-top it. The statement of this company appears in this issue. It will be read with interest, from the fact that it represents continued growth and popularity, and close business management on the part of its officers. The assets of the company are given as \$7,754,114.54.

Two hundred and eighty-four permits were issued by the City of Erie, Erie Co., Pa., during 1889, representing an outlay of over \$600,000. The largest operation was the High School, which cost \$112,000, and of the 284 permits, 212 were for dwellings, mostly of a moderate cost.

Two hundred and forty-eight architects and engineers are engaged in designing plans for the tower which Sir Edward Watkin purposes to erect on the banks of the Thames. Of these architects and engineers, sixteen are Americans and Canadians, sixteen Frenchmen, and the balance Englishmen.

THE Equitable Trust Company, 624 Chestnut street, has opened its doors to the public under most favorable auspices, having upon its list of patrons many of our most wealthy and trustworthy citizens. The confidence thus reposed in the chosen officers of the executive board being of a satisfactory character, cannot but enhance the future prospects of the organization. Hon. William F. Harrity, ex-Postmaster, the president; Geo. M. Dallas, Daniel Donovan, vice presidents, and Frank J. Johann, secretary and treasurer, are gentlemen so well known to the financial and business community, as to be a sure guarantee of the future welfare of this institution.

The Land, Title and Trust Company.

Although, what might be called one of the younger companies, the statement made on January 2, 1890, by the Land, Title and Trust Company, whose place of business is 608 Chestnut street, places it at once in the first rank among the many well-known strong institutions of a like character, with which this city abounds. This is not the result of mere luck or fortunate investments, but the well-merited success that comes sooner or later, not only to the individual, but to the institution, that brings to bear on the management of its affairs the same business integrity and untiring industry which mark the successful business man in whatever occupation he may engage. The assets of the company have reached the handsome proportions of \$2,970,685.04.

The American Fire Insurance Company.

Notwithstanding the severe fire losses that have marked the last year, the statement of the American Fire Insurance Company, 308 and 310 Walnut street, for the year 1890, is one calculated to give satisfaction, both to the Company and to its patrons. The business shows a large increase over that of last year, and an accumulation to the Company's fund of \$141,753.76, besides which the assets show a cash capital, an Insurance Reserve Fund and a net surplus reaching the handsome sum of \$2,642,669.97. This statement is one of the best guarantees that could possibly be offered, both for the security of its patrons and for the fidelity and good business management of the officers of the Company, and insures the American Fire Company a first class standing in the insurance organizations of the United States.

The Northern Savings Fund, Safe Deposit and Trust Company.

The eighteenth annual statement of the Northern Savings Fund and Safe Deposit Company, which appears in our issue of this week, is one calculated to inspire confidence on the part of the public in such institutions. There is, perhaps, no city in the United States which, according to its population, supports as many institutions of a like nature as Philadelphia. This is doubtless due to a number of reasons, prominent among which are the well known frugality and saving propensities of the people as a class, but the main factor in bringing about this happy re-

sult is, after all, the confidence inspired in the minds of the people by the strict business methods and faithful performance of duty on the part of such companies as the above, which shows at the beginning of the new year the grand total of assets of \$3,134,742.75.

THE fourth annual convention of the Master Builders of the United States will be held at St. Paul, Minn., January 27, 28, 29, 1890. A majority of the Eastern delegates, inclusive of the New York delegation, will pass through Philadelphia on the twenty-fifth instant, and be joined at the B. & O. Railroad depot, Twenty-fourth and Chestnut streets, by the delegation from this city, which will be composed of the following members of the Philadelphia Builders' Exchange: William Harkness, Jr., Delegate-at-Large, Delegates, Stacy Reeves, Wm. H. Albertson, David A. Woelpper, Peter Gray, F. M. Harris, W. S. McGinley: Alternates, C. G. Wetter, Wm. B. Irvin, Wm. B. Carlisle, David A. Watts, Wm. Conway and U. Howell Rea. Special arrangements have been made for the trip, which being of a National character will undoubtedly prove of general interest to the building fraternity, and the legislation rules and laws adopted, place the building interests of the Nation upon a higher plane of security than they have heretofore enjoyed. The deliberations of the last National convention held in this city in February last, were remarkable for the ability displayed in debate, as well as the general dispatch of the vast amount of business transacted, and general satisfaction rendered by the various committees. The interests of both the builder and the client are of such vital importance that much good may be accomplished if the wiser judgments of these annual meetings are allowed to prevail, and equity, justice and integrity be their guiding watch word. This we know will always be the result where there may be a convocation of such men as compose the Master Builders of the United States.

Lot-Buyers.

Architects and others had better correspond with the following lot buyers, as many of them contemplate building.

William J. Weizel, of Pittsburg, Pa., lot on north side of Fifth avenue, at same place.

W. H. Simes, of Pittsburg, Pa., lot on Boquet street, at same place.

E. A. Myers, of Pittsburg, Pa., lot No. 463 Villa Park plan, at same place.

John Cassidy, of Pittsburg, Pa., lot on Sidney street, same place.

Henry Eller, of Pittsburg, Pa., two lots on Soffle street, at same place.

James McGowan, of Pittsburg, Pa., lot in Wilkin's estate plan, at same place.

John Williams, of Scatterdale, Pa., lot at same place,

E. L. Wentzel, of Latrobe, Pa., lot at same place.

George Zeilfelder, of Pittsburg, Pa., lot on Yew street, at same place.

Caroline McFerron, of Pittsburg, Pa., three lots on Idlewood street, at same place.

Peter Kearns, of McKeesport, Pa., lot at same place, \$890.

Nancy M. Cameron, of McKeesport, Pa., lot at same place, \$1,400.

Samuel C. Laughner, of McKeesport, Pa., lot at same place.

John Hoffman, of McKeesport, Pa., two lots in the Charles Maginn's plan, Columbia Park, at Allegheny, Pa.

Charles King, of Pittsburg, Pa., eleven lots in the Homewood plan, Penn avenue, at same place.

Sarah Ann Saunders, of Lansdowne, Pa., lot on corner of Maple avenue and Baltimore Pike, at same place, \$1,500.

Joseph R. Tate, of Philadelphia, Pa., tract of land on Fairview avenue, at Upper Darby, Pa., \$16,476.86.

Alfred W. Wilkinson, of Philadelphia, Pa., tract of land on Fairview avenue. Upper Darby, Pa., \$5,000

Miscellaneous.

At Birmingham, Jefferson Co., Ala., a large Opera House will probably be erected, from plan now being prepared by J. B. McElfatrick & Sons, 14 E. 23d street New York City.

At Watertown, Middlesex Co., Mass., a location has been selected, and nearly \$100,000 pledged towards the erection of a large family hotel, if the citizens' through the Board of Trade, will raise an additional \$50,000.

At Nashville, Tenn. The city engineer, has prepared plans for the construction of a circular sewer, nine feet in diameter, a distance of 3700 feet. The estimated cost is \$60,000. The Mayor can give information.

At Arlington, Middlesex Co., Mass., a library building will be erected in the Spring, to cost, \$250,000. As yet, no plans have been prepared nor an architect engaged, tho' it is said a Boston firm is making some sketches.

At Bridgeport, Jackson Co., Ala., the Bridgeport Land and Improvement Co., will erect a large cotton mill. A Company has been organized with a capital of \$400,000.

WANAMAKER'S

Of course there are styles of headwear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

JOHN N. GALLAGHER, Prop'r.

Refers with permission to William M. Singerly
Proprietor of Phila. "Record."

PHILADELPHIA, WED'Y. JAN. 22, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

It is estimated that as a result of the building boom of 1889, new fire risks to the amount of twenty-five millions were placed on Philadelphia properties alone.

The report of building operations in Pittsburg for the year 1889, shows a gratifying increase in matters belonging to real estate. The buildings erected included many handsome structures, but there was a noticeable increase in the number of medium sized dwellings, suitable for people of moderate means. According to the Builders' Gazette, 3,241 buildings were erected in 1889, as against 2,676 in 1888, an increase of 565 buildings. Inspector Brown, at City Hall, states that at least \$8,000,000 will be spent in building operations during 1890. If Allegheny is included, the sum will reach \$10,000,000.

The total amount of building operations for New York and Brooklyn, for 1889, is placed at \$95,000,000, showing a gain of \$25,000,000 over 1888. The sale of real estate for the two cities for 1889 amounts to \$351,000,000, against \$274,000,000, for 1888, a gain of \$77,000,000. It is claimed, that in New York, the building operations for 1889, amounted to nearly \$69,000,000, while, according to the report of the Brooklyn Commissioners, the building operations for the year, in that city, amounted to \$25,679,405, this amount added to \$69,000,000, the amount claimed for New York city alone, would bring the total of the two cities to \$94,679,405. It is

also claimed, that during the last ten years, New York has erected new buildings to the amount of \$491,000,000, and that the population is now 1,600,000.

If William Charlton, while alive and in his sane mind, had realized that at his death his estate would have to run the gauntlet of all kinds of professional leeches, that would attempt to fasten on it for the sake of the blood they could suck out of it, he would have certainly specifically defined by will, just what should have been done with it at his death. The change that has come over the minds of men in their feelings towards the wife and children of some one, who while alive, they regarded as their dear and honored friend, compared with the sentiment that dominated in the good old fashioned times when friendship meant something, and men possessed too much manhood to try to bilk widows and orphans on pleas of exaggerated services, can be explained only on the basis of growing selfishness and deteriorated manhood. If it were not for the Orphan's Court, which under the wise provisions of the laws of this commonwealth, is permitted to adjudicate the claims against estates, it would be no easy matter to anticipate the great wrongs that might be committed. As it now exists, it is a most difficult matter for the presiding judge to thoroughly sift the merits of the claimants. An hour spent in an Orphan's Court, will be found immensely instructive to a student of human nature, for it seems that there the better sentiments of human nature are temporarily, at least, subjugated by the worse passions of avarice and greed, too often, to the real detriment of the widow and orphan.

One of the daintiest calendars of the year has recently been issued by the Guarantee, Trust and Safe Deposit Company. It shows a well-executed and tinted cut of the company's handsome building, at 316, 318 and 320 Chestnut street, surrounded by separate calendars of each of the twelve months; which, in turn, are decorated with the flower suitable to each month. The whole is beautifully colored and indicates plainly that the company, besides its well-known substantial qualities, has an eye for the beautiful.

A Good Office Calendar.

The Fire Insurance Company of the County of Philadelphia has issued a yearly calendar, particularly useful for office purposes. It can be read without spectacles, which is a consideration too often ignored by the calendar maker. In this, as in everything else, the officers of the County Fire are practical. The company is a strong one, and its active business management and reliability commends it to the consideration of those having fire risks to place.

A Sensible Calendar.

As usual at this time of the year the new crop of calendars is coming in, they are of all sorts, sizes, shapes and kinds, and many of them can be had for the asking, but the best calendar that comes to our office is that published by N. W. Ayer & Son, Newspaper advertising Agents, Philadelphia, and which they send post-paid to any address on receipt of 25 cents.

This calendar is 14x22 inches, the upper portion being beautifully printed in colors, while the monthly sheets are printed with figures so plain that they can be easily seen at a distance. Although the calendar is an advertisement of their ever-growing business it is at the same time so valuable to those having use for a calendar that year by year the sale steadily increases.

The Department of Public Works, presided over by Louis Wagner, is pursuing a penny-wise and pound-foolish policy towards those interested in the building operations within the suburban or outlying districts of this city. Many capitalists and investors are to-day compelled to pay enormous sums of money in taxes upon property that must at the same time perforce lay idle and dormant because of the tardiness and dictatorial manner in which the money appropriated for highways is doled out, instead of opening up, grading and macadamizing new avenues and streets, laying of gas and water pipes, and doing such things as will benefit those who would improve the vacant lots and fields owned by these overburdened taxpayers, the money is absorbed in patching up streets that are almost yearly under contract, and upon new and untried experiments; worse still, frittered away upon a badly demoralized gas department, whose glimmering and flickering rays are not a fit comparison for a penny-dip candle in a dark well. Wake up, Mr. Wagner, to the wants and necessities of the hour; enlarge your ideas of what you should do, and how to do it; let your study be for the best interests of those whom you should serve, and heed the lesson of wisdom, that he who would be great, must first deserve the honor.

Removal.

Davis and Harvey's Real Estate and Stock Department removed to 514 Walnut Street.

Benjamin Franklin adopted as a maxim, the statement that three removals were equal to one fire. Benjamin might have been correct as to the times in which he lived, but the progressive business men of the nineteenth century know well enough that a growing, thrifty business, soon necessitates greater facilities and roomier quarters.

Push and enterprise, the key-note of success in these days of great possibilities, will soon make the old store, office or factory, a poor apology for the requirements of a truly prosperous business, and remaining at the "old stand" becomes an absurdity, if not an impossibility.

It seems but a few months ago that the old auction firm of Davis & Harvey announced its intention to add a real estate and stock department to the other branches of auction business. The new department, although but a fledgeling, compared with that of some of the other auction

houses, has, under the able and comprehensive management of Mr. H. T. Davis, grown to be a formidable competitor, for it now not only commands a large share of that special branch of the auction business, but such a share as to justify a change of location, and more central and larger offices.

With a well-earned reputation for able and capable management of business entrusted to it among property owners and trustees of estates, having real estate to sell, with also the well-earned recognition for integrity which the house itself has possessed for years, the real estate department certainly commences the new year under the most favorable auspices.

At all events, the public can rest assured that no effort will be spared on the part of the manager, to give entire satisfaction in every particular, but also to justify a continuance of that patronage and confidence the department has received since its inception.

When you again conclude to sell real estate at auction, give Davis & Harvey a trial.

Notaries Publics.

Appointed by the Governor for the County of Philadelphia, and authorized by law to acknowledge deeds, take depositions, etc., with date of commission and expiration of the same. There are about 800 in all. We shall continue to print them weekly until completed.

Building and Real Estate Notes.

An ordinance has been introduced in Councils for the repaving of a number of streets in Manayunk, among which will be Main street, and Washington, from Main to Leverington avenue.

The Philadelphia & Reading Railroad Company will erect a new station at Wister street, Philadelphia, the present one being inadequate for the increase of traffic.

A new church building is soon to be erected by the Hebron Memorial Church, Twenty-fifth and Thompson streets. Details and further information may be had of the pastor or the trustees.

The Luberg Manufacturing Company, Fourth and Commerce streets, having purchased a plant outside the city limits, has resolved not to build upon the property recently purchased on Franklin, above Vine street.

Francis Berger and Annie Davis, of Schuylkill township, Chester Co., Pa., have purchased two acres of fine building ground at Forty-eighth and Walnut streets, Philadelphia, on which they may build at an early day. Price paid, \$8,600.

John J. Cassidy, builder, 1102 Camilla street, has purchased of W. L. Landreth, eighteen lots on Emily street, on which he will erect that number of two-story houses, brick, fitted with every modern convenience, including electric bells, etc.

W. F. Albrecht, builder, 2341 N. Twenty-ninth street, has purchased of P. Collins, twenty-one lots fronting on Clearfield, Rosemont and Thirtieth and Rosemont square, for the sum of \$40,915 89, on which he will erect a number of houses two and three-story, trimmed with stone, fitted with all modern improvements.

The Board of Surveyors have passed a resolution to have a contiguous line upon the North side of Chestnut street, between Ninth and

Tenth, of sixty-one feet four and three-quarter inches, which in any event will only affect the three properties unaltered at the N. E. corner Tenth and Chestnut street.

In our issue of December 25th, 1889, we noted the prospective purchase of the property of E. H. Butler, Germantown, by the Junior Germantown Club, and the alteration of the same by them. The transfer has just been made and the operation will now be considered and consummated, as noted at that time.

A charter has been granted at Harrisburg, to the Bryn Mawr Hotel Company, with a capital of \$300,000. The president of the company is Joseph E. Gillingham, and the secretary and treasurer William Righter Fisher. As previously mentioned, architects are now at work on the plans, and work will begin early in the spring.

John G. Ruff, builder, 1925 Poplar street, has bought of John E. Faunce, an irregular lot of ground on Ridge avenue, at the corner of Twenty-ninth street, and will soon commence the erection of a fine row of houses thereon, to be of brick, stone trimmings and fitted on interior with all modern improvements. Cost of ground \$15,275.

The hay market property has been purchased by Mr. W. A. Newton, through his Counsel, George W. Marter, Esq., Attorney-at-Law, No. 923 Spruce street. This property is situated in a very popular section of our city, and has three fronts, one on Seventh street, front 427 feet, one on Oxford street, front 175 feet, one on Marshall street, front 431 feet, which is to be built up in the spring, with fine improvements.

There is quite a strong movement among the members of the Church of St. Chrysostom, Twenty-eighth and Susquehanna avenue, towards building a new parish building, the present structure being too small for the work. There is in hands of the treasurer \$2,000, and \$1,000 more is available when the work shall be under way. The work is urged to be begun at once by Bishop Whitaker.

W. J. Craven & Sons, plumbers and gas fitters of Manayunk, have purchased from Davies & Brother, of the same place, the large three-story brick building adjoining their present place of business. It is the intention of the purchasers to improve the property by a new front and interior alteration, as well as an addition of another story. This will be done as soon as arrangements can be made.

The Park Commission have resolved to appropriate \$5,000 for the purpose of improving the Centennial concourse in front of Memorial Hall, in Fairmount Park; also to have plans and specifications prepared for the erection of a grand entrance at Green street. It is their intention to remove the two large winged horses to this point and remount the same. This work will be done under the supervision of Park Superintendent, Russel Thayer.

A large piece of ground facing Main street, near Wayne Junction, has been bought by the Philadelphia and Reading Railroad Company, and will be used as the site for a new station.

A number of the citizens of Paschalville, West Philadelphia, have formed a stock company for the purpose of erecting a building in that locality for public and private purposes. They have purchased a lot on Woodland avenue, near Island road, costing \$4,070, and at an early day will erect the structure, which will be three stories high. The first will be for stores, the second a public hall and the third will be arranged in a series of Lodge rooms for the accommodation of the various societies in that vicinity. Further information may be had of the secretary, Mr. George Roe, Seventieth and Darby road, and Mr. John Hall, Paschalville.

The Philadelphia Abattoir Association, at a meeting held on the 15th instant, instructed the solicitor, Horace P. Hepburn, 528 Walnut street, to purchase a tract of several acres of ground in the vicinity of Callowhill street bridge, West Philadelphia, for the purpose of erecting a num-

ber of buildings adapted to the slaughter of all kinds of marketable meat, such as beef, mutton, pork and veal. It is their intention to become joint operators with the American Live Stock Association in the disposal of the stock raised upon the company's domain in Western ranches. This company has already constructed special cars for transportation on hoof, and as soon as the deeds have been recorded, plans will be prepared and the contracts awarded by the Philadelphia company. In connection with the above movement may be considered as largely interested, Benjamin F. Holmes, president of the American Live Stock Express Company.

Architects' Notes.

The plans prepared by Furness, Evans & Company, 209 S. Third street, for the Bryn Mawr Hotel, have been accepted.

Cope & Stewardson, architects, 212 S. Third street, are engaged upon plans for a fine large dormitory, to be attached to the Bryn Mawr College, to be fitted with all modern conveniences. Fuller details when plans are completed.

Brown & Day, architects, 1305 Arch street, have upon the boards plans for a house for Thos. Weinman, at Cape May, N. J. It will be three stories high, shingle roof, heated by hot air, fitted on interior with modern conveniences, and will cost about \$2,500.

Josiah S. Brien, architect, 1413 Filbert street, is engaged in making plans for a paint factory for S. Bowen and Sons, located at Fourth and Venango streets, to be of brick, stone trimmings, heated by steam, fitted with all machinery used in manufacture of paint material.

C. C. Phillips, architect, 20 S. Broad street, has made plans for a Presbyterian Chapel, to be erected at Elm, South of Paschal street, to be one-story, stone, fitted with church furniture throughout, heated by hot air, hard wood finish, gas pipes introduced and finished in good style.

As a recognition of the ability and fitness of Mr. John Ord, the assistant architect of the Public Buildings, to the late John McArthur, chief architect, the Building Commission have chosen him to fill the position of chief architect in the completion of this gigantic undertaking. Mr. Ord comes to the discharge of the responsible duty, with a knowledge of the original plans that will enable him to reflect credit upon the good judgment displayed by the Commission in his selection.

Willis G. Hale, Chestnut above Fifteenth street, has prepared plans for a handsome building to be erected at Bethlehem, Pa., for ex-burgess George H. Myers. The building will be five stories high, with turrets and dormer windows of Queen Anne style. The material will be stone and Milwaukee brick, ornamented with carvings, plate glass windows, elevators, probably steam heat, and all modern improvements. When completed it will be one of the finest buildings in Bethlehem.

Otto C. Wolf, architect, N. E. corner Broad and Arch streets, has been given the contract to prepare plans for the great structure to be erected by the Consumer's Brewing Company, of New York, at avenue A, Fifty-fourth and Fifty-fifth streets. This will be one of the largest and handsomest breweries in the world, six stories high, and will cover fourteen large building lots. The brewery proper will contain two 350 barrel kettles, a large store house, capacity of 75,000 barrels beer, a mill house, bottling works, offices and stables. All will be built of iron bricks and cement, and will be of the most approved workmanship in detail throughout.

Through Maryland.

At Frederick, Frederick Co., the congregation of the Lutheran Church will erect a Sunday school building from plans prepared by Architect N. T. Haller, of Washington, D. C.

At Deer Creek, Harford Co., the congregation of Saint Mary's Roman Catholic Church

will erect a new church, to cost about \$7,000. Rev. Myssen can give information.

At Elkton, Cecil Co., it is said that a large cotton mill will be erected on the Singerly property. The supposed site is opposite the Pennsylvania Railroad station.

At Baltimore, the Maryland Screw Company, with a capital of \$50,000, will erect a factory at Olive street and Guilford avenue. The dimensions will be 65x100 feet. Edward Austin is president of the company. A four-story warehouse to cost \$15,000 will be erected by Mr. McCormick, of the N. Y. Confectionery Company, on North Howard street. There will be plate glass windows and galvanized iron cornices. The Rialto Building will be remodeled, from plans prepared by George Archer, 52 Lexington street. New passenger elevators, vaults and safes will be put in. The cost of the improvement will be about \$15,000. Twenty-three stone and brick dwellings will be erected from plans prepared by Wm. F. Weber, 39 Lexington street. There will be plate glass windows and slate mansard roof. The cost will be about \$100,000. Baldwin & Pennington have prepared plans for new fronts and interior alterations for 323 and 325 W. Baltimore street. Brick, stone, copper and plate glass windows will be used; new elevators, steam heat. Cost \$30,000. Mr. Joel Gutman will erect a large warehouse on Eutaw street. Passenger and freight elevators, duplex steam pump and fire escapes will be wanted; also steam heat. The cost will be \$125,000. The architect is Charles L. Carson, 52 Lexington street. Henry Shamburg will erect seventeen two-story brick dwellings on Charles street. Louis M. Cusker will erect thirteen dwellings to cost about \$20,000. A residence to cost about \$20,000 will be erected by Mr. T. J. Morrison. F. C. Adams will erect ten dwellings to cost \$18,000.

Through Delaware.

At Wilmington, the Directors of the Street and Sewer Department have accepted the route of the Engineering and Sewer Department for the proposed intercepting sewer along the Brandywine. These plans are in accordance with the suggestions of Carroll Bassett, consulting engineer, at Newark, N. J. Milo W. Locke, a member of the committee appointed by the Board of Trade to see Congressman Pennington, in regard to an appropriation for a new post office, reports that the indications are favorable for the passage of the bill. Work has begun in clearing away the ruin preparatory to the erection of the new theatre, at Tenth street and Delaware avenue. J. D. Allen has prepared the plans. Taylor & Peacock are the contractors. The new structure will be two stories and mansard roof, with tower. The seating capacity will be 1000.

Washington, D. C.

The Transparent Ice Company, of West Washington, will soon begin the erection of a large brick stable on Water street. The wharves belonging to the company will also be improved. The cost of the improvements is estimated at \$10,000. Dr. Ritchie has taken out a permit for the erection of eight brick dwellings on Prospect street, to cost \$20,000. Thos. Gray & Son will erect a brick store and warehouse, to cost \$3,000. A bill has been passed by the Senate, providing for the erection of a hall of records. The Senate Committee on Public Buildings and grounds has decided to report to Congress a bill for the condemnation and purchase of the two squares of ground directly North of the site of the Congressional Library, on which to erect a building suitable for the purposes of the Supreme Court. The congregation of Saint Mary's German Catholic Church, on Fifth near H street, has decided to erect a handsome church edifice, to cost about \$60,000. Rev. Father Glaab is in charge. Mr. J. W. Nairn will soon begin extensive improvements

and alterations to the Windsor House, at the S. E. corner of New York avenue and Fifteenth street. W. Bruce Gray, 600 Thirteenth street, N. W., is at work on the plans. Architect Goenner, 916 F street, N. W., has made the preliminary sketches for a large apartment house 55x120 feet, six stories high, pressed brick, stone and terra cotta trimmings, steam heat and passenger elevator. The cost will be \$70,000. Mr. William H. Rose will erect five two-story frame dwellings, to cost about \$10,000. H. R. Grimm, St. Cloud Building, has prepared the plans.

Through New Jersey.

At Avalon, Cape May Co., there is talk of another excursion house and a hotel.

At Milton, Morris Co., the Methodist Church destroyed by fire, will be rebuilt.

At Long Branch, Monmouth Co., a new Lutheran Church will be erected. \$150,000 will probably be spent in street paving.

At Haddonfield, Camden Co., Edmund Evans will soon begin the erection of a handsome residence on Main street.

Of course there are styles of head-wear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

VOL. V.—No. 4. PHILADELPHIA, WEDNESDAY, JANUARY 29, 1890. PRICE 15 CENTS.

Architects' Notes.

M. Feilding, architect, No. 110 South Fourth street, Philad'a, has plans on the boards for alteration of a house on Walnut street, this will include the entire renovation of interior and exterior woodwork.

The Erie County Bank of Buffalo, N. Y., has advertised for competitive plans for an eight or ten story fire-proof building. The plans and drawings must be in the hands of the Trustees by March 1, 1890. \$500 each, will be paid to six outside architects sending plans. The building to cost \$750,000.

Moses & King, architects 226 Walnut street, Philad'a, have completed plans for a new addition to the West Jersey Title and Trust Company, Camden, N. J. It will be of brick, trimmed with light and dark colored stone, and in uniformity with the present structure, to be fitted with electric-light work and all improvements, etc.

Frederick G. Thorn, architect, 1345 Arch street, has plans upon the board for a hotel to be erected at Cape May, N. J. T. M. Reger is the owner. The structure will be frame, three stories high, fitted with all modern improvements, inclusive of electric bells, lights, fine sanitary plumbing, etc.

Frank R. Watson, Architect, 518 Walnut St., Philadelphia, has plans completed for a house for Mr. Joseph Butterworth at Chester, brick, colonial in style, 27x49 feet, on interior it will be fitted with all modern improvements, wood mantels and best of plumbing, etc., also plans for R. C. Church, St. Joseph, at Girardville, Pa., size 60x140 feet and to be built of brick, one story.

Lindley Johnson, architect, 512 Walnut street, has completed the plans for a large stable; for John Wanamaker, to be located at Broad and Carpenter streets. The structure will be seven stories high, and 150x231 feet, two first stories will be of stone, remainder brick, with stone trimmings, elevators will be introduced, second and third floors will be reached by graded gangways. The building will be as nearly fire proof as can be made.

A. Druiding 27 Metropolitan Block, Chicago, Ill., has prepared plans for the following: Church of the Precious Blood, to be erected at New London, Wis., brick, with stone foundation, 54x135 feet, tower 155 feet, heated with hot water, hard wood finish, altar, bell &c., Chapel attached, cost \$35,000, Rev. Gasper, pastor; also Catholic Church near Wytherville, Va., 40 by 80 feet, tower 100 feet, frame, cost \$10,000, Rev. McBride, pastor. Work on both to begin in Spring.

J. B. McElpatrick & Sons, 23 East Fourteenth street, New York City, have completed plans for remodeling the "Grand Opera House," Broad street and Montgomery avenue, this city, and work will begin under their supervision at an early day after February 9th, 1890, which will close the winter season at that house. The

specifications include the diminution of the auditorium, enlargement of stage front, and, at the same time, preserving the present comfortable seating capacity. The dome will be altered, and new and elegant wing boxes fitted up on the parquet circle. Ventilating, heating and lighting capacity will be somewhat altered. The ceiling will be of papier masche, frescoed, and adorned by a system of electric light work. Proposed cost of renovation, \$30,000.

The designs submitted by Furness, Evans & Co., architects, 209 South Third street to the Bryn Mawr Hotel Company, have been accepted, and they will be the supervising architects of the structure. The plans are French in design, the material will be gray-stone and Port Deposit granite, four stories high, L shaped, one wing being in size 40x160 feet, the other 40x200 feet, and will have rooms for about 250 guests, these apartments will be arranged in suites, fitted in the most elegant style, with every comfort. Electric bells and light will be introduced, elevators and all the most approved hotel arrangements are intended to be placed on the interior in order to fit this hostelry for a winter, as well as summer house. The plans will now be worked up in detail, and specifications will be prepared for the guidance of builders in making estimates.

Building and Real Estate Notes.

The congregation of the First Baptist Church Germantown is looking for a more desirable location on which to erect a new Church edifice.

At a recent meeting of the Trustees of the Siloam M. E. Church at Paschalville, it was decided to raise a fund to erect an annex to the present structure.

The Omnibus Company, general, of Philadelphia, has purchased part of the late State Fair Grounds, and will erect thereon stables, offices and waiting rooms, coach houses and other appurtenances.

Henry G. Schultz, builder, 2633 Germantown avenue, has purchased a plot of ground at Twenty-second street and Bellevue avenue, 80x112 feet, and will erect a number of brick houses, two-story, fitted with every convenience.

J. E. & A. L. Pennock, builders, 305 Walnut street, Philad'a, have been awarded the contract for the erection of the additional structure to the Brown Bros.' building, Fourth and Chestnut streets.

J. E. & A. L. Pennock, builders, 305 Walnut street, Philad'a have been granted a permit for the erection of the large apartment house, to be erected at Eleventh and Pine streets, the property of W. G. Warden, Esq.

The Blankley Bros. (Way Foundry Company), of Lansdowne, have purchased a site at Twenty-second and Allegheny avenue, and will, at an early day, erect a foundry of brick, one-story, stone trimmings, offices and general machinery.

Mr Thos. H. Parks, Builder, Real Estate, and Insurance Broker, has concentrated all of his offices at 18th and Diamond Streets, where arrangements have been made to secure more room in order to meet the demands of his constantly increasing business.

The Equitable Brick Manufacturing Co., is about to commence operations upon the erection of proper buildings for its new plant located at 60th and Pine Streets, this will be one of the largest and best equipped brick yards in Philadelphia, when completed

James H. Stevenson, 140 South Sixth street, has purchased additional ground in the vicinity of his former operations, at Thirtieth street, Susquehanna and Ridge avenues, and will erect a large number of houses, two and three-story, brick, brown-stone trimmings, fitted with electric work, etc.

Merritt & Thornton, builders, Fortieth and Poplar streets, will continue the building operations, intended, upon the property known as 'Eaglesfield,' at Thirty-ninth, Fortieth, Poplar streets and Girard avenue, on which they will build a large number of two and three story houses, brick, stone trimmings, electric bells, and all modern conveniences,

A committee of the Methodist Quarterly Conference, composed of members of the Haines Street M. E. Church, Germantown, has been appointed to select a site for the erection of a church for the above denomination. It consists of Isaac Smythe, Sr., Wm H. Sheldermine, H. L. Townsend, Dr. G. E. Palen, T. B. Cope, Rev. Dr. James Morrow and Rev. J. H. Harris, all of the above Conference.

An ordinance has been offered in Common Council to pave Marshall street, from Poplar to Oxford street, with asphalt; also, to permit the Players' Brotherhood Club to erect frame sheds on their grounds, at Broad and Dauphin streets, and one by Mr. James, to appropriate to the Board of Education \$8,000 to purchase two lots on Addison street, east of Seventeenth street; also, \$45,000 to build a school house in the nineteenth ward; also, \$7,000 to purchase a lot of ground, for school purposes, at Paul and Unity streets, Frankford.

The Property Committee of the Board of Education has, in conjunction with the School Committee of City Councils, distributed the general funds appropriated to the Board: First Section, \$5,500 to purchase lot, at Seventh and Dickinson streets, adjoining the Grammar school. Twenty-sixth Section, \$1,500 to purchase lot adjoining the Landreth School, at Twenty-third and Federal streets. Twenty-eighth, Twenty-ninth and Thirty third Sections, \$58,000 each for new division school houses. Thirty-second Section, \$15,000 for purchase of a lot at Twenty-second and Berks streets, and Thirty-fourth Section, \$45,000 for a new twelve-division school house, at Forty-ninth and Seneca streets.

Statement of the Penn Mutual Life.

With a new office building well under way which, for architectural beauty, is second to none in this country.

With a new and increased business for 1889 represented by 6786 new policies for \$18,341,805.00.

With a surplus of \$2,626,196.39 sufficient at least to meet the proverbial rainy day, should it ever come, the officers of the Penn Mutual Life Insurance Company should feel particularly happy over the condition of affairs their annual report represents.

Through Delaware.

At Wilmington, the vestry of Calvary Church is considering the purchase of a site on which to erect a church for mission purposes.

At Dover, an armory to cost \$3,200 will be erected by Company D, of the State National Guard.

Through New Jersey.

At Bloomfield, Essex Co., the De Lava Separating Company will enlarge its factory.

At Vineland, Cumberland Co, the Board of Trade have the establishing of a window glass factory in view.

At Ocean Grove, Monmouth Co. John T. Stapler will erect a cottage to cost about \$2,500. I. R. Hill will erect a dwelling to cost \$2,100.

Jersey City and West Hoboken will build a sewer to drain the Northern section of the city and West Hoboken. The cost will be \$67,000.

At Salem, Salem Co., a sewerage system is contemplated at a cost of \$20,000. The Rumsey Building will probably be altered into a silk factory.

At White House Station, Hunterdon Co., the congregation of the Episcopal Church contemplate the erection of a church edifice. Ex-Congressman Pidcock, can give information.

At West Asbury Park, Monmouth Co, Wesley B Stout will erect a cottage to cost \$10,000, and a stable to cost \$2,600. Nelson H. Kilmer is the builder.

At Beverly, Burlington Co., Charles Parsons will erect an addition to his tool works on Rail road avenue. A new boiler and engine will be wanted.

At Long Branch, Monmouth Co., the Monmouth Park Association will erect a grand stand

at its race course, to cost \$133,000. The Walter Iron Company have the contract.

At Orange, Essex Co, the Women's Home Protective League has taken steps towards the erection of a new hall. Mrs. W. H. Crane, Fulton avenue and Dodd street, can give information.

At Elmer, Salem Co., there is talk of the erection of a glass factory by a co-operative company composed of twenty glass blowers from Bridgeton, Cumberland Co. The capital is said to be \$20,000.

At Atlantic City, John L. Young and Stewart R. McShea have bought the property of John W. Wright, on Maryland avenue, for \$30,000. It includes all the beach front of 165 feet, now occupied by Bews, Rutter's & Johnston's bath houses.

At Asbury Park, Monmouth Co, Samuel Schwartz will remodel his dwelling at a cost of \$2,600. The Taylor property, on Third avenue, comprising three lots, a cottage and stable, has been bought by Mr. J. E. Ralph, who is said to contemplate the erection of a hotel on the site at some future time.

At Haddonfield, Camden Co., the Peerless Vitriified Emery Wheel Company has filed articles of incorporation. The incorporators are Thomas J. Collins and D. C. Newman Collins, of Haddonfield, and Thomas J. Cullen, of Trenton. A handsome residence will be erected in the spring by Mr. John Reeves, of Cottage avenue.

At Harrison, Hudson Co., a station of the Newark P. O., Common Council, at a recent meeting, took steps towards the erection of a town hall in place of the one destroyed by fire some years ago. A resolution was passed that the plans prepared by Stalher & Steiger be accepted for a building 50x30 feet, two stories high, and basement. The committee on Public Building and ground was authorized to advertise for proposals.

At Newark, the Citizens' Gas Company will enlarge its works. The American Tobacco Company, with a nominal capital of \$25,000,000, has filed articles of incorporation with the clerk of Essex County. It is proposed to erect a number of new factories, one of which will be located at Newark. A number of Newark capitalists have organized a company, to be known as the German American Brewery Company. The old Boppe Brewery, in Orange street, will be enlarged and refitted for the purposes of the new company.

At Camden, the Board of Freeholders contemplates some changes in the present Jail, Court house and Public office buildings. The rooms in the jail at present occupied by the Freeholders and female prisoners, will be turned into a hospital and women's apartment. A padded cell will be constructed, and it is thought another story will be added to the register and clerk's building. Quite a large appropriation will be required for the work. Robert Kaighn will erect ten two-story brick dwellings at Liberty street and Hyde Park. T. F. Adams will erect three two-story frame dwellings on Eighth street. John Atkin, 1103 Federal street, will erect fifteen two-story dwellings at Ninth and Pine streets. John F. Betz has taken out a permit for the erection of five two-story dwellings on Mechanic street.

Notaries Public.

Appointed by the Governor for the County of Philadelphia, and authorized by law to acknowledge deeds, take depositions, etc., with date of commission and expiration of the same. There are about 800 in all. We shall continue to print them weekly until completed.

Washington, D. C.

The Circuit Court, presided over by Justice Montgomery, has appointed a committee to take steps in regard to the erection of a building suitable for its purposes. N. G. Haller 816 F. St. N. W., has plans for five three story dwellings on Sherman St. to cost about \$23,000, pressed brick, stone trimmings, slate roofs, furnace heat. James G. Hill has prepared plans for an addition to Woodward & Lothrop's building at F and 11th Sts. N. W., steam heat, cost \$20,000, Calderon Carlisle, is the owner. The Hygienic Ice Company will erect a building to cost \$35,000 from plans drawn by John G. Meyers, 711 G. St. N. W. P. N. Dwyer, 2018 M. St., N. W., has made plans for alterations to St. Joseph's Church at 2nd and C. Sts., N. E. Mr. H. A. Griswold will erect twenty cottages at Anacostia (a station of Washington P. O.) The Anacostia Building Association will erect as many more. W. A. Wansleben will also erect a dwelling at Anacostia. Senator Morrill has introduced a bill into the Senate, appropriating the following sums for the new Zoological Park. \$15,000 for buildings, \$9,000 for barns, fences &c., \$2,000 for repairs to the Holt mansion and for office furniture, \$2,000 for constructing artificial ponds &c., \$7,000 for roads, walks, bridges &c., \$13,000 for drainage, miscellaneous, \$5,000.

Through Maryland.

At Baltimore, Benj. B. Owens, Lexington and Charles Streets, has prepared plans for a business and amusement building to be erected at Sparrow's Point, brick and stone, 40 by 125 ft., steam heat, theatre and gymnasium appointments, cost \$25,000 no contracts let. Charles E. Cassell will draw the plans for the new office building to be reconstructed from the old Law buildings on Lexington St. I. Hazazer will remodel his dwelling from plans prepared by Harry McClellan, 308 North Avenue, furnace heat, new gas fixtures, the same architect has prepared plans for an addition to Signor Hazazer's dancing academy.

Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Royer's Ford, Montgomery Co., John S. Pennypacker will erect four dwellings.

—At Spring City, Chester Co., there is talk of erecting an electric-light plant.

—At Newtown, Bucks Co., a new Friend's school building will be erected.

—At Morgantown, Berks Co., \$3,000 has been subscribed towards the erection of a town hall.

—At Beaver Falls, Beaver Co., S. Swoger & Company contemplate the erection of an organ factory.

—At Hellertown, Northampton Co., \$10,000 has been subscribed for the erection of agricultural works on land owned by Jacob W. Hagey.

—At Swarthmore, Delaware Co., a new building is contemplated to be used as a gymnasium for the young women.

—At Ridley Park, Delaware Co., the interior of the Baptist Church will be decorated and otherwise improved.

—At Harrisburg, F. M. Buffington will erect a residence on Pepper street.

—At Devon, Chester Co., it is said that negotiations are pending for the erection of a hospital, to contain one hundred rooms.

—At Mauch Chunk, Lehigh Co., the Grand Jury has recommended the erection of a new Court house.

—At Saxton, Bedford Co., the shops of the Huntingdon and Broad Top Railroad Company, destroyed by fire at a loss of \$50,000, will be rebuilt at once.

—At Newtown, Delaware Co., a lot has been purchased from Mary J. Richardson by the W. C. T. U., on which a building for the use of the society will be erected in the spring.

—At Erie, Erie Co., the chapel at the Soldiers' Home will be enlarged. Generals Beath and Wagner are among the commissioners of the Home.

—At Swarthmore, Delaware Co., the residents have petitioned the Springfield township School Board to erect a new school house at Swarthmore. It is thought the petition will be granted.

—A circular has been issued for the purpose of raising funds among the school children for a monument to be erected in Capitol Park, Harrisburg, to the memory of the late Superintendent of Public Schools, Higbee.

—At Irwin, Westmoreland Co., ground has been broken for the erection of a hotel on the Goehring estate. The building will contain about forty rooms and all the modern conveniences will be introduced.

—At Norristown, Montgomery Co., a monument will be erected to General Hartranft. Nearly \$6,000 has been subscribed. The Hartranft Monument Commission will meet in Philadelphia on February 20th, to receive designs and proposals, and to award the contract.

—At Dunbar, Fayette Co., Messrs. Bliss and Marshall have donated a site on which to erect a rolling mill. Leechburg capitalists will erect the mill if the town will take \$50,000 of the capital stock. Most of the stock has been taken.

—At Lansdowne, Delaware Co., the stock in the new club house to be erected by the Lansdowne Athletic Association is nearly all taken. The new building will include a club house, gymnasium and library. Dr. H. C. Bartleson is president of the Association.

—At Penn's station, Westmoreland Co., a new plant will be erected by the William G. Price & Co., of the Berlin Iron and Lead works, now located at Pride and Caldwell streets, Pittsburg. About ten acres have been purchased and work will begin on the new building in a short time. A new shot tower will be erected.

—At Manheim, Lancaster Co., General Heintzelman Post, G. A. R., has leased the hall above the new post office building for a term of five years. The room will be handsomely furnished and fitted up by the Post Councilman. Alfred N. Dyer and Captain B. S. Houser are trustees of the Post.

—At Scranton, Lackawanna Co., the subject of the erection of a Board of Trade Building is being agitated. A bill has been introduced in the House by Congressman Scranton, increasing the appropriation for the purchase of a site and the erection of a government building at Scranton, to cost \$300,000.

A charter has been granted at Harrisburg to the Ashbourne, Cheltenham and Philadelphia Railroad Company. This road will be about three miles long, beginning near Ashbourne and extending to near Cheltenham station, on the Phila., Newtown & N. Y. R. R. The president is Robert Alexander, of Philadelphia.

—At Penllyn, Montgomery Co., the Penllyn Real Estate Company has applied for a charter. The officers of the company are A. M. Walkup, president; Dr. C. B. Hough, vice president; E. B. Shoemaker, secretary, and John S. Buchanan, treasurer. The company has now a tract of thirty acres, which will be cut up in lots of a

size to suit purchasers. The office of the company is at Ambler, Montgomery Co., Pa.

—At McKeesport, Allegheny Co., a petition is being prepared asking for an appropriation of \$75,000 for the erection of a government building for post office purposes. The measure will be in charge of Congressman Ray. A bridge to cost \$14,000 will be erected across the Monongahela river, between McKeesport and Duquesne. The First Swedish Baptist congregation has bought a lot on Jennie Lind street, on which a church will be erected. Rev. Kalberg is the pastor.

—At Wayne, Delaware Co., Wendell & Smith have sold dwellings to the following Philadelphians, who will take possession in the spring: Samuel S. Ellis, 1519 Chestnut street; William C. Armstrong, 1714 Columbia avenue; Ralston C. Ware, 1113 Market street, and Lucius W. Elder, 124 N. Seventh street. These sales aggregated \$29,050. Wendell & Smith have bought a plot of ground between Wayne and Strafford, on which a number of dwellings will be erected in the spring.

—At Washington, Washington Co., the local committee having the matter in charge has raised the \$50,000 necessary, and there is every probability that the Steel Boiler Tube works of which William P. Tyler, of Boston, is the head, will be located at Washington. Plans are already prepared for a tube mill 80x250 feet, a scarping and bending mill 80x100 feet, and a rolling mill 100x100 feet. Nearly five hundred men will be employed in the works. James L. Downing will erect a residence on Jefferson avenue.

—At Allegheny, Allegheny Co., the Sterret estate want to erect a new post office building at the corner of Ohio and West Diamond streets. This is a very favorable location, and it is thought the government will accept the proposition made by the estate. The proposed structure will be brick and stone, four stories high, with a front of 40 feet on Ohio street, and 85 feet on West Diamond street. The second story will be occupied as offices and the third and fourth stories as Lodge rooms. It is thought that work will begin on this building about April 1st. About \$50,000 will be expended on remodeling Allegheny City Hall, from plans prepared by Architect Anglin.

—At West Chester, Chester Co., a charter has been applied for by a number of gentlemen to organize the Dime Savings Bank, of Chester Co. The signers are Messrs. R. T. Cornwell, A. P. Reid, H. C. Reagan, P. E. Jefferis, E. P. Darlington and others. The headquarters have not been selected, and it is not yet decided whether a building will be erected or rooms secured in the McConkey building, and fitted up for banking purposes. Messrs. J. B. Gray, C. W. Roberts, Chief Burgess, M. S. Way, and Major L. G. McCauley are interested in the proposed ice manufacturing plant. Muzante Bros. will erect four brick dwellings in the spring on Nields street. Four dwellings will be erected by Clement Cooper in the spring.

—At Pittsburg, an effort is being made to purchase a lot and erect a fire engine-house in the Thirty-first Ward. Mr. Nisbet, Councilman of that Ward, has the matter in charge. The property at the corner of Fourth avenue and Ferry street, has been bought by Messrs. Rasner & Dinger, sheet metal workers, who will erect a four-story brick factory 70x80 feet on the site. The will of the late John H. Shoenberger, who left over a million dollars to establish the Saint Margaret Memorial Hospital, in Pittsburg, was admitted to probate at New York. The lot at Sixth avenue and Wood street has been sold as the site for a large office building. The new electric-light plant to be erected by the Allegheny County Light Company, on Duquesne way, will cost about \$500,000. Mr. Robert Nay Smith is the chief engineer of the Company. M. Siebert & Company will erect a large furniture warehouse at Penn avenue and Eighth street. A storage house will be erected by the Union Ice Company. Chief Bigelow will probably have an ornamental fence put around

Arsenal Park; also erect four entrances. The Westinghouse Electric Company will soon begin the erection of works near Brinton Station. The Chautauque Lake Ice Company will erect a two-story brick building on Pike street, for the manufacture of artificial ice. S. S. Marvin will erect a two-story brick stable, to cost \$20,000. Joseph Stillburg, Fifth avenue and Market street, is the architect. R. B. Ivory will erect a residence at Sewickley, to cost \$8,000. J. W. Offerman, Verner Building, is the architect. Alston & Heckert, Verner Building, have plans for two dwellings for Messrs. Fletcher & Flahaven.

PHILADELPHIA, WED'Y. FEB. 5, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

Baltimore shows a falling off of about twelve per cent in the number of new buildings erected during 1889, compared with 1888. The figures are 1926 for 1889, against 2188 for 1888.

THE National Association of Master Builders', at its convention at St. Pauls, Minn., elected the following officers for the year: President, John J. Tucker, of New York; First Vice President, Anthony Ittner, of St. Louis; Secretary, W. H. Sayward, of Boston; Treasurer, Chas. Tappen, of Chicago.

ACCORDING to the report of the Baltimore Real Estate Exchange, the outlook for the real estate business in that city for 1890, is better than ever before, as there are about \$13,000,000 of capital invested in city stock which is to be redeemed this year. As good paying stocks are very high, and real estate in that city is exceedingly low at present, it is reasoned out that much of this released capital will find its way into real estate as a permanent investment.

THE Baltimore Real Estate Exchange, not only flourishes, but it in no unmistakable terms expresses itself in favor of the proposed belt line railroad for that city. In its fourth annual report just issued, it says: "Any enterprise which promises as much as this, in the way of increasing our railroad and freight facilities and promoting rapid transit, deserves and should receive encouragement and as far as possible should be relieved of any unreasonable exactions."

The fact is, the self same tactics are being played in Baltimore to defeat the proposed Belt Line for that City as have been worked advan-

tageously in opposition to the project in Philadelphia, but like our own City, Baltimore will yet get her Belt Line but not before the people have become incensed at the treachery of its councilmen and have determined to come down with a heavy foot and stamp out opposition of whatever nature that presents itself.

THE lesson taught by the great success of the Brooklyn bridge, could be utilized by Philadelphia capitalists to great advantage. Contrary to expectations it has become the great highway between the two cities, so much so in fact, that there is loud demands for the construction of another of even larger proportions. Brooklyn is growing rapidly through the influence of rapid transit across the bridge, and without any seeming detriment to the growth of New York. If the capitalists of New Jersey were wide awake, they would soon inaugurate a scheme to bridge the Delaware and not wait for Philadelphian's to start the project. The bridge, if built, would greatly enhance the value of property within a radius of ten miles from Camden on the New Jersey side of the Delaware, provided, of course, that the railroad facilities were increased to meet the requirements of the tide of travel that would naturally set that way, besides which, as the bridge would greatly facilitate seashore travel; the Traction Company could extend its lines across the bridge, making Camden its terminal instead of Market street, as at present.

THE difference between tweedle-dee and tweedle-dum—that is the difference between the property belonging to the Pennsylvania Railroad Company, that is likely to be injured by the construction of a Belt Line Railroad and other peoples property that was injured by the extension of its own line, was shown by General Agent W. J. Latta, of the Pennsylvania R. R. Company, in his speech before the sub-committee of Councils on the subject of the construction of the Belt line. Mr. Latta explained that he was responsible for the insertion of the damage clause in the Belt Line bill and he was not ashamed of it. He also stated that the Pennsylvania Railroad Company was the largest owner of property on Beach Street and with an emphasis that must sound refreshingly doleful to the property owners on Filbert Street, who tried in vain to make Mr. Latta's Company compensate them for the injury the Pennsylvania Elevated did to their property he added: "Surely if the Belt Line damages our property it should foot the bill."

It is very much the same with Mr. Latta as with Speaker Reed. With both it seems to be a case of whose ox is being gored.

CONSIDERABLE anxiety is expressed just now among the builders who want to pitch in, as soon as spring fairly opens as to Director Wagner's intentions in regard to street improvements. In many respects the outlook is not very promising, for some of the heavier operators who have secured the land and made their financial and other arrangements for big operations during the present year, but who are all at sea as to just what the city will do in regard to the new streets. There is not the least doubt but that builders in many localities are to be hampered through the city's inability to do its part in the way of street improvements; but how much and what portions are to be neglected are questions that are causing considerable bother. The acquisition of about \$31,000,000 of new buildings, representing about \$40,000,000 in assessed value to the tax list of the city during 1889, or \$740,000 in additional revenue, as a result of the enterprise of our builders involves a business proposition of too great a magnitude to be ignored. In face of the fact that with the proper attention to street improvements the results of 1890, will fully equal those of 1889, yielding quite as much additional revenue to the city's treasury, it ought to be possible to raise money some how, to meet the emergency. At all events it is a subject that merits the earnest consideration of our city authorities.

THE agitation of the question of labor, from its earliest inception, has always had its recoil upon those who must, by the law of nature, earn their bread by toil. It has, until the present time, been an impossibility to devise any scheme whereby the extent or results of labor might be curtailed, and yet deserve the compensation awarded for the present system of ten hours' product. Indeed, after honest consideration upon the part of the employer and the employee, and a desire to reach a fair basis upon which to establish an equitable adjustment of this long-vexed question, we are of the opinion that, after all, it will become a matter for individual or local settlement, rather than one of National legislation, either in the halls of Congress, or by such local bodies as the Builders' Exchange and contemporary associations. The interests of trade and commerce are so diverse in conditions surrounding each other and in their attitude toward those who perform the manual labor, the one depending entirely upon the other, that neither are in a position to dictate, by an arbitrary rule, exactly what shall and must be the predominating length of laboring hours. Looking at the matter from this standpoint of equity and justice to each, we cannot help but conclude that

it is best to amicably arrange the hours of work, and receive compensation agreed upon between the parties concerned, than to unsettle general trade and business by relegating this matter, continually, year after year, to the legislation of bodies who meet for only the consideration of general trade protection and improvement.

JUDGE Wm. B. Hanna has approved the report of John W. Collins, Esq., who was appointed by the Orphans Court to inquire into the condition of the Equitable Trust Company of this city, with the view of finding out its responsibility to become surety in cases before that court wherein security is required.

Mr. Collins highly commended the prudence with which the business affairs of the Company are managed as well as its judicious selection of investments and that it is able to discharge and fulfil any trust that may be imposed upon it by the action of the court, as depository, executor, guardian, trustee or administrator.

THE well-known firm of Merchant & Co, 517 Arch Street has broken its record and excelled all its previous attempts in presenting to its friends beautiful and unique souvenirs in the shape of calendars. The one for the present year, which has just been recently sent out, shows a happy combination of the practical and the ideal, and is a model of good taste in its richness of coloring and artistic treatment. It is a welcome adjunct to any room, helps to light up the dull expanse of an office wall, and among the many calendars sent out by various firms it holds its own without difficulty.

PRESIDENT William F. Harrity, of the Equitable Trust Company, has made known the fact, that since occupying its new quarters at 624 Chestnut street, the company has received deposits amounting to over \$325,000. The Trust, Title and Real Estate Departments are now well under way, and the success of the company in all of its various departments fully assured. The second instalment of the capital stock has just been concluded, making the amount of capital paid in \$350,000. The officers of the company are: President, William F. Harrity; Vice Presidents, George M. Dallas and Daniel Donovan; Secretary and Treasurer, Frank J. Johann; Trust and Title officer, Thomas Robins. The Board of Directors include such well-known business and professional men as Messrs Jay Cook, Jr., Daniel Donovan, George M. Dallas, George H. Earle, Jr., Howard B. French, Anthony A. Hirst, Arthur Hagan, William F. Harrity, Hubert J. Horan, Chas. H. Krumbhaar, Daniel H. Mahony, Alfred J. Murphy, Winthrop Smith, Jeremiah J. Sullivan and John Sparhawk, Jr.

ANY event indicative of the growth of Philadelphia's manufacturing interest should be hailed with commendation as well as satisfaction. The erection of a manufacturing establishment of the proportions of that now occupied by the Thackara Manufacturing Company and that too on what is perhaps a site usually considered entirely too valuable for manufacturing purposes, is an event meriting more than a passing notice.

The company's new factory and show rooms is located at 1524 and 1526 Chestnut st. The building is seven stories high on Chestnut Street and six stories high on Sansom Street. It is a handsome structure and certainly improves the business appearance of Chestnut Street. It is strictly modern, embracing every convenience and improvement and is said to be the largest factory for the manufacture of gas fixtures and electroliers, there is in the United States.

Speaking of the Thackara Company an exchange says:

"The history of the business of the company, it may be added, goes back to 1842, a period of nearly half a century and Mr. Benjamin

Thackara, the President of the company, has been at its head since 1864. About eighteen months ago the business was incorporated on a joint stock basis, under the present title. So it will be seen that the company not only ranks among the largest but also among the oldest concerns of the kind in the country, if not in the world."

The Company's removal has been completed and its doors are open for both visitors and business.

Will the coming man write? Not at all. There will be no more need of his learning to write than of his learning to spin. Writing will have become one of the lost arts, and a wholly unnecessary art, by the time the coming man appears. His writing will be done by the phonograph, which will be placed on his desk as pens and ink are now; and whenever he has a story, a poem, an essay, or a private letter to indite, he will simply talk into the phonograph, and send on the plate which has recorded his words. The teaching of penmanship will be unknown in the school of the future, and writing, in the present fashion, will be regarded as much among barbaric methods as we now hold the rude hieroglyphics of the ancients to be.—*Boston Traveller.*

The Vienna *Gambrinus* publishes a table of European breweries and their output for the year 1887. The whole number of breweries in Europe was 50,800, and the production of beer and ale amounted to about 4,580,000,000 gallons. The taxes collected from this sea of beer amounted to about \$130,000,000. The malt used weighed 740,000 tons, and the hops 110,000 tons. Germany alone contained 26,143 breweries, producing 1,188,000,000 gallons, while Austro-Hungary had only 1979 breweries, producing 354,000,000 gallons. The figures relating to the production per capita show that the smallest quantity, one litre per head, the litre being a little more than a quart, is in Bosnia and Roumania. Greece shows 2½ litres; Russia, 4 3-5; France, 31; Switzerland, 40; Denmark, 63; Germany, 73; Upper Austria, 116; Lower Austria, 121; Belgium, 150; Württemberg, 218, and the Kingdom of Bavaria leads all competitors, with 248 litres, or nearly 65½ gallons for every man, woman and child in the country.

Wealth of the United States.

The New York World has obtained from the treasurer of each State the value of property as assessed for taxation. The census office in 1886 made a report of its exhaustive and laborious inquiry into the proportions existing in each State between taxed property and actual wealth, which range between 25 per cent. in Illinois and 68 in Wyoming. The World's report shows an increase in taxable property of \$6,963,000,000 and an increase in actual wealth of \$18,162,000,000 since 1880. The total wealth is \$61,459,000,000, exclusive of the public property, and \$3,093,000 property invested and owned abroad. The assessed value of taxed property and our actual wealth at different decades has been:

	Assessed Value.	Actual Wealth.
1850.....	\$ 5,287,613,148	\$13,652,499,739
1860.....	12,084,500,005	31,201,310,676
1870.....	11,342,789,366	30,068,518,507
1880.....	16,902,993,543	43,642,000,000
1889.....	23,719,000,000	61,459,000,000

The wealth of the United States now exceeds the total wealth of the whole world at any time previous to the middle of the eighteenth century, and the amount invested abroad is alone equal to the national wealth of Portugal and Denmark. The total wealth of only five nations is equal to the mere increase of the United States in the past nine years.

Whites increase faster than Blacks.

I stand prepared to show the following facts:
1 The negro population of the South has

never increased in equal ratio with the whites, from the foundation of the Government to the census of 1880.

2 The white population increased 9.57 per cent. during the decade 1860-70.

3 For the same period, the negroes increased 8.29 per cent.

4 For the decade 1870-80, the white population increased 37.64 per cent., the negro population, 35.66 per cent.

5 For the 20 years, 1860 to 1880, the white population increased 50.81 per cent., the negro population, 46.91 per cent.

This period covers the term of years in which the South lost nearly 1,000,000 of her white population by the casualties of war.

In the above statement, I do not include the states of Maryland, Delaware, Kentucky, and Missouri. These states are excluded because less than 5 per cent. of their population belongs to the negro race.

Broadly stated, the fact is shown by the census of the United States, that notwithstanding the destruction of human life by the war, the white population of twelve Southern states increased in a greater ratio than the negro race by nearly 4 per cent.—*Atlanta Constitution.*

Measurements of Great Lakes.

The greatest length of Lake Superior, is 335 miles; its greatest breadth is 160 miles; mean depth, 688 feet; elevation, 827 feet; area, 82,000 square miles. The greatest length of Lake Michigan, is 300 miles; its greatest breadth, 108 miles; mean depth, 590 feet; elevation, 506 feet; area, 23,000 square miles. The greatest length of Lake Huron, is 300 miles; its greatest breadth, 30 miles; mean depth, 600 feet; elevation, 274 feet; area, 20,000 square miles. The greatest length of Lake Erie, is 250 miles; its greatest breadth, 80 miles; mean depth, 84 feet; elevation, 261 feet; area, 6000 square miles. The greatest length of Lake Ontario is 180 miles; its greatest breadth is 65 miles; its mean depth is 500 feet; elevation, 261 feet; area, 6,000 square miles. The total of all five is 1,265 miles, covering an area of upwards of 135,000 square miles.

The value of a Home.

A city which has the largest share of individual home-owners, has the smallest share of dangerous classes. A man who owns a home, or who is successfully trying to own a home, can never be turned into an Ishmaelite, a Bohemian or Anarchist. In struggling against the tenement house system, and in struggling for a home, heroes are made out of common clay. No man can rent a home. Let every means which business enterprise can devise to further home-owning, be encouraged. There was never an age nor a day when it was truer than now, that "There's no place like home."—*Exc.*

Lewis Goodlove states some facts about Mexico which everybody who has been there can corroborate. He says: Although Mexico has a population of 11,000,000, it must be borne in mind that at a high estimate not over 20 per cent. of this number have the means with which to purchase goods of any kind. Fully 9,000,000 Mexicans are people who produce nothing, earn almost nothing and consequently consume nothing that we could sell them. When men rarely receive more than fifteen cents per day for their labor, they are not the kind of customers the merchants of the United States are seeking. The climate of Mexico is such that but little clothing is needed. It is possible to harvest two crops of cereals annually, and fruit and vegetables grow in abundance the year round. The only articles which these people will buy are pulque, the national drink, and sombreros. A Mexican will generally deprive himself and his family of necessary clothing and food in order that he may buy an extravagantly expensive sombrero.

The Hazard Manufacturing Co., of Wilkes-barre, Penna., shipped to Seattle, the longest piece of wire rope ever manufactured. It is over two-and-one-half miles long, and weighs 40,000 pounds.

The negroes of Texas own 1,000,000 acres of land, pay taxes on \$20,000,000 of property, have 2000 churches, 2000 benevolent associations, 2500 common schools, fifteen newspapers and 125,000 children being educated.

The production of Bessemer steel ingots in the United States during 1886 was 2,269,190 gross tons. Of rails the output was computed at 1,562,410 gross tons. The production of Bessemer steel ingots in 1886 was 698,670 tons more than that of 1885, while the production of rails had increased by 602,939 tons.

Slate an unsafe Roofing.

A writer in the Milling World, says: Slate is not a safe material for mill roofs. Not long ago I saw a slate-roofed mill fired by heat from an adjoining building. The heat cracked the slates and they ran off the roof in a shower, leaving dry wood exposed to the flames. Another building covered with shingles was equally exposed and singularly enough, the roof of the slate-covered mill took fire before the roof of the shingle-covered building. The streams of water turned on the slates after they became hot, caused their rapid destruction, while the wetter shingles were kept from burning. The slatd roof allowed streams of water to drip downward through the entire building, while the shingle roof protected the building which it covered. Slate roofs may prevent fires from floating sparks and shingle roofs when very dry may invite fires from such sparks, but where buildings are crowded closely together, almost any one of the roofing materials is better and safer than slate, because in the case of crowded buildings the slate is exposed to heat sufficient to break it and uncover the wood—*Fire and Water.*

Japan has an area of 157,000 square miles, not quite equal to that of California. It has a population of 38,000,000, or about seven times that of New York. In 1890 Japan, will become a constitutional monarchy, with an upper house and a lower house, like England. In 1853 Japan had no vessels, steam or sail, of any account. Today she has a well-equipped navy and dock yard, and can design, construct, equip and officer a fleet of warships. She has 138 national banks, with a capital of \$44,000,000; 4500 postal stations; telegraph stations in 112 towns and cities; eight lines of telegraph communications and 5000 miles of wire.

She has kindergarten schools far in advance of those of this country, and has 30,000 schools of different grades, in which 60,000 teachers give instruction to well nigh 3,000,000 pupils. She supports 173 colleges, six schools for the higher education of women, seventy-eight normal schools and two universities. In the law school at Tokio, are more than a thousand students, nearly half of whom study in English. She has also thirty-one medical schools, in one of which are 900 students, and 665 hospitals were patients are sheltered. The exports and imports of Japan amount to about \$90,000,000. The United States buys \$17,000,000 worth of products and sells her something less than \$3,000,000 worth in return.—*Portland (Oregon) American.*

Fithian, Esq., also of Bridgeton, N. J.

Jacob Herold, engineer and architect, 932 North Ninth street, Phila., will prepare plans for a large abattoir and slaughter market, to be erected by the new company just formed in Philadelphia, and articles of incorporation have been signed under the title of the Philadelphia Packing and Provision Company, at Thirty-sixth and Gray's Ferry Road. The proposed building will be six stories high, and will be surrounded by a number of smaller ones, to be built of brick iron and stone. Various improved kinds of machinery will be introduced, and immense refrigerating appliances erected, cement floors, of best kind, as well as ice houses and steam machines for scalding, hoisting and transporting freight through the building.

Constable & Rogers, architects, 902 Walnut street, Phila., have plans on the boards for three cottages, for George A. Castor, at Holmesburg, Pa.; also, a country house, for J. G. Harrison, at Merion, Pa. When the season opens they will, also, erect a handsome house, for Effingham Perot, Esq., at Ardmore, Pa., together with a carriage and lodge house, and a bridge, 30x14 feet. The house of Mr. Perot will be colonial in style and ornamented with white and gold colors, the interior will have every comfort possible, including electric work, hard-wood finish, steam heat, wood mantels, etc.;

also plans for a Flemish house, for Mrs. Lydia Middleton, to be stone, two-and-a-half stories, slate roof, hot air heating, hard-wood finish, stained and plate glass, all modern improvements; also plans for five houses in Trenton, N. J., the property of State Treasurer Dickson, and a cottage, for Mrs. E. H. Murphy, of Trenton, N. J., at Point Pleasant. Mr. Charles Thorp, of the Keystone Watch Company, will also build a cottage, at Devon, Pa., from plans drawn by the same architects; also, plans and charge of the following alterations: 1819 Pine Street, for Mrs. Frank Pleasanton, and for Dr. John Taylor, at 1504 Pine street.

Paul Brandner, architect, 532 Walnut street, Philada., is engaged furnishing general plans and details for the great Morocco manufactory, to be located at Leathertown, Pa., on the banks of the Delaware river, near Torresdale, and fully indicated and described in this Journal on December 25, 1889 (see Building and Real Estate Notes). The syndicate now takes in nearly all the large leather men or companies of Philadelphia, and will have a capital of fully \$5,000,000, and occupy over 250 acres of ground. Their buildings for factory purposes will number twenty-five and range in height from three to five stories, 250x40 feet each, mostly built of brick, and fitted with improved machinery of all kinds. They will erect, also, about 500 neat houses, and will fit the entire plant with electric lights throughout the works and village. The pools, vats and floors will be laid in brick and concrete, artificial flooring of cement, steam and electric power will be furnished from separate engine rooms, apart from main buildings, elevators will be introduced in many of the buildings for freight and general purposes. Streets will be laid out, surveys made at once, and a general move made when Mr. Frederick W. Sutterlee arrives from Europe, where he is now arranging details, monetary and otherwise.

On January 16th, the new building given by Mr. Eugene Levering for the use of the Young Men's Christian Association, of the Johns Hopkins' University, Baltimore, Md., was formally opened, with interesting exercises. The structure is 86x44 feet and two stories high, with slate roof. The exterior is of red brick, in black mortar, with a base of heavy blocks of rock-faced stone. The first story sills and lintels and bands alternating with the brick work are of the same stone, from Long Meadow quarries, Mass. The first floor has a fine reading room and library, 28x46 feet, with two large bays and a fine open fire place, out of this is the prayer-meeting room, 28x30 feet, cut off by a double set of sliding doors. Adjoining the latter, is a room for committee meetings, etc. This, also, has an open fire place and handsome mantel. A wide staircase leads to the second floor, which is entirely taken up by the main assembly hall, except an office for the secretary, 12x16 feet. The hall is 42x65 feet, with an open-timbered hammer beam roof. The windows are of clear glass, leaded in geometric patterns. The building is finished in ash, cypress and quartered oak, polished. The total cost of this gift to the University was \$20,000. The architects of the building are Messrs. J. A. & W. T. Wilson, of Baltimore, and the builders Messrs. George Bunnecke & Son.

Building and Real Estate Notes.

Extensive improvements are contemplated to the basement floor of the University of Pennsylvania.

The Link Belt Manufacturing Company will erect an annex to its present plant at Nicetown, which will be fitted and used as a foundry.

The contract has been given to J. R. Wiggins for the erection of a five-story paper box factory for Jesse Jones at 615 Commerce street. The cost will be \$16,000.

The congregation of Grace M. E. Church at Broad and Master streets, is raising funds for a church edifice to cost about \$100,000. Rev. E. R. Young is the pastor.

Gilbert Weir has purchased a lot of ground from Charles N. and Jacob Green, at corner of Wayne and Manheim streets, 250x150 feet, on which he will erect a number of fine houses in the spring.

A new patrol house will be erected in the rear of Town Hall, Germantown. The building is to be of stone, two stories high, and will be fitted with electric work and comfortable quarters for men and horses.

Thomas Little and Son, contractors, 718 S. Eleventh street, have been awarded the contract for the erection of Henry C. Blair's laboratory, at 404-6 Locust street, which will be three stories high, built of brick.

Mrs. Elizabeth Volmer will erect a brewery and malt house, at 1422 Randolph street, the building will be of brick, five stories high, stone cappings, 41x45 feet in size, having a large stack in centre.

A proposition has been made to the Southeast Convocation of the Protestant Episcopal Church to erect a chapel on Snyder avenue, near Eighth street, and already the lot and \$500 have been donated. A committee will be appointed by Bishop Whitaker.

The Philadelphia and Reading railroad has decided to erect a building, for convenience of employees, at Chestnut Hill, near the present depot. This building will be two stories in height and used as a rendezvous for train hands. Cost \$6,000.

J. McConaughy, builder, 1710 Christian street, has just purchased, from J. F. Alburger, a strip of building lots, on Wolf street, above Fifth street, on which he will erect a large number of two-story houses, brick, faced with light and dark stone.

Charles Theis, brewer, will erect, at Thirty-second and Thompson streets, quite a large brewery plant, which is to be five stories high, built of brick, 75x45 feet, trimmed with stone, a tower will be placed in centre. The ice machine house and boiler house have been commenced.

The buildings 1200-2 Market Street, are being entirely remodeled for the occupancy of William Wannamaker as a retail clothing house. An entire plate glass front will extend along front and side, party wall taken out and the exterior rebuilt. Work has been commenced.

Contractors and Builder will be invited about Feb. 15th to estimate on the addition to the Academy of Natural Science, Nineteenth and Race Streets and described in full in our Journal of December 11th, 1889. See Architect Notes of that date. James H. Windrin, Architect.

Property along the line of Second street, from Lehigh avenue to Cooperville, will be much benefitted by the action of the Highway Department. It is to be paved with Belgian blocks, and the contract has been given to Mack & Shandley, contractors, who will begin operations at once.

Thomas P. Twibill, real estate operator at 608 Chestnut street, Phila., has sold to Francis T. Maguire, twelve building lots at Radnor, Pa., upon part of which he is erecting a handsome dwelling for himself of stone and frame, fitted with electric bells and all modern improvements.

The Arnholt & Scheafer Brewing Company have bought a lot 120x97 feet, adjoining their present plant, at Thirty-first and Thompson streets, with a view of enlarging their capacity for business. The price paid for this was \$12,000, and was purchased of Rev. Matthew Newkirk, D. D., pastor of Bethesda Presbyterian Church.

Hunter & Nock, builders, 540 Drexel building, are at present making preparations to build a large number of houses upon the John Hunter estate in the vicinity of Fifty-Fourth street and Lancaster avenue. These houses will be erected as suburban houses and unique in style of stone and brick, separate and

in pairs, furnished with steam or hot air, as desired finished on interior hard wood, wood and stone mantels, plate and stained glass, all fitted with electric bells, best of plumbing and modern improvements.

John S. Serrill, 1413 North Broad street, and his brother, William G. Serrill, 1750 North Fifteenth street, builders, have purchased one-half the ground recently controlled by the State Agricultural Association, and known as the Pennsylvania State Fair Ground, on which they will, at an early day, begin the erection of a number of elegant houses, built of brick, two and three stories, stone trimmings, fitted on interior with electric bells and all modern improvements, best of sanitary plumbing, gas fixtures, etc. In conjunction with the above purchase these gentlemen have bought one-half of the block on the south side of Lehigh avenue, 395x260 feet, on part of which, they will build the same class of houses.

**FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,**

has stood the severest tests and in no case has it ever failed.

It is Fire Proof, as well as Damp and Moisture proof. It never expands or contracts; it is not affected by **Steam, Acids, Gasses, Vapors** or other injurious influences, that would render a metal roof perfectly useless in a few weeks. It is air-tight and is not affected by atmospheric influences of any kind; it is durable and reliable in winter and summer, and positively requires no care or attention whatever. It will out-last the BUILDING and for **Factories, Chemical Works, Boiler and Engine-houses, Depots, Factories, Mills and Warehouses**, it is without an equal. It costs less than tin or slate, requires no painting, can be walked on without injury and must not be considered in the same light and prejudice usually bestowed upon what are known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of our Roofing is not only owing to our great care in laying on a roof; but also in the scientific preparation of the Material we use. Circulars and testimonials sent upon application.

Warming and Ventilation.

So much has been said and written on the subject of heating and its inseparable adjunct, ventilation, that apparently little or no excuse remains for ignorance on a subject possessing so much of vital interest to humanity. It is a fact, however, and a sad commentary either on the carelessness of human nature in general, or its willingness to be imposed upon, that at least nine-tenths of the population of the civilized world pay little or no attention to the subject, and were houses better constructed than they now generally are, the inmates would doubtless perish of suffocation for the want of a sufficient supply of air. While means are taken in most cases, even in houses of very moderate cost, to provide some kind of a heating apparatus, be it ever so inadequate, little or no attention is given to the means of providing the tenants with pure air; the architect or builder in many cases depending on the partial and dangerous ventilation secured by windows, doors and convenient cracks and crevices left by a careless workman. The failure to secure a happy combination of heat and air is not to be wondered at when one considers the difficulty of securing at the same time a sufficient degree of warmth combined with an adequate supply of pure, fresh air, or as Dr. Arnott happily puts it "to obtain everywhere at will, the temperature most congenial to the human constitution and as pure as blows on a hill top."

No one is likely entitled to greater credit for the interest awakened in the subjects of warming and ventilation than Col. Isaac D. Smead, of Toledo, Ohio, whose treatise on the same, lies before us. For more than twenty years Mr. Smead has devoted his entire attention to the study of how a building could be warmed and at the same time well ventilated. His early attention was attracted to the theories of Henry J. Ruttan, of Canada, from which Mr. Smead has evolved the system which now bears his name and is being introduced in more public buildings, such as colleges, schools, jails and court houses, throughout the United States and Canada, than any other. In this treatise Mr. Smead discusses the theories of warming and ventilation from a practical knowledge as an engineer and an experience in warming and ventilating several thousand buildings to which he refers as proof of the success of the methods used and the correctness of the principles employed to make buildings breathe, while being comfortably warmed.

The purpose of this article is to present to the study of our readers the Smead system, which seems to offer a solution to the much vexed question of warming and ventilation at a limited expense, and approaches the nearest to the conditions insisted upon by Dr. Arnott and Mr. Ruttan. Briefly stated the system is this: Mr. Smead insists that in this climate, if a building is to be properly warmed and ventilated, it

must be constructed with a view to the kind of heating and ventilating apparatus to be used, not the heating and ventilating apparatus constructed for the building after it is erected; that the air inlets and outlets should be of sufficient size to admit a volume of air moving with a velocity of five feet per second, to fill and empty a room once every ten to fifteen minutes. He further claims that the cheapest and most economical method of warming and ventilating schools and other public buildings where large numbers of people are congregated, is by furnaces; that these should be so constructed as to present the largest radiating surface possible to the large volume of air to be warmed and passed rapidly into the rooms to take the place of a corresponding volume of vitiated and cooler air to be removed at or near the floor. He also insists that the flues should be so constructed as to provide continuous ventilation, and that a volume of air, cold or warm, or moderated, be continuously passing in and out of the room.

Some of the special features of Mr. Smead's system of ventilation are: First. The exits for foul air should be placed at or below the floor level, avoiding strong draughts, while more equally distributing the temperature. Second. That continuous ventilation is necessary to keep the air in a room fresh and pure, and that this should be adjusted so that when the warm air is shut off, a corresponding volume of cooler air should be admitted; that the occupants may have the choice of warm air, or cool air, or a mixture of the two at will. Third. That the registers should be more hole than iron, and adjusted so as to render it impossible to close off either the incoming or the outgoing air. Fourth. That a large volume of air, moderately warmed, meets the requirements much better than a small volume of very hot air. If these principles are carried out the result obtained cannot be otherwise than satisfactory for just what the people have demanded so long, namely, that a large volume of air at a low temperature should be thrown into the room and a corresponding volume of foul air removed from

the room, will be obtained; and he refers to thousands of buildings where the temperature between the ceilings and floors and the opposite sides of the wall, in coldest weather, varies but three to five degrees.

The whole system seems to be practicable, and the fact that it is in successful operation in so many buildings, places it beyond the stage of a theory. Mr. Smead makes no apologies for his system. He simply presents the facts as he has seen and proven them. He asks no one to accept his theory without the strongest proofs, and invites all to go to the buildings where his apparatus is in use and satisfy themselves.

Mr. Smead has also invented a system of closets known as the "Smead Dry Air Closets," which for health, cleanliness and absence of odor of any and all kinds, has received the highest endorsements from leading scientists and physicians. These closets require no water, no plumbing of any kind; can be placed in a building in connection with the Smead system of warming and ventilation at a much lower cost than the ordinary water closets, and when placed in position, last for years with little or no repairing. The fact that the fecal matter can be thoroughly dried and easily cremated, and that no sewerage is required in their construction, will undoubtedly bring them into general use.

On this page is presented a cut of the Smead Air Warmer, used by Messrs. Smead, Wills & Co., whose office is located at 417 Locust street, this city, and who represent the Smead system in this section of the United States. If large furnaces, for warming the air, large flues for conveying the air to the rooms, and a large ventilating stack for exhausting the air from the rooms have any value over small furnaces, small flues, and in many instances no ventilating stack whatever, they surely give emphasis to the statement made by this firm that theirs is the best warmed and ventilated office building in the city of Philadelphia. Indicating the popularity of this system they point to the many buildings in this city and places near this city, to thirty-three buildings in Washington, D. C., six buildings in Harrisburg, eight in Scranton, Pa., nineteen in Columbus, and every school building in the city of Toledo, Ohio, twenty-one in Detroit, Michigan, thirty-one in Toronto, Canada, fourteen in Rochester, N. Y., and to many buildings in places too numerous to mention. The success with which the system has met in so many buildings is surely the best guarantee of its merits, and should commend it to the study of architects and builders, as well as to all those interested in the erection of school and other public buildings.

Messrs. Smead, Wills & Co. cordially invite one and all to visit their new building which has been fitted up and especially adapted for this system, to make any tests they may desire and prove or disprove any claims they make.

PHILADELPHIA, WED'Y. FEB. 12, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THE Maryland Legislature is soon to vote upon a bill fixing the price of gas in the city of Baltimore at \$1.25 per thousand feet. The Fidler-Wagner-Stokley administration might do that much for the citizens of Philadelphia; but it wont.

A COMPARISON of the transfers of real estate of last week with the corresponding week of last year, shows that there were 349 transfers last year, representing \$1,883,388.44 against 277 this year, representing \$1,894,729.81, a falling off of 72 transfers, but an increase in value of \$11,341.37.

THE outlook among the architects is much better than it was this time last year, in fact many of them are compelled to refuse small work. We saw a practical illustration of this one day last week when an architect in our presence not only refused the application of a promised client, but stated that he had more work in hand than he could do. There appears to be very little factory or mill work in hand, and very little promised. There is considerable suburban building contemplated, the most of which is for handsome residences. This, in itself, with what is known as operation work, keeps the architects busy. It is too early to speak specifically, yet there is at present every evidence of a big year.

THE prevailing sentiment is, that men of progressive ideas, irrespective of party affiliations, should be sent to Councils. Certainly no class of our citizens understand the necessities of the city better than our builders. The citizens of

the Twenty-fourth ward have selected a prominent builder, lawyer and conveyancer as a candidate for Councils in the person of Mr. Thos. P. Twibill. Mr. Twibill is a Democrat, and, for that reason, may be objectionable to the few working Republicans of the ward; but, as a rule, he is generally acceptable and will be largely supported by those who regard the interests of the ward above partizanship, the owners of real estate being particularly interested in his success. Mr. Twibill is emphatic in his protest against any further delay in the work of extending and completing Mantua avenue. The Thirty-fourth Street Bridge, he says, is an absolute necessity, and should be constructed at the earliest possible day. It has been stated that the Citizens' Committees of both the Twenty-fourth and Thirty-fourth wards have promised Mr. Twibill their undivided support and influence.

It is certainly time that voters of this city took hold of the question of selecting councilmanic timber in dead earnest. Our city government has grown from bad to worse. The Gas Trust ring, in its powerful and profligate rule, never equalled the courage and audacity of those who run things now. Public sentiment is only partially aroused. The people have slept so long that a thorough awakening before election seems improbable. Party fealty has become too much of a religion with many Republicans, and of entirely too little importance with many Democrats of easy virtue. The "regular ticket," as a party shibboleth in city politics, has become a curse, an empty anthem, a trap in which the voters, with honest intentions, have been ensnared and used to perpetuate the power of those who possess neither honest purposes nor patriotic motives. The corrupting influences of constant power has entered the very bone of many of the leaders of both parties, as an evidence of which the recent attempts to swerve whole conventions of the minority party from well defined purposes for no other object than to secure the monied and other interests of those who were in co-hoots with the distributors of the spoils, and who had contracted to deliver the goods. The fact is, a change must take place, or there is no knowing how much worse our city government will become. There is certainly no reason to hope for better city government until the people comprehend that they owe a duty to each other notwithstanding their political preferences and their love for the regular ticket.

IN London, England, there is what is known as a Horse Accident Society. One of its duties besides the care of injured horses, is to investi-

gate the causes of accidents. Recently the society has devoted considerable time and expense to the study of street pavements and how far the material used was responsible for the accidents to horses that were receiving charity. The investigations covered fifty days, during which time a careful summary was kept of the accidents occurring on wood, stone and asphalt pavements, the conditions being as nearly alike, both as to distance, grade and weather, as possible. The investigation established the fact that wood afforded a surer footing for horses than either stone or asphalt. That on a dry pavement a horse would travel without accident 646 miles on wood, 223 on asphalt and only 78 on granite. It was also established that in moist weather wood was good for 193 miles, granite for 168 miles, and asphalt for 125 miles; and during wet weather a horse would travel on granite 537 miles, on wood 432 miles and on asphalt 192 miles.

According to the report the following statement is conclusive, that: 1. Asphalt was most slippery when merely damp, and safest when perfectly dry, and that a horse might be expected to travel on the asphalt without an accident nearly twice the distance when the pavement was dry that it could do when damp. 2. That granite was most slippery when dry and safest when wet; that a horse might be expected to travel on granite without accident nearly seven times the distance when the pavement was wet than when dry, and that the granite was about twice as safe when merely damp as when dry. 3. That wood was most slippery when damp, and safest when dry; that a horse might be expected to travel on the wood more than three times the distance when the pavement was dry than when damp, and that the wood was more than twice as safe when wet as when damp.

It is an easy matter to adapt the conclusions derived from the society's investigations to a selection of material for street pavements in this country. Wood has been thoroughly tested here, and has proven a failure in every instance owing to its rapid decay, and is consequently out of the question. Granite excels asphalt only in wet or moist weather, but as the number of dry days in this country, as a rule, largely exceed the number of wet days, it is safe to say that ultimately asphalt will become the accepted pavement in this country. Mr. J. W. Thomas, London, is the Secretary of the Society.

THE Master Builders' Association of the United States, at its recent session, held at St. Paul, Minn., did much in the way of legislation

for the general benefit of the various interests centralized within the corporate limits of that great and ever-increasing organization. Among other things presented for consideration was that of the proposition to make eight hours the length of a day's labor, and, after much debate upon the great and diverse interests involved, the following well-advised resolution was passed as an expression of the feelings of the convention upon this important subject:

"Recognizing the agitation for shorter hours of labor than those now prevailing, The National Association of Builders, in convention assembled, declares that, as a central body, representing so many different constituencies, it is not competent, nor proper, for it to define a certain number of hours for the building trade generally to adopt, but that it should be left to the local bodies to adjust the number of hours of labor as circumstances and conditions by which they are surrounded may dictate. But we do believe that this body should persistently urge upon all local bodies, that the thorough establishment of the system 'payment by the hour' is an absolute necessary safeguard, and that they earnestly labor to secure the establishment of this system."

The prevailing sentiment is expressed in the above so explicitly that comment is unnecessary. The question is one that resolves itself into local settlement and amicable arbitration, and to these two powerful levers of advantage it can safely be entrusted.

The Philadelphia delegation consisted of 119 members, who speak in glowing terms of their trip, and of the good results that must follow. Some of the individual members of the Philadelphia Exchange, were tendered the honor of a share of the National Executive offices, but declined for lack of opportunity and time to perform the onerous duties of such offices.

The annual meeting of the Builders' Exchange of Philadelphia, which was postponed on account of the absence of so many members at the National Assemblage, at St. Paul, Minn., came off on the afternoon of the 4th inst., and was largely attended, President Woellper in the chair. Reports of the various committees were received and filed, and among those of particular interest was one upon the contract system at present prevailing, and, after noting matters as they existed, a special committee was asked to be appointed to further consider the relations existing between the builders and the architects, and to adopt or to recommend some fair and equitable rule upon the question of estimating upon the construction and erection of work on the presentation of estimates for the same, which was adopted.

The Building Committee reported the completion of its labors and an expenditure on the new structure of a total of \$71,000. This temple of industry will stand as a monument to the enterprise of the Builders' Exchange of Philadelphia, for many decades to come. After the election of the following named gentlemen as officers for the ensuing year, the Exchange adjourned to partake of their annual banquet: President, Stacy Reeves; Secretary, William Harkness, Jr.; Treasurer, Charles H. Reeves.

THE old established firm of paint manufacturers, Samuel H. French & Co., at York avenue and Callowhill street, this city, has just favored its many friends with a handsome calendar for the present year. This souvenir is

really a work of art and remarkable for the richness and brilliancy of its coloring and the superior excellence of its workmanship and finish. The design is original and effective, and the calendar, as a whole, in keeping with the well known progressive ideas and tendencies of the firm.

BRADSTREET'S reports 259 failures in the United States during last week, against 286 in the preceding week and 265, 234, 232 and 227 in the corresponding weeks of 1889, 1888, 1887 and 1886, respectively. The Middle States had 67; New England, 38; Southern, 31; Western, 65; Northwestern, 28; Pacific, 30; Territories, 1. Canada had 57, the same as the previous week.

Removal.

The Trust Company of North America has taken possession of its new offices at 503, 505 and 507 Chestnut street. Its new quarters are well adapted for its business, and although elaborately finished, the purposes for which they were constructed has not been forgotten.

The Abram Cox Stove Company's Works Burned.

The destruction of the Abram Cox Stove Company's works, at Lansdale Montgomery Co., Pa., is too serious not to be regretted by every one. The works were of the most extensive, and the buildings destroyed by the fire will, with stock, approximate a loss of about \$75,000. About one hundred men were constantly employed turning out stoves. All of the patterns were saved. This is extremely fortunate, as much delay and inconvenience will be avoided. The large frame warehouse, filled with goods ready for market, was completely destroyed. The foundry building has its walls standing, which may perhaps be utilized. It is the intention of the company to rebuild at once. The fire is supposed to have originated from an overheated stove in the wash-room of the moulding department. The insurance amounted to about \$60,000. The business of the concern will not be interrupted, as the company has a large stock of its wares on hand, distributed among its warehouses in many cities. The Lansdale plant will only represent about one-fourth of the capacity to manufacture, the other three-fourths being in the city and ready for any emergency that may arise.

Artistic Wood Mantels.

The popularity of wood mantels is not only increasing but the demand necessitates radical departures in the way of a higher character of work and more striking designs. It is now not a question of what the dealer has on hand, for tastes have become so highly cultivated that it's a live man indeed who can meet the requirements of the time. There is such a man, however, and he is reaping the just reward of his enterprise and energy. In fact he has grown tired of depending upon others, and in future proposes to manufacture his own wood mantels. This will enable him to push things when pushing is most needed. Matthew Hall, perhaps, as fully comprehends the necessities of builders and architects as any dealer in building material in the city. He fully understands the pulse of the trade, and his hosts of business friends will be pleased to learn that his wood mantel factory, 1334 Brandywine street, is in full swing with a working force second to none in the city. Of course the old headquarters' store and office, 1927 and 1929 Market street, still remain, and will not be disturbed. Persons at a distance from the city will in future be able to gratify their artistic tastes, so far at least as wood mantels are concerned, as Mr. Hall proposes to give outside trade proper care and attention. Country homes and suburban residences nowadays are not considered finished unless the wood mantel predominates.

The effect is the great desideratum. Mr. Hall's designers will be found equal to every emergency.

The Philadelphia Ledger On Woven Wire Lathing.

The Philadelphia Ledger, in its issue of Saturday, February 8th instant, speaking of the sad disaster which befell the household of Secretary Tracy, very pointedly mentions the wonderful fire preventive qualities of woven wire lathing in the following unmistakable language. We quote its exact words, as that journal evidently knows whereof it speaks, and as it is confirmatory of our own repeated statements based upon personal knowledge, it may influence the use of woven wire in many cases where wood work of any description is exposed to heat, and thereby prevent in future a repetition of such disasters as that which bereft Secretary Tracy of a wife and daughter. The Ledger says:

The vast importance of wire lathing and plaster wherever joists come too near the scorching hot pipes can hardly be sufficiently discussed. Plaster, especially when set in a wire network, leaves little hold for sparks or scorching to catch upon. Unless an experienced and careful hand manages the furnace, so that its surroundings in the cellar never get overheated, the advantages of this sort of surrounding wire and plaster, slow-burning, are very great.

This is a strong endorsement of woven wire lathing as a great fire preventive, but is none too strong, for the occasion that called it forth justifies columns of commendation when safety is assured by the use of an article costing but a trifle more than the old wood lathing, which never can be made anything better than a fire trap. We believe that the strong arm of the law should be invoked to protect those who cannot help themselves; we believe also that the most powerful influence which could be brought to aid a rigid enforcement of such a law, would be a positive refusal on the part of insurance companies to accept risks on premises wherein the exposed wood work was not properly protected by plaster, supported by woven wire lathing. This would impose no penalty upon builders, for it would represent such a mere trifle in increased expense that an evasion could justly be treated as criminal. We are paying too dearly, even in the houses of the rich, for risky building. Fewer frescoes and more attention to the protection of the inmates would be in better keeping with our claims for the humanizing influences of our nineteenth century civilization.

Building and Real Estate Notes.

Mr. H. H. Houston has given a handsome house and grounds, in Germantown, to the Episcopal Home for the Aged.

The work of demolishing a number of the old buildings at Seventh and Alaska streets has been determined upon by the owner, Henry Rowland, who will erect on the site a large warehouse 60x40 feet, built of brick.

A resolution was passed by the Committee of Superintendence and Police of the Park Commission on the 6th inst., asking the Board to appropriate \$5,000 for macadamizing the main drive from Lincoln monument to Beacon Light, which will no doubt be done at an early day.

It is understood that the Anti-Cobden Club, Germantown road and Diamond street, is looking for a proper site whereon to erect for themselves a fine club house; also, the Northern National Bank, at 2121 Germantown avenue, is considering the question of erecting a building as soon as a site can be secured.

The benevolence of the Hebrews, in Philadelphia, keeps apace with other organizations of a like nature. They are now contemplating the erection of a training school, and halt between two opinions, whether to alter 736 and 738 South Fourth street, or to build a new structure. The present building is 41x85 feet, and could be altered so as to be well adapted for the purpose.

Chas. McCaul, builder, 21 North Eleventh street, has purchased the old brewery, 621 Cherry street, and will immediately commence the rebuilding of the structure by raising the floors, placing new work upon the interior, introducing freight elevators, steam engine and boilers, and placing it in condition generally for manufacturing purposes. The building is 40x115 feet, and the cost will be about \$10,000.

Extensive improvements are contemplated to the grounds of the Tioga Athletic Association in the spring, and a new club house will be erected.

R. C. Ballinger, contractor and builder, Lucas building, has been awarded the contract to erect the Patrol and Mounted Police station at Thirty-ninth and Warren streets. It will be two stories high, built of brick stone trimmings, tile roof, steam heat, plate glass, electric work, and general provision for twenty-two head of horses.

P. A. B. Widener and William L. Elkins are at the head of a syndicate formed for the purpose of purchasing the hospital site at Twenty-second and Huntingdon streets, upon which it is proposed to build a number of blocks of two and three story houses.

The "Gray Invincibles," a colored military organization, have determined, in a practical manner, to complete the effort of erecting an armory by soliciting contributions and aid from the public in general. They have quite a nucleus in the treasury, around which they propose to gather a sum sufficient. The indications are that they will purchase a lot at Broad and Fitzwater streets, already offered, and erect the building suitable for their purposes.

It is reported, upon what seems to be good authority, that at an early day the Philadelphia and Reading Railroad will utilize the entire block extending from Willow to Noble, Fifth to Sixth streets and erect a mammoth market house so as to be in communication with all their various branches of road. A majority of this property is already owned by this company, and they are now endeavoring to negotiate for the remainder, with the above object in view, which, if successful, will prove of great commercial benefit to the producers living along the line of their operation.

Articles of incorporation have been asked for by the following named gentlemen, well known in the medical profession, for the purpose of establishing a hospital, to be known as the "North Philadelphia Hospital" for treatment of all medical and surgical cases without reference to creed, condition or color: William G. Howell, M. D., 4255 Germantown avenue; J. K. Cassell, M. D., 4341 Germantown avenue; Franklin L. Bower, M. D., 3212 Germantown avenue; W. Brockbank, M. D., 3945 Germantown avenue; Peter Hooper, M. D., 1904 Tioga street. As yet no plans have matured for selection of site or building operation.

Avalon Beach Improvement Company and the Seven-Mile Beach Company will jointly make considerable improvements, public and private, as soon as the bridge over Townsend's inlet at Sea Isle is finished. It is proposed to open a grand avenue along Twenty-fifth street from the Ocean to Craven's inlet upon the thoroughfare back of Seven-Mile beach, and build a wharf 100x100 feet at the latter place and place the wharf proper under cover, thus affording ample protection to visitors and excursionists. Quite an impetus will be given to building operations at both places. Among those who contemplate so doing will be Geo. J. Rommell, 104 Spruce street; Mrs. Mary I. Lambert, 1943 North Thirteenth street, and J. F. Johnson, 2510 North Fifth street, a cottage. The above companies will, at an early day, resume their excursions to prospective purchasers of lots.

At the meeting of Select Council, on last Thursday, ordinances were introduced asking for the following improvements: To condemn certain properties on Wistar and Green and on Myrtle and Ogden streets, in the Fourteenth ward, for school purposes; by Mr. Upperman, to amend the ordinance to authorize the opening of Carlisle street, in the Twenty-ninth ward, so as to allow of the opening of Trenton avenue, in the Thirty-first ward; by Mr. Hetzell, to place on city plan, build a sewer in and pave Erie street from Thompson to Belgrade streets; by Mr. Hammett, to permit the Bergner & Engel Brewing Company to lay a siding on Thirty-second street between Thompson and Master; by Mr. Hatton, to pave Chancellor street, in the Twenty-seventh ward; to grant permission to the Philadelphia Warehousing Company to construct a tunnel under Beach street; by Mr. Moffet, to repave Philip street, from Master to Oxford; to repave Palethorp street, from Girard avenue to Master street; by Mr. Becker, to pave Margaretta street, from Front to Second, and New Market, from Callowhill to Willow; by Mr. Rose, to repave Hancock street, from Susquehanna to Diamond; Susquehanna avenue, from Howard to Hancock streets, and Howard street, from Susquehanna avenue to Diamond street.

The following Common Council bills were concurred in; To authorize the purchase of a

lot of ground on the northwestwardly side of Ridge avenue, northwestwardly from Mifflin street, for police purposes; to amend an ordinance to authorize the macadamizing of Cedar street, from Locust avenue to Mill street," approved on August 1, 1884; to grant permission to Washington Camp, No. 155, Patriotic Order Sons of America, to erect a flag pole in Flat Iron Square, at Sixth street and Susquehanna avenue; granting permission to Thomas B. Rice to construct a temporary frame shed, with metallic roof, at Mifflin and Ash streets; to grant permission to the Philadelphia and Reading Railroad Company and the Baltimore and Ohio Railroad Company to erect a street clock upon the pavement at the northeast corner of Broad and Chestnut streets; to repeal so much of "an ordinance to authorize the paving of Seibert, Penn, Philip and Fifteenth streets," approved March 28, 1888, as relates to Penn street; to authorize William G. Warden to construct and maintain a conduit under Quince street north of Pine street; to authorize the opening of Thirteenth and Wolf streets; to authorize the opening of Jackson and Jefferson streets; to authorize the construction of a temporary bridge across Fifty-fourth street on the line of Mill creek; to authorize the grading of McKean, Levick, Foulkrod, Bowman and Sixty-first streets, Paschall and Torr avenues; granting to Peter A. B. Widener permission to lay an iron pipe under and across Carlisle street, to convey steam from his house to his stable; to authorize the surfacing of City avenue from the Schuylkill river to Belmont avenue; to authorize the construction of a stone drain across Wood street north of Leverington avenue; to authorize the paving of Twenty-eighth, Pechin, Grape, Adams, Webster and Jefferson streets, Freeland and Jamestown avenues; to authorize the grading of American, Sixty-third and Fifty-seventh streets, Lindley, Ashland and Hoffman avenues.

—At Boyertown, Berks Co., the Board of Trade is in negotiation with the National Automatic Cigar Company in regard to locating and erecting a plant at Boyertown.

—A contract has been let for the construction of a new second track from Swarthmore to Media, on the Central division of the P., W. & B. R. R.

—At Lionville, Chester Co., William Wells and W. Griffith will erect several new dwellings. Holland Beitler will erect an addition to his barn; also a large straw house.

At Berwick, Columbia Co., Pa., a new town hall to include fire engine-house, offices for School Board and Borough Council will probably be erected.

—At Bradford, McKean Co., extensive alterations will be made to the Commercial National Bank, at a cost of about \$7,500. E. A. Curtis, Fredonia, N. Y., has drawn the plans.

—At Johnstown, Cambria Co., Hon. John Hannan will erect a large foundry. Mr. Betterman will erect a machine shop, and Jacob J. Strayer will erect a planing mill.

—At Norristown, Montgomery Co., the late Dr. Mary H. Stinson's estate, valued at about \$40,000, has been left in trust to found a home for aged women at Norristown.

—At Morton, Delaware Co., steps are being taken for the erection of a public hall. A public meeting is to be called and a number of persons have offered to donate money for the purpose.

—An agent of the Pennsylvania Railroad is said to have purchased three hundred acres of land for railroad shops near Grapeville, Westmoreland Co.

—At Ardmore, Montgomery Co., a piece of ground has been bought by the Dirigo Club, of Montgomery Co. A new club house will be erected in the spring.

—At Pottsville, Schuylkill Co., a lot has been purchased by W. W. Foster, on Mahantongo street for \$3,500. Mr. Foster will erect a residence in the spring.

—At Easton, Northampton Co., an ordinance has been introduced in Council to appropriate \$16,000 for enlarging the electric-light plant. The boiler and engine capacity will also be increased.

—At Chester, Delaware Co., the House Committee on Public Buildings and grounds has authorized a favorable report on the bill, providing for the erection of a Public Building at Chester.

—At Phoenixville, Chester Co., \$7,000 have been raised towards the erection of a parochial school by the Roman Catholics. Messrs. W. P. Keeley and Son, of the Phoenix planing mill will erect a large storage house in the spring.

—At Waynesboro, Franklin Co., the contract for the new school house has been given to A. N. Good, of that place. Work will begin in a short time. \$20,000 will soon be voted for street improvements.

—At Irwin, Westmoreland Co., a tract of ground has been selected on which a sack factory will be erected. Messrs. C. W. Pool, W. C. Richey and John Ridinger, of Irwin, can give information.

—At Allegheny, a brick business block will be erected at Ohio and Diamond streets. The first floor will be fitted up for stores, the second for offices, and the third will be a large hall. James T. Steen, 36 Sixth street, Pittsburg, is the architect.

—At Newtown, Bucks Co., a site has been selected by the committee for the proposed John M. George school. The tract contains one

hundred acres, and the school will be in charge of the Philadelphia Yearly Meeting of the Hick-site Friends.

—At Erie, Erie Co., the Y. M. C. A. will take steps to raise a fund for a gymnasium. An addition will be erected to the chapel 40x60 feet, at the Soldiers' Home. James H. Windrim, supervising architect, Washington, D. C., has the matter in charge.

—At Scottdale, Westmoreland Co., the citizens are generally favorable to the proposition of the water company to furnish the city water at a certain price per year. It will cost the company about \$100,000 to lay the mains and make other improvements.

—At Plymouth, Luzerne Co., the Borough Council has decided that it is necessary to issue an address to voters, setting forth the importance of borrowing about \$13,000, to be used in paving streets. The fire committee was instructed to ascertain the cost of a system of fire alarms.

—At Wayne, Delaware Co., it is said that the firm of Wendell & Smith will improve the property recently purchased in South Wayne, by the erection of a large number of handsome dwellings. The ground purchased affords room for nearly three hundred dwellings. About one hundred, it is stated, will be erected during the coming season. Mr. Arthur Lanser has broken ground for a new dwelling on Highland avenue.

—At Harrisburg, Christian Geide will erect three dwellings on Reily street. John Yousling has bought the corner lot at Fourth and Kelker streets, and will erect six brick dwellings on the site. Samuel Kunkle will erect three dwellings on Kelker street. Contractor Reuben Morrette will erect six frame dwellings on Kelker street. William Cassell, the contractor, will soon begin the erection of a handsome dwelling for Aaron Bange, also on Kelker street.

—At McKeesport, Allegheny Co., Henry Lamp is having plans and specifications prepared for a three-story business block to be erected on the lot adjoining Turner hall. It will contain a store and twelve dwelling rooms. The National Tube works contemplate the erection of an ice manufacturing plant. There is a probability that another bridge will be constructed across the Youghiogheny river, a wooden structure to cost about \$15,000.

—At West Chester, Chester Co., six handsome dwellings will be erected by E. R. & W. H. Griffith in the spring. Four of them are said to be sold to Dr. Winfield Lamborn, C. H. Morgan, Hickman James and Miss Lillie Day. Captain C. W. Roberts has purchased a site on which to erect a building for the manufacture of artificial ice. The estimated cost of the plant is \$30,000. P. E. Jefferis and H. C. Baldwin will do considerable building in the spring. John Thorp will erect an addition to his property on South High street. Isaac Thompson will turn his dwelling into a store.

—At Jeannette, Westmoreland Co., a meeting was held last week, at which it was decided to organize a stock company with a capital of \$40,000, with which a site will be purchased and an Opera House erected. No plans have been matured yet, further than that the first floor and basement will be fitted up as stores, and the seating capacity of the Opera House 1200. Mr. David Jenkins was elected chairman of the company, and Hosea E. Husted, secretary. A committee was appointed, consisting of B. P. Little, Morris Davis, M. R. Cook, H. E. Husted and S. Tishue, to select a suitable site, and to consult an architect as to the probable cost of the building.

—At Wilkesbarre, Luzerne Co., Contractor Wilson J. Smith will break ground in a short time for a block of fine residences to be erected by a syndicate of gentlemen of Wilkesbarre. The lots have a frontage of two hundred feet each, and the buildings will be first class in every respect, and will contain every improvement and convenience. Contractors O. Mande-

ville & Son have begun work on a large frame block at North and Washington streets for J. J. Robbins. The building will have a frontage of 80 feet, and will be divided into four store rooms on the first floor. The other floor will be used as a dwelling. Reuben Downing contemplates extensive improvements and additions to the building on the South side of Public Square. An addition 40x100 feet will probably be erected and fitted up for handsome business offices.

—At Uniontown, Fayette Co., Jacob McFarland has purchased a lot on Fayette street, and will erect a residence. I. N. Beighley, foreman at Laughhead, Modisette & Company's planing mill, has purchased two lots and will erect a fine residence. H. S. Darsie, of California, Pa., has purchased a lot at Uniontown, and will erect a dwelling on the site. Louis E. Beall, of Washington, D. C., has organized a company for the manufacture of ice. Ground has been purchased from S. E. Ewing, Esq., on which a large factory will be erected. The main building will be 30x125 feet, and constructed of brick. The above gentlemen can give information, or Barton Bros., of Uniontown. Extensive repairs will be made to the McClellan House in the spring. An addition will be erected to contain about thirty bed-rooms and a large dining-hall and kitchen. The office will also be enlarged and improved. Mr. Stephen Becket will erect a dwelling at Main street and Stewart avenue. C. W. Pyle is making plans for a number of changes in the Jennings's house, upon which work will soon begin.

—At Pittsburg, the Americus Club will likely erect a handsome club house. Plans are being considered, though no site has yet been selected. Superintendent of streets, R. T. Walker, in his annual report, has recommended that the pavement on Ninth street, from Peach to Chestnut, have a recoating of asphalt; also that a storehouse be erected for the storage of implements and tools belonging to the street department. Messrs. Guckenheimer and Wertheimer, who purchased the Beymer and Schwartz properties, are said to be contemplating the erection of a number of handsome residences on the site. Mr. Walter Hay has purchased six acres fronting on Herron avenue, Thirteenth Ward. M. Seibert & Company will erect a large building at Penn avenue and Garrison alley. W. A. Hoeveler has bought a lot at Rippey and St. Clair streets, from Mellon Bros. Mr. Hoeveler will erect a handsome residence on the site. Dr. A. Blumberg will erect a store and dwelling, to cost about \$7,000. A permit has been issued for the erection of the residence, previously reported, of Mrs. J. M. Gusky. The cost will be \$70,000, of stone, slate roof, all modern conveniences. Builders, Rose & Fisher, architect, Joseph Stillburg, of Pittsburg. Mr. Henry Davis will erect a four-story building for flats at Forbes and Marion streets. Messrs. Arbuthnot, Stephenson & Company will demolish the old houses on the property recently purchased at Penn avenue and Eighth street, and erect an eight-story brick and stone building on the site. The cost will be about \$100,000. F. C. Sauer, Liberty and Sixth streets, has prepared plans for three brick dwellings, to be erected in Allegheny; also three store buildings, to be erected on Diamond street, Pittsburg; also plans for a dwelling for Mr. Frank Anshutz. Harry Williams, of the Academy of Music, will erect a new theatre on the site of the Grand Central rink. The seating capacity will be 2600. Andrew Carnegie has increased his gift for a library to \$1,000,000. A large central building, with four smaller buildings in different parts of the city will be erected.

Reasons for investing in the securities of this Company:

First. Because it has had thirty-five years' experience without the loss of a dollar to a single investor.

Second. Because its conservative management is insured by the double liability of its stockholders.

Third. Because nearly five hundred of the most prominent financial, business and charitable corporations, including about sixty savings banks, fifty universities, colleges and academies, seventy general church boards and churches, and twenty to thirty insurance companies have invested in its loans for many years, and commend them to others.

Fourth. Because these loans are readily negotiable, easily available as collateral, and, while paying a good interest, can be procured at par.

Fifth. Because the principal and interest of every loan are guaranteed by a fund amounting to over \$3,000,000.

Sixth. Because as the result of a recent most thorough examination as to the financial standing and methods of our Company, by a firm of chartered accountants, and as to the legality of our organization, by the well-known law firm of Cary & Whitridge, of New York, two great English corporations, the "Mortgage Insurance Corporation," of London, England, with capital of \$3,500,000, and the almost equally well-known "Northern Counties Investment Company," of Bradford, York-

shire, England, have both agreed to guarantee our English issues of Debentures, which are placed at 4½ per cent.

FOR SALE.

A most desirable property situated at the popular Summer Resort of Tom's River, Ocean County, N. J.

The House is a handsome Queen Anne Cottage, sixteen Rooms, French Range, Hot and Cold Water, under drained and located on high ground affording a splendid out-look over Barnegat Bay. It is but five minutes walk from the river where splendid fishing can be had during the whole Summer. The house as well as the outbuildings are in first-class order, the Stable being roomy enough for 4 Horses and 3 Carriages.

The grounds consist of five acres of excellent land in a high state of cultivation. There are four trains daily making the place a most desirable Summer residence for a Phila. or New York business man. Price \$6,500 (cost the present owner \$10,000) half can remain at 5 per cent. The place is really a great bargain.

SLAG-STONE
PAVEMENT.

for Side-walks and Floors is conceded to be the best production of the present century.

Slag-Stone when properly combined with the best grades of Portland Cement produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-Stone and for that reason it is cheaper than brick.

Being a non-absorbent it is superior for **Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses Etc.**

For the Cellars of Residences it expresses the highest standard of perfect Sanitation as it prevents the escape of noxious gases from the underlying soil, and will not absorb impurities. It prevents dampness, is easily cleaned and renders the whole house more comfortable and healthful.

ALSO

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner and at prices in keeping with our guarantee for first-class work.

VOL. V.—No. 7. PHILADELPHIA, WEDNESDAY, FEBRUARY 19, 1890. PRICE 15 CENTS.

The Handsomest Piece of Stained Glass Work in San Diego, California, Made by a Philadelphia House.

Ten years ago, it would have been impossible to make the above announcement, because it was then impossible to obtain first class stained glass work in this city. To-day, Philadelphia can compete as to quality, both as to the artistic as well as the mechanical, with any city in the world. The stained glass interests in this country continue to prosper in spite of the hearty welcome that is accorded the productions of Munich workmen, owing to our free trade laws, admitting stained glass work intended for church purposes free of duty, while at the same time it imposes the highest kind of a tax upon the stained raw glass which our workmen in America must have in order to produce the work, as there is no glass made in America that is suitable for the work. There is a stronger appeal for protection to the American stained glass worker in the following letter than anything we can write. We give it in its entirety, because the subject merits constant agitation in the interest of a great American industry, and because of the mawkish sentiment that prompts the few wealthy Americans to give their preference to foreign stained glass work, when superior work can be had in their own country:

Board of Public Works,
San Diego, California.
William Reith, Esq.,
Philadelphia, Pa.

Dear Sir:—Enclosed you will find draft for \$374.72. We received the glass in first class order and perfect in every respect. It is the handsomest piece of stained glass work of its kind in the city. I shall take pleasure in recommending your work to all parties contemplating building, but will observe one thing, and that is to order work as soon as contracts are let, to avoid delay, as a good portion of time is consumed in correspondence and shipment. Trusting I will send, or be the means of sending you another order in the near future, I am

Yours Very Truly,
JOSEPH FALKENHAN,
Commissioner, Board of Public Works.

PHILADELPHIA, WED'Y. FEB. 19, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

EMIGRATION statistics for 1889 show many important changes. Among those who left Great Britain, the official figures place the United States as having received 93,000 English, 57,000 Irish and 17,000 Scotch. Canada received during 1889, 22,000 English, 2,000 Irish and 3,000 Scotch. Australia received 23,000 English, 2,000 Irish and 2,000 Scotch. While to South Africa and all other known places, not mentioned above, 25,000 English, 2,000 Irish and 1,000 Scotch people emigrated. It is claimed that the heavy investments of English money in American industries is the true secret of the greatly increased emigration of British subjects to this country.

It is only a few years ago that a colored politician of this city pointed to the want column of the Philadelphia *Ledger*, and said that out of all the positions offered in that journal, his people were mentally capable of filling but two—porter and coachman. The same colored orator must now feel an infinite pride in the fact that the pugilistic arena has afforded a new and profitable calling for his colored brethren. The many recent successes achieved by colored aspirants in the manly art is not only noticeable, but it indicates an improved physical status for the colored man, who, like his white brother of the "profession," is willing at any time to take a half hour's hammering for a few dollars rather than follow an honest and legitimate calling to a successful end.

THE Trade School, now in course of organization by the Master Builders' Exchange, of this city, will be watched with more than usual in-

terest. It will test the worth of practical knowledge, imparted by practical men, schooled under the pressure of necessity, without the accompanying frills and theories of the scholastic pedagogue, who is nothing if not problematical. It will place its scholars on the plane of the apprentice fifty years ago, in one sense, while in another they will have the advantage of association and the supervision of the men who stand foremost in their respective trades and callings. No enterprise was ever commenced under more favorable auspices, for the members of the Exchange are not only unanimous as to the necessity for such schools, but they are thoroughly in earnest as to the success of this one; besides, which they recognize the fact that unless vigorous efforts are made to counteract the present arbitrary ostracism of American youth from trade learning by trade unions, the American mechanic, in a few generations at the most, will have become a person to be remembered as a relic of antiquity only. The patriotism of the Master Builder is not only worthy of commendation, but the school itself should receive the earnest support of every one who believes that an American boy should have a chance to select and acquire a knowledge of any trade, regardless of trade unions, walking delegates, or imported influences of any kind.

THE paralysis in building operations seems to continue, and from all sides do we hear complaint, and the deaf ear of the Director of Public Works to the appeal of those interested in building operations, does not awaken or give response by attention to the pressing needs of the occasion. In the First Ward alone, during the year 1889, the operations of one builder gave a total valuation of \$400,000, subject to taxation, and thus affording revenue to the city of thousands of dollars, and the sum total of improvement in the way of gas and water mains amounted to the generous sum of \$86 upon the ground covered by this builder's operation. The same gentleman now believes he will be obliged to use the only prerogative left, which will be to summon the head of the department into Court, and thereby compel, by process of law, a fair distribution of both attention and public improvement in the First and Twenty-sixth wards. If Gen. Louis Wagner, as the head of the largest business department in the municipal Government of our city performed his full duty, he would make such recommendations to councils as would enable them to legislate judiciously and satisfactorily to the best interests of those who rear millions of dollars worth of taxable property, thus increasing not only the wealth of our city, but

the revenue upon which our very existence as a city depends. If he will exercise the functions of his office wisely, he can duplicate the increase derived from new properties over that of 1889, which, in round numbers, reached the handsome sum of nearly \$600,000. At the head of a private enterprise of his own, there is not the slightest doubt but he would devise ways and means to derive the largest amount of profit and advantage possible. This duty he owes to those who make our city what it should be, one of industry and one of comfortable homes, well lighted, well paved, and the sanitary measures the best on the globe.

OF all the civilized countries of the world, the United States is farther behind in its system of road-making than any other. Bad roads in this country are the rule and not the exception, and any superiority in any one locality may show over another is the result of natural advantages and not of a superior system. Of course we have many beautiful and well cared for turnpikes, but the most of them are either the relics of the old mail coach service days, or are owned or controlled by corporations that find them a profitable investment.

The principle that relegates the care of roads to the authorities of a township has proven a miserable failure, and, although copied after the successful English system, the circumstances attending road-making in this country are an entirely different matter, in fact there is neither the same material always conveniently accessible, neither is there the same rigid supervision nor the same incentive owing to the want of the same density of population.

As a fact our country is too large and our population too much scattered to admit of the English system ever accomplishing the purposes for which it was intended, and some better method must soon be adopted. The country is sufficiently advanced to demand something better in the way of roads than we have at present, and the only feasible outlook for relief, is in making the question one of State or National importance.

Appropriations are made annually by both the State and National governments for public improvements; and if there is a question of more vital importance to the people of this country than this one of good roads, we do not know of it, neither can we recognize the justice of imposing the cost of road-making upon individual townships when in reality their condition concerns every resident in the County and State, if not those of the whole country. An appropriation is easily obtained for the improvement of navigation in Duck

creek, and yet the condition of Duck creek does not, perhaps, concern a half dozen persons. If then the principle of distribution of expense represented in the improvement of Duck creek is a good and practical one, why should it not be applied to the peoples' highways as well as creeks?

Improvements in this direction would be beneficial in many ways. It would inaugurate a system of social, political and business intercourse among the people that does not exist at present. It would certainly lead up to the breeding of horses possessing the same speed, greater endurance and more usefulness than the trotter or runner of the present day. It would recal from oblivion the old time roadside inn, affording refreshing rest for traveler and horse. It would afford a new source of diversion and pleasure to a large number who would make long trips into the country if the roads were fit for driving, but who are now confined to a few parks with their usual monotony and sameness year in and year out.

We believe that under a proper system any first cost of construction would be justifiable, for in many cases proper material would have to be carried by rail or water for long distances; but if roads were constructed as they are in England they would last for hundreds of years, and would require very little expense to keep them in good condition. Lasting improvements in the way of better houses, better farms and a decided advance in the value of land, would follow as certain as it follows the coming of a railroad.

On the 11th instant, the Keystone Adamant Plaster Company's works, Twenty-third street, above Race street, were damaged by fire to the extent of about \$4,000, which was almost wholly covered by insurance. We are glad to say that the enterprise of the company, under the able management of Mr. Fender, has been equal to the emergency, and they find themselves at this early date ready to fill all orders that may be sent. They have already partially rebuilt the portion burned, and the alacrity with which they have resumed the thread of their business relations, is certainly commendable.

Miscellaneous.

At Toledo, Ohio, a new fire engine-house will be erected.

At Wichita Falls, Wichita Co., Texas, a new school house will be erected to cost \$20,000.

At Medway, Norfolk Co., Mass., the erection of a new hall is talked of.

At North Easton, Mass., Messrs. Hayward have given land for the erection thereon of a Baptist church.

At Chicago, Ill., Levi Z. Leiter has purchased the Grand Pacific Hotel, which will be replaced by an immense business block.

At Edenton, Chowan Co., N. C., the mayor can give information as to the contemplated electric lighting plant for the city.

At New Haven, Conn., the trustees will take prompt action in the matter of rebuilding the Congregational Church, recently destroyed by fire.

At Danvers, Essex Co., Mass., in the church burned January 28 last, eight memorial windows were destroyed. The church will be rebuilt at once.

At Jackson, Miss., the House has passed the Senate bill appropriating \$10,000 for the erection of a Confederate monument in the State House grounds.

At North Sterling, Windham Co., Conn., a new town hall will be erected. A site will be immediately selected and operations commence soon.

At Savannah, Ga., the City Council has appropriated \$20,000 for improving the water works system, \$10,000 for opening new streets, and \$8,000 for asphalt pavements.

At New Orleans, La., John A. Morris will erect one of the handsomest business blocks in the South. It will be a twelve-story structure, and the estimated cost is \$800,000.

Kansas City, Mo., will probably vote upon the question of issuing bonds to the amount of \$50,000 for a new city hall, sewerage system and viaduct.

At Americus, Sumpter Co., Ga., the city has disposed of its bonds to John R. Hamblen, of Baltimore, Md., at \$107 net, and a new city hall and public school building will be erected.

At Buffalo, N. Y., C. K. Porter and Son, 43 American Block, have finished the plans for the new Municipal Court House. It will be three stories high, with brown stone front. Cost \$125,000.

At Natchez, Miss., B. B. Davis, of Natchez, and Giles and Guindon, of Austin, Texas, are the architects for the new Masonic Temple and Opera House, which is to be erected in a short time.

At Cincinnati, Ohio, plans are being prepared by H. E. Siter for a large six-story hotel, to be erected at Walnut Hills (a suburb of Cincinnati.) The material will be brick, iron and terra cotta. The cost is estimated at \$100,000.

At Carthage, Moore Co., N. C., the brown stone on the land of P. H. Kelley has been purchased by J. F. Manning, of Washington, D. C., and others, who are organizing a stock company to develop the same.

The commissioners appointed by Congress to report the best site on the Texas coast for a deep-water harbor, have decided in favor of Galveston, and recommends an appropriation of \$6,000,000 to obtain a depth of thirty feet.

At Saco, York Co., Me., Congress will be asked to appropriate \$75,000 for the erection of a post office and custom house building. The Board of Trade has adopted resolutions to send to Washington favoring such a building.

At Taunton, Bristol Co., Mass., it is reported a sub-committee of the Congressional Committee on Public Buildings will report in favor of the new proposed public buildings to be erected at the above place.

At Northwood, Rockingham Co., N. H., J. R. Towle & Sons, will erect an extension to their present factory, 40 x 100 feet, three stories, brick. A large boarding-house will also be erected by the Company and fifteen or twenty small dwellings, will be erected by citizens.

At Columbus, Ohio, authority will probably be granted by the State Legislature for the city to issue bonds to the amount of \$150,000 for fire protection apparatus. New fire engine houses will be erected, and four or five new steam fire engines purchased.

At New York, the Jewish Society, B'nai B'rith, will erect a large building to contain rooms for the Grand Lodge, the Maimonides Library, reading-rooms, large dining-room, etc. The building is estimated to cost \$450,000. The Methodist Episcopal Church will erect a church, chapel and parsonage at Marion avenue and Kingsbridge road, at a cost of \$50,000. J. C. Cady & Company, 111 Broadway, are the architects.

Engineer Gustave Lindenthal, whom we before mentioned as having designed a plan for a new suspension bridge of large proportions across the Hudson river from New York to Hoboken, is vigorously pushing the question before Congress. He recently appeared before the Committee on Commerce, with the view of obtaining a charter. The matter was referred to the Secretary of War and Inter-State Commission to examine its practicability.

Recent Decisions.

IN RELATION TO MATTERS CONCERNING REAL ESTATE AND COMMERCIAL LAW.

Decided by the Supreme Court of Pennsylvania.

Assignment of Mortgage:—The assignee of a mortgage is bound to make inquiry of the mortgagor before purchasing the mortgage, and is affected with notice of any defense by way of payment, or growing out of the original equities between the mortgagor and mortgagee, which inquiry would have brought to his notice.—*Morgan's Appeal, April 22d, 1889.*

Assignment of Trade Mark:—While everyone is entitled to affix to the product of his own manufacture any symbol or device not previously appropriated, and to use the same as a trade mark, and to have his property in said trade mark protected from infringement by other parties, yet no property can be thus acquired in a word, mark or device, used as a trade mark, which denotes merely the nature, kind or quality of an article; or, as against other persons carrying on trade therein, in the name of a country or a section of country. While a geographical name may, perhaps, in some cases, or under some circumstances, be used as a trade mark, yet when the article to which it is applied is the product of the place named, the term cannot be used as a trade mark by one to the exclusion of others, owners of like products of the same place.

Trade marks are the proper subject of assignment, to the extent, at least, that unless reserved they pass with an assignment of business, and the assignment by one partner of all his interest in a firm to his copartners will carry with it the exclusive use of the trade mark of the firm.—*Laughman's Appeal, Jan. 31, 1889.*

Condition:—The words, "the said piece of ground, to be used for milling or manufacturing purposes only," in a deed conveying a tract of land and a water right, are not a covenant on the part of the grantee to erect a mill of any kind upon the property.

A grantor has no legal right to complain because his grantee does not exercise all the rights and privileges which he purchased and paid for.

A covenant to use property for manufacturing purposes implies the right to use it for all purposes incident to such object.—*Madore's Appeal, May 14, 1889.*

Husband and Wife:—When a testatrix, who is a married woman, dies without issue, and intestate as to a portion of her property, her husband, by electing to take against the will, claims, under the Act of May 4th, 1855, one-half of the personal property as to which his wife died testate, and the whole of that whereof she died intestate. His right is limited to one-half of the whole estate.—*Lee's Appeal, Jan. 17, 1889.*

Mortgage:—The holder of a legal title to real estate which is in effect a mortgage, may, in turn, mortgage that title, and by virtue thereof the mortgagee takes as security all his mortgagor's title, subject only to the equity of redemption existing against such mortgagor.

A, purchased land at public sale, partly with cash furnished by B. In order to secure B, the title was taken in his name and an agreement entered into that B, should convey to A, whenever A, repaid him the cash advanced. A took exclusive possession of the land; B, afterwards executed a mortgage to C, who had constructive notice from A's occupancy of the land as to his title. In a proceeding by *scire facias* by C against B upon the mortgage.

Held that C, was entitled to judgment for the full amount of his mortgage, but subject to be released and discharged upon payment by A, of the amount due by him to B.—*Brooke vs. Bordner, March 6, 1889.*

Architects' Notes.

Miss Minerva Parker, architect, 14 South Broad street, has plans for a stable for J. A. Patterson, of Overbrook, P. R. R.; stone, two-story, stucco work, cement floor, electric bells and alarm, plumbing, etc.

J. C. Worthington & Edward J. Paxson architects, 1305 Arch street, Phila., are now associated at the above named place, and are prepared to pursue their profession in all its various branches. We heartily congratulate the firm, and wish them success.

Thom & Wilson, Architects, 1267 Broadway, N. Y. have completed the plans for the Criminal Court Buildings, rear of the Tombs Prison, N. Y., and the contract for erection given to J. & H. Webber, contractors, 212 East 80th street, of that city, their bid being the lowest \$1,350,000.

Brown & Day, architects, 1305 Arch street, Phila., have completed plans for an Insurance Patrol House, at Fifth and Hackley streets, two stories high, brick and buff base, blue-stone trimmings, steam heat and electric appliances. Contract has been awarded. Cost about \$10,000.

Geisinger and Hale, architects, 1200 Chestnut street, Phila., have plans for addition to the mill of Ivens, Deitz & Magee, carpet dealers and manufacturers, 1217 Market street. The structure will be brick, 55x184 feet, one-story, and fitted with electric lights and other conveniences.

Mr. W. H. Archer (late of Curtis & Archer, Fredonia, N. Y., architects of the National Transit Building, Oil City, and other important buildings in Pennsylvania), and Mr. W. W. Johnson, late Falkner & Johnson, of Buffalo, N. Y., have formed a partnership, under the name of "Johnson & Archer," architects, No. 9 German Insurance Building, Buffalo, N. Y.

Fred. G. Thorn, architect, N. E. corner Broad and Arch streets, Phila., has completed plans and specifications for an abattoir, to be located at the Union stock yards, Washington, D. C., to be of brick, with stone base, three stories high, 123x135 feet; also, boiler house 32x56 feet, fitted with steam. Estimates are being received. William Clark is President of the corporation.

Walter Pippin, Chestertown, Kent Co., Maryland, has prepared plans for a paper basket factory to be erected by Mr. Wilber Eleason. The dimensions will be 50x130 feet, and the material brick and corrugated iron; also, plans for a

handsome cottage, for Mr. Marion Smith, to cost about \$5,000; also, plans for two cottages and the remodeling of the old college building.

The plans being prepared by architects Furness & Evans, 209 South Third street, Phila., for the I. V. Williamson School, are about completed, and, at an early day, contracts will be asked for. Preliminary work upon the ground, in the way of grading and laying of a side railroad track is being prosecuted, which is necessary for the transportation of material to the grounds.

John F. Stuckert, architect, 524 Walnut street, Phila., has prepared plans for Hebron Memorial Presbyterian Church, Twenty-fifth and Thompson streets. The structure will be of stone, two stories high, on the first floor school, lecture and ladies' committee rooms. The auditorium will have seating room for about 700 persons, and will be fitted with church furniture and decorated handsomely.

Architects are asked to compete for a design for a new City Hall, at Quebec, Canada, \$1,500 will be paid for the best plan, \$1,100 for the second best, and \$500 for the third best. The city will not bind itself to the acceptance of designs submitted, nor the direction of the work to the architect whose design may be awarded the first prize. Mr. Baillarge, Chief Engineer of Quebec, will give full particulars. The total cost of the building must not be over \$200,000. The designs must be submitted before May 1st next.

Isaac Hobbs & Son, architects, 520 Walnut street, Phila., have made plans for eleven houses for C. M. Seabury, 502 Walnut st., to be of brick, stone trimmings, three-stories high, tin roofs, metal cornices, with porches, front and side yards, cement paving, heated by hot air, fitted with electric bells and lighting, best of sanitary plumbing, plate glass doors and windows, wood mantels, and all modern conveniences. These houses are to be erected at the S. E. corner of Brown and Preston streets, West Philadelphia.

Crawford Coates, architect, 4302 Spruce street, Phila., has made plans for the erection of a club house for the Delaware Field Club, located at Wilmington, Del., to be a frame and shingle structure, two stories high, with a large porch, 56 feet long. The interior will be fitted with a reception parlor, hallway, kitchen and dining-room, the second floor will contain ladies' rooms, parlor and men's club-room, there will be fitted up bowling alley, bath rooms and closets, and all modern improvements will be introduced for the comfort of the members. Estimates will be received until 20th inst., and, if satisfactory, contract will be awarded without delay.

Baker & Dallett, architects, Fifth and Walnut streets, Phila., have been given the contract for preparation of plans for a new building for the American Trust, Loan and Guaranteed Investment Company, S. W. corner Broad street and Ridge avenue. The structure will be one high story in front, two in the rear, built of brown red stone, trimmed with stone of a light grey, will have a tower at corner of 58 feet high, the interior fitted with electric bells and light, iron floor burglar-proof safes, plate glass windows, with wrought iron grill work, steam heat, a balcony will surmount the main entrance, and the whole building will be Romanesque in design. Total cost will be about \$25,000.

Building and Real Estate Notes.

E. T. Statesberry will erect a stone residence on Tulpehocken street.

Christian Donat will demolish the stable in rear of hotel, at Chestnut Hill, and erect a large stable for boarding and livery horses.

Mr. John Lyman, of Frankford, will erect two handsome brick dwellings on the site now occupied by Cofrode & Saylor.

The Senate Committee on Commerce has ordered a favorable report on the bill incorporating the Philadelphia and Camden Bridge Company.

W. H. Messick, 331 Tasker street, Phila., will commence the erection of twenty-five two-story brick houses, east side of Second street, South of Snyder avenue.

The Germantown Spinning Company has bought an irregular piece of ground, on High street, northeast of Morton street, same place, for \$75,000.

George McKay, the present lessee of the ground, Broad and Dauphin streets, will remove and build an office and number of sheds at Twenty-seventh and Diamond streets.

Pattison Brothers, yarn spinners, of Manayunk, will at an early day build themselves a factory at Germantown, and remove their plant from its present site.

Benjamin F. Banes, music dealer, Eighth and Locust streets, Phila., will soon rebuild the present store, turning it into a factory and publishing house, preparations are being made now with that object in view.

The African M. E. Church, of Camden, N. J., are making preparations to erect a church at Eighth and Sycamore streets of that city. For further details information will be furnished by the pastor.

Wm. W. Rea & Son, 1815 Francis street, Phila., builders, have just been awarded the contract for the erection of St. Thomas' P. E. Church, to be located at Twelfth and Walnut streets, and work will begin at once.

Philip Haibach, 1261 North Twenty-sixth street, Phila., has received the contract for the new Park Market House, to be erected at Twenty-sixth street and Girard avenue. The building will cost \$60,000, and ground will be broken about March 1.

The ground has been broken at Wayne Junction, by the Reading Railroad, for a large greenhouse for the purpose of raising flowers for the grounds around stations. It will be furnished with every convenience necessary for the purpose.

Hugh McNeil, builder, Buck road, corner W. Moyamensing avenue, Phila., is about to commence the erection of seventy-five houses in the vicinity of Mifflin and Juniper streets and Passyunk avenue, all two-story, brick, stone trimmings, fitted with all modern conveniences.

J. C. & C. C. Moore, builders, 2001 North Broad street, Phila., have bought a lot of ground at Frankford avenue and Cambria street, and will erect a large number of two and three-story brick houses thereon, fitted with all modern conveniences.

John M. McCurdy, conveyancer, 629 Walnut street, Phila., has purchased, at auction, the well-known block of ground known as the Morris estate, at Sixth and Tasker streets, in the first ward. The property has been bought on behalf of Robert and Alexander Wilson, who, it is understood, will erect a number of dwellings.

The Friends' Home for Children, 4011 Aspen street, West Philadelphia, are making preparations to purchase an additional piece of ground, so as to have it for future use. It is not their intention to build on it immediately. Whatever may be done will be enlargement of main building, if anything at present, it is in embryo.

L. A. White, builder, 2327 N. Fifteenth street, Phila., has purchased a fine piece of ground, bounded by Eighteenth, Nineteenth, and Dauphin streets, and is making preparations to build 168 houses two and three-story, brick, brown and light-stone trimmings fitted on interior with all modern conveniences.

T. W. Smaltz, lumber merchant and builder, 1545 Hutchinson street, Phila., will build during this season about 700 houses, at and in the vicinity of Howard and Cambria streets, all to be of brick, two and three stories high, trimmed with light and dark stone, fitted on interior with all modern conveniences, electric work, fine plumbing included.

The project of erecting an Alumni Theatre, on the grounds of the University of Pennsylvania,

West Philadelphia, is assuming a tangible shape, the total proposed cost of which will be \$75,000, exclusive of \$25,000 to be expended upon a pipe organ to be placed in the auditorium. The proceeds of the concert on the 26th inst. will be given to this fund, which will be expended under the direction of the Faculty.

Considerable alterations will be made after Easter, to Saint Mark's Episcopal Church, on Locust street near Sixteenth. The chancel will be enlarged, and the parish building, faced with stone, to correspond with the church. An English architect is said to be here making plans for the alterations. Rev. Isaac L. Nicholson, D. D., is rector, and Rev. F. A. Sanborn, assistant.

A Yachting and Fishing Club is being organized by a number of Philadelphia gentlemen at the head of which is Mr. Charles C. Haines, General Manager of the Keystone Construction Company, residence, 1308 Master street, Philadelphia, and Mr. M. B. Andress, 1206 Wallace street. Six acres of ground have been purchased near Edgemoor, from the Gordon estate. A frame club house to cost about \$4,000 will be erected. The plans have been prepared by Mr. Haines. No contracts have been let.

As indicated in this Journal, on December 11, 1889, the probability seems near a realization that the U. S. Mint will, in the near future, be removed to the point suggested by us at that time, as it has received the approval of no less a person than Hon. William Windom, Secretary of the Treasury, upon a personal inspection made on the 14th inst., and it is now settled that he will, upon his return to Washington, urge upon Congress to pass the bill offered by Hon. Henry H. Bingham, during the present session, and who will, we are assured, leave nothing undone to secure the desired result in securing this much needed public improvement.

Washington, D. C.

The Senate has passed the bill appropriating \$92,000 for the Zoological Park. The amount will be divided as follows: \$10,000 for the erection of a large animal house; \$5,000 for aviary, monkey and reptile house; \$9,000 for six shelter sheds, fifteen iron cages and fence for eight ruminating yards; \$2,000 for repairs to the Holt mansion, which will include a new roof, skylight and ventilator, furnace, water closet and office furniture; \$2,000 for artificial ponds; \$7,000 for sewerage and drainage, including the erection of a supply tank and the establishment of an engine on Rock creek; \$15,000 for roads, walks and bridges, to include 4,880 linear feet of macadamized roads and an iron carriage and foot bridge; \$2,000 for a board walk, and \$5,000 for miscellaneous, including hardware, lumber, paint, tools, type writer, telephone, etc. A heating apparatus will also be needed, for which \$4,000 is available. Mr. Gibson has introduced in the Senate a joint resolution which points to the purchase of considerable real estate for sites for public buildings, embraced in the territory bounded on the west by First street, from Pennsylvania to Maryland avenues, on the north by Pennsylvania avenue to Fifteenth street. Mr. Newland, one of the syndicate which purchased the Sharon estate on Connecticut avenue extension, says the syndicate contemplate the erection of a large apartment house near Dupont Circle. Thos J. Fisher & Co. have charge of this property, and can give information. A syndicate composed of C. Henrick, A. T. Britton, S. R. Bond, John Ridout, C. I. Bell and Jno. J. Edson, has purchased 33 1/4 acres on the Tenleytown road for \$95,500. About \$30,000 will be spent on street improvements. Mr. Barbour has introduced a bill in the Senate for a horse, cable, compressed air or electric road, to run from Bridge street, West Washington, through Arlington to Falls' Church. The approval of the Secretary of War will be required for the plans of route and the erection of stations. At the last meeting of the School Board a communication was endorsed and referred to the District Commissioners asking for immediate action towards

the erection of a new school building at P and Seventh streets. Among those who have recently invested in tracts of suburban property, are C. C. Glover, James M. Johnson, John E. Beall, B. H. Warner. As previously mentioned the Davis property is held as the site of the proposed Methodist University, the price being \$100,000. Bishop Hurst is sanguine that the matter will be pushed to a successful issue. The German American Fire Insurance Company has purchased the property 511 Seventh street, adjoining the Second National Bank, and will use the site on which to erect a handsome office structure. James G. Hill, Corcoran building, has finished plans for a handsome three-story building, at the S. W. corner of Eleventh and G streets, for Mr. B. H. Warder. Mr. Emmons & King are the builders; passenger and freight elevators, steam heat. The same builders will erect an apartment house on G street. General O. B. Wilcox has appeared before the Senate District Committee, to urge the erection of a hospital home for inebriates. The Comptroller of Currency has received applications for authority to organize National banks, as follows: The Continental National Bank of Memphis, Tenn., by W. S. Woods, of Kansas City, Mo., and his associates; the Cherryville National Bank of Cherryville, Kan., by John Hall, of Kansas City, Mo., and his associates; the First National Bank of Del Norte, Col., by E. F. Richardson, of same place, and his associates.

Through Delaware.

At Wilmington the plans and specifications of the Delaware Field Club, reported in our issue of Nov. 27, 1889, are now ready, having been drawn by Crawford Coates, Jr., 4302 Spruce street, Philadelphia, Pa. The specifications call for a two-story frame building, with a shingled-peaked roof. The interior will be handsomely finished, and the reception hall, bowling alley, ladies' club and retiring rooms will be wainscotted to the height of four feet. The men's club room will be handsomely finished. The proposals for the construction will be opened Feb. 20, and if satisfactory, work will begin at once. The residents of South Wilmington have petitioned council for a public park in that part of the city; and there is a probability that property owned by the city, between Eighth and Ninth, and Scott and Dupont streets, will be sold, and the proceeds used for such a purpose. Philip R. Clark and Thomas Tatnall have sold a piece of ground near Edgemoor, owned by William Beadenkopf, to Messrs. Mundell, Andress and Haines, of Philadelphia, Pa., representing a yacht club. The ground has a frontage of 400 feet on the Delaware river, and a handsome club house will be erected, to cost \$20,000.

At Delaware City, New Castle Co., an ice factory will be erected.

Particularly Invited.

FOR TWENTY YEARS

EHRET'S

Slag-Stone Composition

ROOFING,

has stood the severest tests and in no case has it
ever failed.

It is Fire Proof, as well as Damp and Moisture
proof. It never expands or contracts; it is not af-
fected by **Steam, Acids, Gasses, Vapors** or other
injurious influences, that would render a metal roof
perfectly useless in a few weeks. It is air-tight and
is not affected by atmospheric influences of any
kind; it is durable and reliable in winter and sum-
mer, and positively requires no care or attention
whatever. It will out-last the BUILDING and for
**Factories, Chemical Works, Boiler and Engine-
houses, Depots, Factories, Mills and Warehouses,**
it is without an equal. It costs less than tin or
slate, requires no painting, can be walked on with-
out injury and must not be considered in the same
light and prejudice usually bestowed upon what are
known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of
our Roofing is not only owing to our great care in
laying on a roof; but also in the scientific prepara-
tion of the Material we use. Circulars and testimo-
nials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

Refers with permission to William M. Singerly
Proprietor of Phila. "Record."

PHILADELPHIA, WED'Y. FEB. 26, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

WASHINGTON'S Birthday has somewhat impaired the strength of our building news columns for this issue, but it will make them much stronger for the next.

DAVIS & HARVEY, on the 17th instant, sold at auction ten shares of the stock of the West Philadelphia Trust and Title Company, at \$18.25 per share, \$12.50 paid in. This is equal to \$48 premium on its par value.

THE architectural beauty of the Penn Mutual Company's new building, on Chestnut street below Tenth street, is attracting a great deal of attention. Mr. Theophilus P. Chandler, the architect, can at least hold himself responsible for having added lustre to his own fame, and to that of Philadelphia at the same time.

OUR summary this week of real estate transfers is for but five days, as Saturday, February 22d, was a legal holiday. The showing, however, is strong enough to indicate considerable activity notwithstanding the general impression of dullness. The figures are 237 transfers, amounting to \$842,427.67, against which we quote our figures for the same week of last year, the number of transfers, 237, being the same, but the amount, \$1,302,516, being considerably more.

THE amenities of business life were never better exemplified than in the splendid testimonial graciously tendered on the 18th instant by the members of the Master Builders' Exchange, of this city, to the retiring president, Mr. David A. Woelpper. President Stacy Reeves made the

presentation speech, the gift being accepted by Mr. Woelpper in a manner that impressed every one present with his high appreciation of the testimonial and the generous and kindly feeling that prompted it. The event in itself is perhaps more noticeable from the fact that the organization is still in its infancy, Mr. Woelpper having been its second president.

A SPLENDID field is open for the study of what might be termed acoustic construction. As it stands, now the architect approximates what he considers the safest and best material, which is a success sometimes but oftener a miserable failure and disappointment. Experiments are dangerous and expensive. A hall that has proven to be a failure in acoustics is such an expensive luxury that no man wants it. It is useless for the purposes intended, and no matter how beautiful there are but few purposes for which it can be used, and those generally of such a character that it must become seriously dilapidated before an owner would consent to the sacrilege.

BERYT is a name given to what may be termed a solution of Marble, or a combination of materials chemically treated by a process invented by Friedrich Beer, sculptor and a native of Austria. It is stated that it can be moulded into any shape, the same as plaster-of-Paris, the cost being about the same. It is claimed that Beryt, after drying, becomes as hard and as beautiful as marble, and is particularly useful for house ornamentation, and can be put to even more practical purposes, such as floors, external decorations, baths, etc. The patent and secret are in the hands of a French company, and the manufacture of Beryt, on a large scale, is to be commenced at once, at least, it is so stated.

THE presumption of the managers of the railroad companies entering the city of Washington, together with their wholesale usurpation of public lands within the District of Columbia, has brought down upon them no small amount of opposition, that is likely to cause the companies a large amount of trouble and considerable expense. Senator Ingalls has stigmatized the conduct of the railroad companies as disgraceful, amounting to almost a crime, as by the occupation of large portions of the area of the District by railroad corporations under present conditions, vast numbers of people have had their property practically destroyed and confiscated in that portion of the city lying to the northeast, southeast and south of the Capitol. Senator Morrill has introduced a bill providing for a new entrance into Washington

for the railroads, and providing also for a new union depot on the public reservation at Virginia and Maryland avenues. It would seem from this that our own old friend, the Pennsylvania Railroad Company, which has now under its control the Baltimore and Potomac Railroad, is working its familiar little heathen Chinese game of obstruction and absorption on both the property and rights of the citizens of Washington, as well as the public domain embraced within the area of the National Capitol.

With the ardent love and sympathizing efforts of a few Philadelphia Councilmen the Pensy might have a fair chance to gobble the Capitol and other National buildings; but there is no way of utilizing these gentlemen in Washington, and that seems to be the only impediment.

ARCHITECT John Frazer, of Washington, D. C., has already submitted a beautiful design for the proposed memorial arch, to be erected in Fairmount Park. As the structure is intended to commemorate the most important epoch of the new world's history, and is to be a National affair, it is expected that the design should be comprehensive as well as magnificent. Mr. Frazer's design is intended to symbolize the first thirteen states that entered the Confederation, and for that purpose an arch is allotted to each state, that of Pennsylvania being the central or main arch, the idea being to convey the full meaning of its well known title of the Keystone state. It is more imposing than the rest, being surmounted by a high tower or dome 300 feet high, supporting the Goddess of Liberty. The arches on the extreme ends of the structure are also to have towers supporting figures symbolizing the respective characteristics of the various states. Mr. Frazer's design provides for a structure 552 feet long. No plans have been accepted, and the architects of the country will probably be invited to submit designs for competition.

AN Association of the Operative Builders of Philadelphia took permanent form at a meeting held on the evening of the 20th instant, at S. E. corner Broad and Columbia avenue. W. T. B. Roberts was elected president of the organization, and it is now understood that its work will be to remedy, by united effort, some of the glaring evils that to-day stand as impediments to the prosperity of the city, and to those, who by industry, toil and the investment of their money, labor to build up and to make Philadelphia the greatest city of individual homes on this Continent. The fees and permit system, as well as superfluous inspectorships now introduced into

the municipal government, and under whose ban all those having business concerning real estate and building operations must pass before they can perfect arrangements to prosecute their work, are some of the great and crying evils of which much complaint is made. These, coupled with the tardiness upon the part of the Department of Public Works, and its chief, Louis Wagner. These gentlemen urge as the necessity for the combination of all interested in correcting the evils, and it is for the purpose of devising ways and means to better their condition that they have to a man banded together. They do not propose to revolutionize all the forms of the departments and to comply with none; but they do intend to ask the repeal of obnoxious and useless ordinances by Councils, and appeal to them to pass such measures as will aid them in pushing forward their combined interests, and it is of the highest importance that the heads of the minor divisions should invent ways to facilitate without additional expenses the detailed work coming under their supervision. Salaries should be paid to inspectors by the city, and in no case should they be levied upon those who may apply for either a regular or a special inspection of such work as appertain to the building interests or the grading of private and public streets. It is these wrongs and a multiplicity of others, equally as bad, that is desired to be remedied, and by a united and strong effort, it is to be hoped that those who are to blame in the matter will aid in the cure.

A LUMINOUS wall paper, or rather a tough wall paper on which luminous paint can be placed, is the latest thing in Austria. It is intended for dark stairways and entrys, and is said to be a decided success. The durability of the luminous qualities of the paint is secured by varnishing. An Austrian firm is now making luminous paint, to be sold at fifty cents per pound, or about one-sixth the price of the English article.

Look Out For Your Postal Cards.

The new postal card is the worst kind of a fraud; the paper is so smooth and hard and thin, that two cards will frequently stick together. As a consequence the sender will innocently write his message on one card and the address on another. In transmission the cards become separated, and some one receives a meaningless postal, containing his address only. We have already received a half dozen such postal cards, no doubt to our own detriment and the annoyance of the sender.

A \$10,000 Verdict Against the Pennsylvania Railroad Company.

On Thursday last the case of William Jones vs. the Pennsylvania Railroad Company, involving the rights of property owners against railroad companies for damages for depreciation to property, was tried in Common Pleas No. 4, and resulted in a verdict for Jones, of \$10,000. The plaintiff owned a blacksmith shop and dwelling at Twenty-second and Filbert streets.

Vast Deposits of Phosphate Discovered in Florida.

Mr. W. G. Fischer, the piano dealer, 1221 Chestnut street, this city, has shown us a letter, stating that vast deposits of rich phosphates have been discovered on the Withlacoochee river, near Dunnellon, Marion county,

Fla. Already over one and a half million of dollars have been invested in lands, and it is said the excitement is intense. The deposits are said to be the richest and most extensive ever found in any part of the world. The deposits can be worked at a minimum of cost, as dredging is unnecessary.

A Novel Sub-Marine Plow.

The channel of the Sacramento river, California, is to be deepened by plowing. A massive sub-marine plow, one hundred feet long, thirty-five feet wide and twelve feet deep is being constructed at San Francisco for the purpose. It is to be propelled by three engines of 54 h. p., and will travel at the rate of twelve miles an hour, clearing as it goes a space of the river bottom six feet deep and forty feet wide, the mud and sand being pushed to the banks on either side. Three great cone shaped screens, 40 feet long, with blades two-and-a-half feet deep at the base and tapering as they turn around a large central cone to three inches in depth, are to be fixed to the bottom of the plow. It is stated that by working up and down the river with the help of the current, the debris is easily removed.

—At Duquesne, Allegheny Co., the Howard Plate Glass Company will double its plant. Five acres have been bought for the enlargement. The Allegheny Bessemer Steel Company's plant will also be enlarged.

—At Ridley Park, Delaware Co., C. Harry Slawter will break ground in a few days for the erection of two dwellings. E. B. Rhinier has secured the contract for the erection of three dwellings for Edward Dickerson.

—At Lock Haven, Clinton Co., the gas company, which controls the present electric-light company, is considering the subject of putting in an incandescent light plant. If the gas company fail to do anything, a company will be organized for the purpose.

—Among the bills taken from the Senate calendar and passed on February 21st, were the bills appropriating \$250,000 for the erection of a public building at Allegheny, Pa., and \$50,000 for the erection of a public building at Beaver Falls, Beaver Co., Pa.

—At Clifton Heights, Delaware Co., a meeting was held recently for the purpose of organizing an Electric Light Company, and \$3,000 of the \$15,000 required for the purpose was subscribed. A representative of the Edison Company was present.

—It is stated that a number of land owners have offered the Baltimore and Ohio Railroad free right of way over their lands if the company will construct a road from its southern line, at some point near Leiperville, via the creek road to Media.

—At Dunbar, Fayette Co., the Dunbar Rolling Mill Company has been organized with a capital of \$15,000. The president is C. B. Neeman; vice-president, Charles Duggen, of New Haven; Secretary, J. O. Miller; treasurer, S. H. Patterson. A site has been selected and a large mill will be erected.

—At Pottstown, Montgomery Co., the Brancote Land Company is considering the proposition of a manufacturing firm that wishes to locate at Pottstown, on certain conditions, among which is the erection of the necessary building by the land company, and their occupancy on lease with the privilege of buying them.

—At Harrisburg, Engineer Chamberlain, of the Philadelphia and Reading Railroad, has begun surveys for the temporary railroad to convey material to the site of the new bridge, to be erected over the Susquehanna river. Work will be begun in a few days by the contractor, Mr. Nolan.

—At West Chester, Chester Co., the Avondale Hotel property, now occupied by J. H. Hersherbergher, has been bought by Messrs. Pyle and Wilson, of Avondale, Pa., who will alter part of the building into a handsome store room. The other portion will be used for hotel purposes by Messrs. F. J. & M. W. Pennock, of Christiana, Lancaster Co., Pa.

—At Emaus, Lehigh Co., the School Board is trying to get a suitable location for a school house. Several lots have been offered, but as yet a selection has not been made. A large four-room school house will be erected during the summer, to contain all the latest improvements. The estimated cost is from \$7,000 to \$10,000. Mr. Peter Wagner has broken ground for a new dwelling.

—At Chester, Delaware Co., M. Ross and William Ward, Jr., will erect four dwellings in the Eighth Ward. George M. Booth, Esq., sold the ground. Robert Lindsay will erect two dwellings on Third street. Edward Dickerson will erect three dwellings. George W. Farriday will erect two or three dwellings on Seventh street. Harris F. Smith, it is said, will erect two dwellings.

—At Chambersburg, Franklin Co., Mr. Aug. Wolf, of the firm of Aug. Wolf & Company, will soon complete his handsome residence. The grounds will be laid out handsomely and extensive improvements made, among which will be a brick wall, surmounted by an iron fence. A large brick conservatory and greenhouse will be erected South of the house, and Mr. Wolf also thinks of throwing a bridge across the race, and of building a stable.

—At Catasauqua, Lehigh Co., the congregation of St. Mary's Roman Catholic Church has decided to erect a handsome parsonage, from plans prepared by Architect C. W. Wentzel. The material will be brick, two stories high, gothic style of architecture. The dimensions will be 26 by 42 feet. Work will be begun next month. The same congregation contemplate the erection of a new church edifice in a year or two.

—At Erie, Erie Co., Hon. F. A. Mizener, at the request of President Newell, of the Lake Shore Railroad, has opened negotiations with the city looking to the purchase of 250 feet of the harbor front, now owned by the city. Mr. Mizener has stated that if the water lots can be secured, and if no obstacles are encountered, the work of dock building will begin at once. The cost of the improvements will be at least half a million dollars, and employment will be given to a great many men.

—At Coatesville, Chester Co., a shoe factory will soon be established. Negotiations are pending for the building now occupied by G. Cohen, on Main street, which will be altered to suit the purpose. The Evangelical Lutheran Synod of East Pennsylvania, which was held in Grace Lutheran Church, Philadelphia, last week, has decided to establish a church at Coatesville. A committee was appointed to

take the matter in hand, and the following gentlemen were appointed: Rev. M. S. Cressman, of Chester Co.; Rev. L. E. Albert, of Trinity Church, Germantown, Philadelphia, and Mr. H. R. Kurtz, of Valley Iron works.

—At Norristown, Montgomery Co., the Reading Railroad proposes to construct a handsome bridge over the Schuylkill. The cost is estimated at about \$300,000. The station at Broad and Callowhill streets, Philadelphia, will be abandoned as a passenger station, the traffic coming instead over the Germantown and Norristown branch to the proposed new station at Philadelphia. The lines for the bridge have been marked out. They will end at Markley street, just below the mouth of Stony Creek. The material will probably be of iron and there will be two tracks. The factory building, occupied by the Globe Tack works, has been purchased by the Scott Hosiery Company, for \$8,000, and will be fitted up with machinery for the manufacture of knit goods.

—At McKean Station, on the P. V. & C. R. R., above lock No. 4, on the Monongahela river, work has begun on the new town of Charleroi. \$7,000,000 will be invested in various enterprises the first year. M. J. Alexander is the representative of Drexel, Morgan & Co., the great banking firm. J. W. Moore, of Greensburg, Pa., is also a heavy investor. The Charleroi Plate Glass Company is one of the great enterprises, with Dr. Chandler as general manager. The capital is \$1,000,000. Mr. M. J. Alexander will be the general manager of the Charleroi Land Company, capitalized at \$250,000. The McKean Sand and Stone Company, and a brick company, have been organized. The foundations of the plate glass factory will make use of \$100,000 worth of stone.

—At Wayne, Delaware Co., Dr. Joseph C. Egbert and C. B. Walton, owners of adjoining lots on Wayne avenue, which were purchased of the Wayne estate, will soon break ground for their new dwellings. Patrick Fogarty and H. McClintock, who own lots on Aberdeen avenue, will erect dwellings in the near future. John Rose has purchased a lot on Windemere avenue from George P. Fallon, and will erect a dwelling as soon as the plans are ready. Lewis Warner, of Devon, Pa., has purchased three lots on Highland avenue, and will erect nine room frame cottages at once. The Wayne Title and Trust Company has secured its charter, and ground will be broken at an early day for its new building, previously reported, and bids are now being received.

—At Pittsburg the Pittsburg, Petroleum, Stock and Metal Exchange, at a recent meeting discussed the feasibility of reorganizing the present exchange and making it a board of trade to include, besides its present features, the grain, real estate, and such other interests as will make up a strong board of trade. Ex-President N. W. Stevenson, Vice-President B. F. Arensberg, Treasurer J. B. Barbour and other influential members are in favor of the change. If this measure is carried out the intention is to erect a magnificent building suitable for the purposes of the Board. Some portion of the Schenley estate, which will be put on the market in a short time, is favored by the majority of those interested as a site for the proposed new building. The Americus Club will spend about \$100,000 on its new building. A. G. Roenigk is the chairman of the committee having the matter in charge. Messrs. J. & C. McCune have purchased the lots at Wood and Water streets, and the new owners talk of erecting an eight-story building. Work will be commenced in the spring on the handsome residence, previously reported, for Mr. D. P. Black, of the firm of Black & Baird, 95 Fourth avenue. The site is on Negley avenue, East End, and the material will be stone. The estimated cost is \$25,000. It is stated that the property at Liberty and Sixth streets will be improved by Mr. B. Wolff, Jr., trustee, and the Smith heirs, by the erection of a large office building. The lot is 100 by 110 feet. A large

apartment house will be erected at Forbes and Marion streets, from plans prepared by Hodgdon & Thomas, 83 Fourth avenue. The cost will be about \$20,000. The building will be four stories high, of brick, and every known improvement and convenience will be introduced. Mr. William Nease will erect a dwelling on Sherman avenue, Allegheny, from plans prepared by Edward Stolz, Lewis block, Pittsburg. It will be three stories high, of brick, with stone front. J. H. Miller has had plans drawn by Chancey W. Hodgdon, 59 Ninth street, Pittsburg, for a frame, two-story dwelling, to be erected on Logan street, Allegheny. At a meeting held at the residence of Mr. S. W. Jefferis, Lake street, East End, Pittsburg, a committee of four was appointed to look up a site on which to erect a new Methodist church. Mr. Jefferis can give information. David P. Black, of the firm of Black & Baird, will erect three large warehouses on Diamond street.

**SLAG-STONE
PAVEMENT.**

for Side-walks and Floors is conceded to be the best production of the present century.

Slag-Stone when properly combined with the best grades of Portland Cement produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag Stone and for that reason it is cheaper than brick.

Being a non-absorbent it is superior for **Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses Etc.**

For the Cellars of Residences it expresses the highest standard of perfect Sanitation as it prevents the escape of noxious gases from the underlying soil, and will not absorb impurities. It prevents dampness, is easily cleaned and renders the whole house more comfortable and healthful.

PHILADELPHIA, WED'Y. MARCH 5, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THREE hundred and twenty-five new manufacturing enterprises, according to the *Atlanta Southern Industrial Record*, were inaugurated in the ten cotton States during the two weeks preceding February 20. These enterprises represent a capital investment of over \$6,000,000, and do not include the many new railroad enterprises, involving many millions of capital and developing a vast country, rich in minerals, coal, timber and agriculture. The *Record* asserts that industrial development is spontaneously springing up all over the whole South.

THE trustees of the I. V. Williamson School Fund are making, we think, a very serious mistake in the beginning. No one will, of course, question their right to exact the greatest possible return for every dollar they expend, in fact they could very justly be considered recreant to their trust were they not disposed to do so, but the fact is they have undertaken a very important task, that of erecting a number of large buildings requiring care, skill, experience and last, but not, by any means, the least, business integrity on the part of the contractors. Their proposed method of juggling with the question of contracts may save a few dollars, but at a costly detriment, perhaps, to quality, and that too without questioning the ability of their architects to protect their interests at every standpoint. The formation of Master Builders' Exchanges and their out-growth, the Association of National Master Builders was for the purpose of placing the craft on a higher plane, eliminating rascally methods to the protection

of both owners and builders, and in order to still further elevate the calling and promote harmony between architects and builders a code of rules, laws and ethics was agreed upon between a representative body of architects and an equally representative body of builders forming, for practical purposes, a convention. These rules, which have now become the accepted method, were not established for the purpose of exacting higher prices for work, for the spirit of competition is as hot between builders to-day as it ever was, and as much work can be had for a dollar to-day as could be obtained before the rules were accepted, but they were purposely established in order that just such men as the Williamson trustees might be able to enter into contracts for extensive operations with the assurance, at least, that they were dealing with reputable business men who were equal to their obligations, and whose reputation for business integrity was equal to their own. Another object—and it was declared in unmistakable terms—was to promote better building, and there is certainly sufficient evidence in our own city that the influence of the Master Builders' Exchange, in that direction, has been forcibly expressed.

The Williamson Trust must know that reputable, conscientious men of any calling avoid, as far as possible, what is known as cut-throat competition, and that means, in plain terms, that men with a business reputation to care for and a promising business future before them, will not compete against men who submit bids for work at prices ruinously low, and whose only escape from disaster and loss is through whatever genius they may possess for robbing the owner and paying no one. We do not wish to be understood as saying that reputable and reliable contractors, as well as sub-contractors, cannot be found even without the pale of the Master Builders' Exchange, for it would be lamentable were it the fact, but we do assert that the standard for business integrity necessary to obtain a membership in the Exchange is worth something, even to the trustees of the I. V. Williamson School Fund, and they will perhaps learn by experience, if it has not already been made apparent to them, that there is a healthy atmosphere surrounding a building conscientiously constructed by those who aim to elevate their calling through legitimate means, and who, for the sake of legitimacy and their own self respect, prefer to relegate the chances of making a little money to others, rather than stultify either themselves or their organization. It is to be hoped, however, for the benefit of the proposed school plant, that the present difficulty will be adjusted, and that those who have with

drawn their bids will be publicly invited to renew them, for as it stands now, the members of the Exchange can better afford to lose every possible chance for profitable contracts rather than vitiate the strength of their organization.

Valuable Oil Paintings at Auction.

Probably the most interesting collection of oil paintings that has been offered at auction in this city for some time will be sold on Wednesday, Thursday and Friday evenings of this week. The collection is the property of Mr. Chas. Rode, of New York, a connoisseur of considerable reputation. The master-pieces of such men as Lange, Detti, Piot, Perboyre, Herpfer, and others, are not only plenty, but many of them are particularly noticeable as gems rarely seen in the auction room.

Architects' Notes.

T. Roney Williamson, architect, 138 South Fourth street, Phila., has made plans for alteration and addition to the house of Dr. H. C. Wool, 1925 Chestnut street, which will be on an elaborate scale, refitting the interior and ornamentation of exterior.

Isaac Pursell, architect, 119 S. Fourth street, Phila., is engaged on plans for a church for the congregation of Olivet Presbyterian Church, Wilmington, Delaware, the cost of which will be about \$20,000; also, plans for a new chapel, at Riverton, N. J., to be erected the coming spring.

Wm. H. Decker, architect, 1407 1/2 Chestnut street, Phila., has completed plans for the erection of the new church of Zion Presbyterian Congregation, Twenty-eighth and Stiles streets. The structure will be stone, three-stories high, handsomely fitted with church furniture, at a cost of \$20,000.

T. Frank Miller, architect, 1221 Arch street, Phila., has plans completed for a hotel at Winslow Junction, N. J., to be of brick, frame and shingle-work, three stories high, fitted on interior with electric bells and all modern conveniences. Capacity, thirty-five rooms. No contracts awarded yet.

J. C. & A. F. Smith, architects, 27 N. Sixth street, Reading, Pa., are making plans for a four-story brick house for J. Mould & Co., Penn street, between Sixth and Seventh streets, to be fitted with steam heat, elevators, electric appliances, plumbing, gas fitting and all modern conveniences.

Hazelhurst & Huckel, 418 Walnut street, have made plans for the erection of an office building for the Clinch Valley Coal and Iron Company, Richlands, Va., to be three stories and basement, Colonial style, stone and frame, with shingle roof; also, plans for a carriage house, coachman's house, and stable, for T. Z. Osler, 134 Chelton avenue, Germantown, Pa., to be stone and brick, 28x42 feet, with shingle roof, plumbing, etc.

W. J. Waters, architect, 417 Locust street, Phila., has made plans for a house for E. A. M. L'Etang, at Narbeth Park, Elm station, P. R. R., to be of Native stone, with lighter stone trimmings, three stories high, slate roof, gal-

vanized caps to finials and tower, heated by hot air, American plate and stained glass windows, wood mantels, best of sanitary plumbing and gas fitting, a large tank to supply water, open stairways, fancy newels, rails and balusters. Proposals are being offered.

T. P. Lonsdale, architect, American Life Insurance Building, Phila., has made plans for the erection of the Western M. E. Church, Twentieth and Walnut streets, Phila. The structure will be two stories high, of stone, trimmed with Indiana lime-stone, and have a slate roof, there will be two main entrances, entertainment room, and kitchen in basement, the steeple will be frame, covered with galvanized iron, steam heat, and hard-wood finish inside, with handsome church furniture.

G. W. & W. D. Hewitt, architects, 310 Chestnut street, Phila., have completed the plans and specifications for the addition to the Bullitt Building, Fourth street and Harmony court, the structure will be eight stories high, to be of brick, granite and sand-stone, with tin roof, galvanized iron cornice, inside to have one elevator, electric work, gas fixtures, plate glass windows, hard and soft wood finish, and wood and marble mantels, tiling, iron skylights, speaking tubes, ventilators, lavatories, iron and brass work for enclosure of stairs and elevators. Contracts not yet awarded.

Baker & Dallett, architects, S. W. corner Fifth and Walnut streets, Phila., are engaged on plans and specifications for a large eight-story building for the Equitable Guarantee and Trust Company, Wilmington, Delaware, it will be built of light-colored stone, in Romanesque style, and have cement and iron floors, iron grill work at doors and windows, and elevator casings, two elevators, fitted with safes, electric work, iron columns and beams, plate glass windows, boiler and engine in basement, steam heat, and fitted throughout with every comfort and convenience for a large office building, ground measure, 41x117 feet.

George T. Pearson, architect, 427 Walnut street, Phila., has plans on the boards, and about completed, for an extension to the second Presbyterian Church, Germantown, 28x60 ft, an organ recess, 12x25 feet, two stories high, of stone, stained glass windows, frescoes, furnace heat; also, plans for rebuilding the property of the Junior Club of Germantown, which will be after the Colonial style of architecture, having a large interior hall or reception room, two dining rooms, tap room, parlors and card rooms, billiard room and kitchen, stained and painted plaster work, electric bells and perhaps light, lavatories, and all modern conveniences and comforts will be introduced.

Building and Real Estate Notes.

Avery & Larer, conveyancers and real estate brokers, have removed to their new offices, No. 106 East Girard avenue.

Phillip Haibach, contractor, will now begin work on the new market house, Twenty-sixth and Girard avenue, and will push to completion as fast as possible.

Mr. J. G. Cassatt, 105 South Fourth street, Phila., has purchased a farm, of one hundred acres, in Radnor township, which, it is said, will be made into an extensive stock farm.

James Lilly, contractor, 1224 Snyder avenue, Phila., will erect a number of two-story houses, brick, on Fifth, Tree and Jackson streets, and will begin work at once.

The Portland Paving Company have been awarded the contract for the flooring of all the fire engine houses, of Camden, N. J., with Metalithic Pavement, and will begin work at once.

Alexander McGaw, 819 Preston street, West Phila., has purchased a lot, 102 feet, on Preston street, and 119 feet on Parrish street from the estate of the late Hon. W. D. Kelly, and will soon build upon it a fine house.

The Jackson & Sharp Company, of Wilmington, Del., has received the contract for the mill work for 145 dwellings, to be erected at Thirtieth and Diamond streets, Phila., for James H. Stevenson, Twenty-ninth and Susquehanna avenue.

The Cresson Boat Club, Fairmount Park, is preparing to enlarge its present handsome quarters by an addition of another wing, in order to accommodate the cycling portion of its membership, it is proposed to expend between \$6,000 and \$8,000 on this work.

Fairmount Park Commissioners have determined to erect a pavilion for the general public at the steamboat landing in the old park, to be frame, the floor to be paved with asphalt, \$2,500 is the limit for expenditure, and bids will be asked for at once.

Bergner & Engel, brewers, Thirtieth and Master streets, have made a purchase of ground, 100x280 feet, from J. B. Townsend, and others, for the purpose of enlargement of their present plant, plans and details will be made at once for their new addition.

Colonel Fred. Taylor, Post 19, G. A. R., has purchased the church property, on Marshall street, above Poplar street, and it is their intention to alter the structure and make it one of the handsomest headquarters in the Department, information may be had of committee on purchase and building.

Hugh Chain Droner, 650 Brooklyn street, Phila., and Charles T. Dengler Droner, 4115 Ogden street, have purchased adjoining lots from the late Judge Kelly's administrators, upon which they propose to build, each, separate houses, at an early day, these lots are situated on Forty-first street, and are of large dimensions.

Bids are being prepared by various contractors for the patrol and police station, Fourth and York streets. It will be two stories high, of pressed brick, stone trimmings, iron beams, girders and columns; also, considerable iron grill work, slate roof, vulcanite pavement, best of plumbing, gas fitting, etc.

R. G. Ballinger & Co. have received the above contract.

Arthur H. Williams & Son, 402 Tenor Place, Phila., have been awarded the contract to erect the Fire Association Building, 405-7 Walnut st., previously reported, by the architects, Messrs. Hazelhurst & Huckle, 410 Walnut street, Phila., and will begin work at an early day. The structure will be one of the largest and best fitted office buildings in the city, having elevators, electric plant, and every convenience.

The Faculty of the University of Pennsylvania, at Darby Road and Thirty-third street, Phila., intend to make additions and repairs to the Hospital Department. It will be replastered, new rooms built, new elevators put in, and various other changes in fitting up the various wards of the institution. Information may be obtained from either the Faculty or the Lady Board of Visitors as to the time of commencing operations.

It is reported that the Philadelphia Sparring and fencing Club, now located on Fifteenth street, above Chestnut street, is negotiating for the site of Wyeth's laboratory, destroyed by fire some time ago, on Walnut street, above Broad street, with the view of erecting a handsome club house. The club's lease of its present premises does not expire until about 1898, but this it is said will be no impediment, as the rooms can be sub let to advantage.

A new church organization was formed on the 2d inst., at Frankford, Phila., of the Lutheran denomination, and already a move is being made to erect, during the coming summer, a church edifice. A lot has been bought on Harrison street. The trustees are Messrs. H. Hoffman, W. Coulston, L. Coulston, and J. Henszey. It is understood the Rev. J. M. Weinrich, of the Lutheran Seminary, Mt. Airy, will be the rector in charge.

W. S. P. Shields, builder and operator, 735 Walnut street, Phila., having gained all he asked from the Belmont Cricket Club, in regard to access to his grounds for building operations, will now proceed to erect sixty-eight handsome houses on Greenway avenue, and one hundred and fifty more on Hansell, Paschal, Forty-eighth and Forty-ninth streets, these will be of pressed brick fronts, brown-stone trimmings, two and three stories high, and fitted throughout with every modern convenience, electric bells, sanitary plumbing, artificial pavement, hot air heating.

On the 25th inst., the Committee on Property of the Board of Education met, and awarded contracts for the erection of public schools as follows: The first, located in the Twenty-eighth section, at Thirtieth and Herman streets, to Builder Charles McCaull, 21 North Eleventh street, \$51,097 being the amount of bid; the second will be built by R. C. Ballinger & Co., Lucas Building, Chestnut and Juniper streets, and to be located at Twenty-eighth street and Columbia avenue, in the Twenty-ninth section, for \$56,065, and the third, located in the Thirty-third section, Fourth and Clearfield streets, by Wm. R. Dougherty, 1604 Sansom street, for \$54,700. They are to be of pressed brick, stone trimmings, three stories high, and contain room for fifteen divisions each. The bids advertised for making repairs to Madison Street School all being above the limit appropriated by the Board of Education, no contract was given, and it was held for future action, the amount set aside for the purpose was \$13,000. The amount of \$48,000 for a new school house for the Thirty-fourth ward remains for that purpose notwithstanding an endeavor to annul the former action of the Board.

Architects & Builders

Particularly Invited.

FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,

has stood the severest tests and in no case has it
ever failed.

It is Fire Proof, as well as Damp and Moisture
proof. It never expands or contracts; it is not af-
fected by **Steam, Acids, Gasses, Vapors** or other
injurious influences, that would render a metal roof
perfectly useless in a few weeks. It is air-tight and
is not affected by atmospheric influences of any
kind; it is durable and reliable in winter and sum-
mer, and positively requires no care or attention
whatever. It will out-last the BUILDING and for
**Factories, Chemical Works, Boiler and Engine-
houses, Depots, Factories, Mills and Warehouses,**
it is without an equal. It costs less than tin or
slate, requires no painting, can be walked on with-
out injury and must not be considered in the same
light and prejudice usually bestowed upon what are
known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of
our Roofing is not only owing to our great care in
laying on a roof; but also in the scientific prepara-
tion of the Material we use. Circulars and testimo-
nials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

A MAN MAY SUFFER

From **MENTAL OBLIQUITY**, and not know it.

A loss of energy is known as LAZINESS, and while laziness is distinguishable, mental obliquity can only be recognized in the man who fails in mental grasp or in that power to direct his efforts to profitable channels in trade. Smith works harder than Jones, and yet he cannot succeed. The reason is, Jones uses his brains, while Smith depends upon his legs.

Jones sits in his office-chair, carefully peruses the **Philadelphia Real Estate Record and Builders' Guide**, makes his memoranda from its mass of weekly building news as to who will need his wares, his skill, his services, quietly presents himself, secures a hearing, if not a contract; while all the time, poor Smith is hurrying and scurrying around trying to find out a few pointers that Jones already knew before he left his office.

Smith wastes fifty dollars' worth of energy in his efforts to glean information, that cost Jones about nine-and-a-half cents to find out beforehand.

Jones subscribes for this Journal, Smith doesn't, and perhaps never will.

Smith's are plenty, yet there are lots of Joneses.

A refusal to subscribe for this Journal is a sure evidence of mental obliquity.

PHILADELPHIA, WED'Y. MARCH 12, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

A NEW Pipe Line Company, with a capital of \$50,000,000, it is said is being organized and will erect refineries at Findlay, Lima, Cygnet, Delphos and Upper Sandusky, Ohio. The company is composed of Milwaukee, Chicago and Pittsburg capitalists.

THERE is no enquiry for sites for buildings for industrial purposes, in fact there is some disposition to force the sale of those that are offered, this would indicate considerable depression among many of the manufacturing interests. There is no disguising the fact, that the carpet mills are suffering from over production, and no increase in the number of carpet plants can be expected for some time to come.

THE New York Fire Commissioners have reported that there are eighty-one hotels, including some of the best in the city, which have entirely ignored the law providing for the escape of guests, in case of fire. The punishment for the violation of the law is one years' imprisonment, or \$1,000 fine, or both. It would be interesting to know how the Philadelphia Hotel-keepers are conforming with our own laws.

IF any proper estimate as to the outlook for the year 1890 can be based upon the transfers of real estate, there is certainly no cause for alarm, for notwithstanding the fact that for the week ending Saturday, March 2, 1889 was unusually heavy, the report showing 300, amounting to \$1,689,312.67, the transfers made during the

same week this year (i. e. ending Saturday, March 1st), are largely in excess, the figures showing 351 transfers representing a value of \$2,292,072.44, a difference in favor of 1890 of 51 trasfers, and a money value of \$602, 759.77.

THE question as to whether wood-work continuously exposed to the heat of furnaces or steam, will catch fire, can no longer be regarded as an open one. It is certainly well settled that most wood-work in proximity to hot-air pipes, unless protected with Woven Wire, or some other fire preventive material, is extremely dangerous, now also comes the intelligence that the steam-pipes connected with the radiators in the debtor's room of the Raymond street jail, Brooklyn, recently set fire to the wood-work in the wall, there is not the least doubt but that the fire was caused by the steam-pipes, as there had been no light or fire in the room.

THE Electrical Manufacturing Establishment lately at 137 N. Seventh street, Philadelphia, conducted by Chas. M. Rhodes, has removed to 918-20-22 Vine street, and now re-organized under the title of The Rhodes' Manufacturing Co., is prepared with greater and enlarged facilities to manufacture all kinds of Electric work and machinery, small Dynamos, Axial Engines and Electric Motors in all forms, as well as wiring in large operations. This Company enjoy a national reputation for the perfection and finish of its work and the new structure has been fitted in a great measure with new appliances for the construction of scientific dynamos, motive power and the general and varied wants of the trade.

Removal of the Warren-Ehret Company to 432 Market Street.

Keep your eye on the conscientious worker, merchant or manufacturing concern, for no matter how small the beginning, the time soon comes when a full recognition of trust-worthiness for work and wares necessitates greater facilities to meet business requirements. The days when any man could succeed, and inferior work and material were acceptable, have been superseded by a demand for the best efforts of conscientious workmen, whose products must stand the test of time and wear. Business popularity is of slow growth. The full quantum of patronage has not only rewarded the Warren-Ehret Company's efforts, but it has been compelled to seek more extended facilities for every department of its growing business. The fact is, the almost indestructible character of the Warren Ehret, Slag-stone composition roofing, has gained for it, such a decided preference among the owners and builders of Mills, Factories, Foundries, Chemical works, etc., that the orders thus far for 1890, are largely in excess of any preceeding year. The Company is also commended for the high character of its patent Slag-stone Pavement, and this feature of its business now necessitates a special department and special supervision.

The store and building, 432 Market street has been leased for a term of years and the old quarters of the Company will be vacated on or about the 20th instant.

Sum. C.—Summons in Case—A form of action invented to meet all civil cases, the form of which is not specially provided for.

Where there are no figures to indicate the amount of the judgt., the damages have not been assessed.

The first name in each line is that of the judgment debtor.

An Asterisk (*) denotes judgment confessed or bond and warrant conditioned.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The letters D. M. J. and S. after the number of the Court indicate the Term, as D., December Term, M., March Term, J., June Term, and S., September Term.

ENTERED MARCH 3, 1890.

**SLAG-STONE
PAVEMENT.**

for Side-walks and Floors is conceded to be the best production of the present century.

Slag-Stone when properly combined with the best grades of Portland Cement produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag Stone and for that reason it is cheaper than brick.

Being a non-absorbent it is superior for Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses Etc.

For the Cellars of Residences it expresses the highest standard of perfect Sanitation as it prevents the escape of noxious gases from the underlying soil, and will not absorb impurities. It prevents dampness, is easily cleaned and renders the whole house more comfortable and healthful.

ALSO

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner and at prices in keeping with our guarantee for first-class work.

we mean our Hat Store to have every-
thing of the sort a man or boy needs
for dress or for comfort.

The newest Heath Hats (London)
are at hand. Every make that we are
to have is here.

Knox's Derby and Silk Hats are as
near the top as any. You never see
that name in a mean Hat.

Best Philadelphia makes too. Jum-
ble them all up and you might not hit
the Heath or Knox at the first or sec-
ond choice. When a certain point of
Hat goodness is passed how many of
you make up your minds after a look

VOL. V.—No. 11.

PHILADELPHIA, WEDNESDAY, MARCH 19, 1890.

PRICE 15 CENTS.

TESTIMONY such as the following is valuable, for many reasons. Buyers desire to avoid experiments, as far as possible. Mr. H. C. Miner, the theatrical manager, writes to Mr. I. P. Frink, manufacturer of reflectors, as follows:

Mr. I. P. Frink,
551 Pearl street,
New York City.

Dear Sir:—I could give you no more satisfactory evidence that the massive reflecting chandelier, with its 150 gas burners, lighted by electricity, and 126 incandescent electric lamps you put in my Newark theatre two years ago, has given entire satisfaction, than by ordering another exactly like it for the Fifth Avenue theatre, New York City. I expect to make this one of the handsomest theatres in the city, and as I considered your fixture one of the chief attractions in my Newark theatre, I desire it also to be the same in this. Yours is the only proper method of lighting a theatre, and sooner or later will be adopted by all. You may take your time in making it, as I do not take possession of the theatre until May 1st, 1890.

Respectfully Yours,
H. C. MINER.

Probably the most completely fire-proof buildings in New York are the new stations of the Edison Electric Light Company. There is absolutely nothing in them that could make a blaze bigger than could be extinguished by a bucket of water. One of them cost \$140,000, and the total cost of the carpenter work upon it, which included all the doors and windows, glazing and work of that sort, was only \$4,000.

A new material for relief ceilings has made its appearance, and is composed of either sheet iron or steel, corrugated or pressed in ornamental forms and then put up in panels, after which it is painted and decorated, and it is difficult to distinguish it from plaster relief. The uses of these ceilings have been confined to stores, however. We have also seen these ceilings put up already decorated in a burnt and glazed imitation of lacquered metal, but a very cheap and tinsel effect is the result.—*House Painting and Decorating.*

PHILADELPHIA, WED'Y. MARCH 19, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

YORK, Pa., will probably have a paid fire department, the question is under consideration by City Councils.

BOSTON Mass., has a Fireman's training school. The Fire Commissioners will shortly give an exhibition of the proficiency of recent graduates in fireman's work, including the use of life saving apparatus.

STEAM heating in Reading, Pa., in most cases, means pipe connection, with the steam pipes under the streets, the steam being furnished by a company from a central plant.

THE new town of Charleroi, located on the Monongahela river, at McKean's Station, Pa., is booming. The sales of building lots on the first day, netted \$155,000 for 360 lots. Mr. J. Alexander, who started the town of Jeannette, is also manager of Charleroi.

MR. EDWARD ATKINSON, President of the Boston Manufacturers' Mutual Fire Insurance Company, has in his possession a piece of a door sill of a hotel that was set on fire by a steam pipe from a boiler worked under twelve pounds pressure. The evidence of the danger of steam and hot air pipes, when too close to wood work, is accumulating, notwithstanding the pooh poohing of theorists and experts to the contrary.

It is interesting to read in the outside papers about the great things that are to be done in Philadelphia toward the improvement of our

drinking water. Hundreds of thousands of dollars for a filtering plant, millions of gallons of limpid water, as clear as the clearest crystal, and all for the asking, according to those who do not live here, and who know nothing about it. The next thing in order will be the mint julep hydrants, and fountains of perfumed waters at every street corner: and the average Philadelphian knows that one of these propositions is as likely to become a reality as the other.

The \$300,000 stipulated for the completion of Walnut street bridge, could be much better employed in sewer building, gas pipes and pavements, for while there is no great hurry for the bridge, there is the most urgent demand for every dollar that can be spared in the preparation of newly paved streets, for building improvements which greatly add to the city's revenue. The allotments should be revised and a committee from the Operative Builders' association, might—and we say it with some misgivings—influence a more advantageous expenditure of the money in a direction that would facilitate their building operations. The committee might get fired out, as other builders' have been, but that would not hurt them in the least.

WHAT have the eighteen members of City Councils done to merit such distinguished consideration from the Pennsylvania Railroad Company, as the placing of the magnificent hotel car, St. Nicholas, at their disposal while on a Southern trip? Surely such a forcible expression of kindly feeling on the part of railroad officials toward plain, every-day members of City Councils, who recognize and oppose the baneful influence of sordid railroad companies, is something unusual, and slightly mysterious, to say the least.

Official courtesy is a very proper thing, provided it does not open the way for official reciprocity in the near future, to the detriment of the dear people, but as kissing goes by favor, and the Pennsylvania Railroad Company never kisses those it cannot use, it is dead certain that its latest eloquent expression of unselfish generosity is not without a purpose. Next!

Another Business Change.

The Mankey Decorative Company, of Williamsport, Pa., has disposed of its Philadelphia retail department to Matthew Hall, the artistic wood miter manufacturer, 1927 and 1929 Market streets, Mr. Hall having taken the exclusive agency for the Mankey mantels, wood work and mouldings, and having purchased the stock, lease, etc., of the company's store, 1931 Market

street, it is his intention to utilize the additional store space for the display of the many wares connected with the building interest in which he deals. As to wood mantels, Mr. Hall claims that his present acquisition of the resources of the Mankey Company, together with the resources of his own factory, will enable him to carry the largest stock, embracing greater variety of designs to be found in the United States. Hereafter Mr. Hall's address will be 1927-29 and 31 Market street, and factory 1334 Brandywine street.

At Newburyport, Essex Co., Mass. The family of the late George H. Corliss, the engine builder, will erect a building for the Y. M. C. A. to cost, \$50,000.

Architects' Notes.

J. S. Brieau, architect, 1413 Filbert street, Phila., has completed plans for the Pecora Paint Works, Fourth street, below Race street, to be built at North Penn Junction by L. Bowen & Sons, and previously reported in this Journal.

Baker & Dallett, architects, S. W. corner Fifth and Walnut streets, Phila., have completed plans for a residence, for C. T. Wetherill, Altoona, Pa., to be frame and shingle work, three stories, electric bells, hot air, and all modern conveniences on interior.

Minerva Parker, architect, 14 South Broad street, Phila., has made plans for a house for Miss L. E. Gallagher, Moore's station, to be frame and brick, two-and-a-half-stories high, fitted on interior with wood mantels, hard-wood finish, and all late improvements.

P. A. Welsh, architect, 429 Walnut street, Phila., has made plans for the National Bank, Elk County, Pa., to be built of stone, two-and-a-half-stories high, slate roof, and fitted with a general bank outfit. Estimates are being received for construction of the above.

Willis G. Hale, architect, has just completed furnishing an entire suite of rooms, upon fourth floor of 1524-6 Chestnut street, in magnificent style, the fittings and decorations being original, and in keeping with professional art, and designed by himself.

Edwin F. Bertolette, architect, 257 South Fourth street, Phila., has plans for a handsome house, for Milton Latshaw, Spring City, Pa., to be stone, slate roof, three stories high, heated by hot air, plate and stained glass, wood mantels, hard-wood finish, and all the latest improvements.

Thomas. P. Lonsdale, architect, 429 Walnut street, Phila., has completed the plans for the rebuilding of the J. D. Johnson house, 139-41 North Seventh street, it will be five stories high, iron front, first story built of brick with galvanized iron and terra-cotta ornamentation, will have freight elevators and fitted for plumbers' supply business.

Otto C. Wolf, architect, N. E. corner Broad and Arch streets, has planned an office building, for John Reilly, to be built at S. E. corner Fifteenth and Vine streets. The first floor will be occupied as stores, overhead by offices; also, plans for a number of dwelling houses, at Newport News, Va., for the Chesapeake Dry Dock and Construction Company.

Frank R. Watson, architect, 518 Walnut street, Phila., has completed plans for a church at Girardville, Pa., to be two stories high, brick, stone trimmings, 60x140 feet, to have steam heat, and neatly furnished on interior; also plans for a store, just completed, for Charles Schmid, three stories, 30x105 feet, brick, all modern improvements, patent pavements, etc.

Moses & King, architects, 226 Walnut street, Phila., are making plans for a residence for John Stafford, the builder, to be built at Twenty-fourth and De Lancey Place, to be of stone and brick, three-and-a-half stories high, fitted on interior with all conveniences, plate and stained glass, wood mantels, best of sanitary plumbing, etc.; also, engaged on plans for a large brick house, to be built at Marlton, N. J., for Mr. Henry Brick.

James H. Windrim, architect, 132 S. Third street, Phila., has prepared plans, which have been accepted by the Board of Managers of the Southern Home for Destitute Children, for a new building, located at Broad and Morris streets (noted in this Journal, Oct. 16, 1889). It will be three stories high, 50x150 feet, and will be of a substantial character in all its appointments, detailed plans will be prepared at once, after which the contracts will be considered.

E. L. Rice, Wilmington, Delaware, has finished plans for a residence for Mr. Gideon E. Hukill, of Middletown, same State. These plans call for a handsome structure, two stories in height, of brick, timber and shingles, with porches on

south and east sides. Interior finished in white pine, wood mantels, handsome stairway, lighted by two cathedral glass windows; also, plans for four dwellings, two stores and a church, to be erected at Piedmont, Alabama. The Church will cost \$20,000.

T. Frank Miller, architect, 1221 Arch street, Phila., has been given the contract to prepare plans for the Second Presbyterian Church, Mantua, located at Preston and Aspen streets, and will at once prepare details. It will be of stone, two stories high, and have a tower of considerable height, slate roof, and will be heated by hot air; there will also be an extension of the old church to the front building line. Seats will be in amphitheatre style or semi-circular. Rev. Wm. H. McCaughey is the pastor.

Moses & King, architects, 226 Walnut street, Phila., have just completed plans for the erection of a new hotel, reported in our issue of February 26, to be built at Ventnor, N. J., near Atlantic City. In perspective it is quite a massive affair; frame in material, two-and-a-half-stories high, fitted with electric work, rooms for billiards, bowling alleys, large dining rooms, elaborate porches, elevator, etc.; also, plans for a residence for John C. Bell, at Twenty-fourth street and De Lancey Place. The building will be very ornate and fitted with all modern conveniences, inclusive of electric wiring, etc.

Building and Real Estate Notes.

THE GREAT IMPROVEMENT IN
ROOFING.

We are now ready to supply the product of entirely new machinery and processes just completed by which we not only have greatly improved the strength and durability of our well-known **ASBESTOS ROOFING**, but have also secured a degree of uniformity never before attained in any similar fabric. We offer this as the PERFECTED form of the portable Roofing which we have manufactured with continued improvements during the past thirty years, and as the most desirable Roofing for general purposes.

The important features of our recent improvements, for which patents have been allowed in this country and in Europe, are described in our new circular, which, with samples, will be sent free by mail.

Our Asbestos Roofing is now in use upon Factories, Foundries, Cotton Gins, Railroad Bridges, Cars, Steamboats, etc., in all parts of the world.

It is supplied ready for use, in rolls of 200 square feet, and weighs with Asbestos Roof Coating, ready for shipment, about 85 pounds to 100 square feet.

It is adapted for steep or flat roofs in all climates, and can be readily applied by unskilled workmen.

There are inferior imitations of our Asbestos Roofing, purchasers are cautioned.

Samples and Descriptive Price List free by mail.

FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,

has stood the severest tests and in no case has it
ever failed.

It is Fire Proof, as well as Damp and Moisture
proof. It never expands or contracts; it is not af-
fected by **Steam, Acids, Gasses, Vapors** or other
injurious influences, that would render a metal roof
perfectly useless in a few weeks. It is air-tight and
is not affected by atmospheric influences of any
kind; it is durable and reliable in winter and sum-
mer, and positively requires no care or attention
whatever. It will out-last the BUILDING and for
**Factories, Chemical Works, Boiler and Engine-
houses, Depots, Factories, Mills and Warehouses,**
it is without an equal. It costs less than tin or
slate, requires no painting, can be walked on with-
out injury and must not be considered in the same
light and prejudice usually bestowed upon what are
known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of
our Roofing is not only owing to our great care in
laying on a roof; but also in the scientific prepara-
tion of the Material we use. Circulars and testimo-
nials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

Minerva Parker.

(ARCHITECT.)

It has always been a matter of surprise to those having made the matter a subject of study that so few of the great army of self supporting women have entered the field of architecture, which, of all the professions now open to women, would seem to be the one best calculated as a medium for the expression of her creative genius and her love of what is beautiful and symmetrical. In Philadelphia, while most of the trades and professions are ably represented by a number of bright and intelligent women, that of architecture has but one follower, found in the person of Minerva Parker, with an office at No. 14 South Broad street, this city.

Miss Parker comes of sturdy New England stock, her ancestors having settled in Boston, Salem and Plymouth, Massachusetts, and, in common with most of the settlers in that region, espoused warmly the cause of their adopted country, and became actively identified with the various movements of the Revolutionary War. Her grandfather, Seth A. Doane, was a well-known ship designer and architect, who left New England about 1834-35, at the time when the wave of population began to move toward the then far West. He finally purchased a large tract of land on the shore of Lake Michigan, where the city of Chicago now stands. Her mother was one of the first children born in that thriving city, and from her youth up, was accustomed to being associated with her father, not only in study, but in practical work, becoming in this way familiar with the plane and the saw as well as with the compass and T square. Her father, a lawyer by profession, raised a regiment of soldiers during the late Rebellion and fell fighting in defense of his country on the field of battle. With such antecedents as these—pioneers in the history of this new country, and springing from old Scotch and English stock in the old country—it is not surprising to find Miss Parker possessing the courage of her convictions and enthusiastic in following the natural bent of her mind for architecture, undoubtedly inherited from her ancestors. Like all innovators, Miss Parker has had many obstacles to overcome before reaching her present position, chief among them being the difficulty to obtain, in this country, the thorough technical and architectural training necessary to fit her for the successful prosecution of her chosen work. This, it must be understood, does not apply to women only, but men experience the same difficulty. Miss Parker believes thoroughly in any movement calculated to elevate the standard of architectural work, and is in favor of licensing architects, expressing herself as perfectly willing to embrace an opportunity to pass a prescribed examination for such a purpose; and, "should I fail," using her own language, "I would then know where to strengthen my armor," plucking, as it were, the flower safety from the nettle danger, and making

failure the ladder by which to reach success.

Strange to say, the fact of being a woman has never, at any time, been a serious drawback, nor in any way handicapped her while pursuing her line of work. On the contrary, words of encouragement and good fellowship have at all times been freely extended, both by the public in general and her fellow-architects. Such facts as these, more than any thing else, afford convincing proof that a position is waiting for every woman just as soon as she makes herself capable of filling it. As to builders, mechanics, and all with whom she has come in contact, the only advantage any of them has taken in dealing with a woman has been added care on their part in executing the work called for by her plans and specifications. It was neither Miss

Parker's wish nor intention to assume the title of architect for some time to come, but a rapidly increasing number of clients made it a necessity. Thus far her work has been almost wholly confined to domestic architecture, which, for the present, it is her intention to make a specialty; and when one stops to consider this particular field of work, its immense resources, its magnificent possibilities, its peculiar adaptability to woman, the wonder grows that it had not been entered long before Miss Parker determined to turn her attention to designing beautiful and artistic homes. Miss Parker believes architecture is largely the expression of popular taste, and that the responsibility, in a great measure, rests with the architect to refine it, and to eliminate from it, as far as possible, all those fantastic and peculiar examples which

possess no intrinsic merit, and which only wait the verdict of time to condemn them in the eyes of all true lovers of pure and simple architecture. It was Miss Parker's pleasure to visit Chicago at the time of the opening of the Auditorium, and she speaks enthusiastically of the many fine examples of architecture to be seen in the West. Among the plans recently furnished by Miss Parker are the following: A large frame dwelling, for Max. Suppee, erected at Johnstown, Pa.; a three-story stone residence for Lewis T. Brooke, of Philadelphia, erected at Radnor, Pa., containing, among other features, a large reception hall, with oak rafters and panelled with the same wood, a stone fireplace of unique designs adds beauty to this hall, from which open an office, parlor, dining-room and library. Miss Parker has, also, in her office the plans for a large stone and frame dwelling, to be erected at Elm Station by George Christy. These plans call for an interior finish of cherry and quartered oak, with considerable tile work, and a number of handsome stained glass windows. Mr. Davis, Mr. Bulow and Mr. H. Mullwood Justice, have each erected residences at Elm Station from plans furnished by Miss Parker, and also John M. Kennedy. Another example of her work may be found in the stone dwelling and stable erected at Overbrook, Pa., for A. J. Patterson. This is also finished handsomely in hardwoods, and contains a number of stained glass windows disposed to the best advantage for light and ornament; also, a stone store and dwelling, erected at Lansdowne, Pa., for Mrs. E. C. Hartel, and a frame dwelling for J. Frank Beale, at Berwyn, Pa. Among later plans, which have just been finished, is one for Miss L. E. Gallagher, of Philadelphia, to be erected at Moore's station, Pa. These which have been mentioned are, of course, only a few of the many excellent plans that have been furnished to customers, by Miss Parker, for suburban homes, but a sufficient number has been enumerated to convince the most skeptical that she has selected a field big with promise, and the indications are that she will use the opportunities thus afforded her with honor to herself and the profession she so ably represents.

PHILADELPHIA, WED'Y. MARCH 26, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THERE is considerable sense in the petition which is being prepared by the residents of Broad street, together with the members of the churches situated on that thoroughfare, and the pupils of the Boys' High School, for a smooth, quiet, asphalt pavement. There is one class of sufferers, however, from whom nothing has yet been heard. The patrons of the different places of amusement, who pay good money for an evening's entertainment, only to have it spoiled by the deafening noise outside.

THERE is not the least doubt, if the proper consideration is given by the city authorities to the wants of builders in the matter of sewers, gas, water pipes and paving, that more houses will be erected this year than last. As a business investment, there is certainly no way that the city could use the largest part of the proposed three per cent. loan than in the preparation of new streets for building purposes. Builders are willing to assume the average business risk, but as a rule they are not willing to invest large sums in the erection of new buildings on streets that are not likely to receive the attention of our city authorities, for years, perhaps, after the completion of the buildings. In fact, there is little or no sale for buildings, until the street work has been completed, and we know of several instances last year, where purchasers stood ready to buy houses for investment, but the sale could not be consummated, because the street work had not been completed, and was not likely to be for some time to come. If the loan is consummated, there will be no excuse if a sufficient sum is not allotted for the purpose above designated,

and there is positively no way that the money could be so profitably used, for in a few years it would be returned, dollar for dollar, in the way of tax revenue from fifteen to twenty millions, that will surely be invested this year on the new streets that require sewers, etc., and which should have them, no matter what other city work is neglected. An opportunity to add greatly to the yearly revenue of the city may not occur for a decade or two after the present era of house building and house buying has passed away, consequently it would be only good business judgment to make the most of the opportunity to increase the city's annual revenue, and at the same time encourage the efforts and enterprise of our builders, who are really the most important factors in the city's growth and development, after all. The organization known as Operative Builders, should demand for themselves and others, a proper recognition of this question. In fact, they should urge it with an emphasis that can have no other meaning than a determination to fasten the responsibility for any neglect to push forward this kind of city work to the utmost.

Miscellaneous.

At Worcester, Worcester Co., Mass. The congregation of the Baptist church, will erect a new church, Stephen C. Earle, is making preliminary sketches.

At Charleston, Charleston Co., S. C., D. A. J. Sullivan, has been given the contract for the erection of the new U. S. Court-house and Post-office.

At Nashville, Tenn. The Board of Publication of the Cumberland Presbyterian Church, will erect a publishing house, to cost \$40,000, W. C. Smith, 1 and 2 Berry Block, is the architect.

At New Orleans, La., a large office building will be erected by Durant Da Ponte. Sully & Tallidano, Morris Building, are the architects, and can give information. The Masons will probably erect a temple.

At Brooklyn, N. Y., it is said a number of citizens, including Mayor Chapin, are negotiating for the site of the burned Talmage Tabernacle, on Schermerhorn street, with the intention of erecting a handsome theatre on the site.

At Lowell, Mass., Oberlin Lodge, of I. O. O. F., in connection with other lodges of the order, has decided to buy a \$30,000 site on which to erect a handsome building for purposes of the order.

At Knoxville, Tenn., Rev. John H. Frazee, can give information regarding the erection of a Congregational church. The Southern Building and Loan Association, will erect a large office building, to cost \$40,000.

At South Pittsburg, Marion Co., Tenn., a company has been organized, to be known as the Requatchie Iron and Steel Company, a rolling mill will be erected to cost \$500,000. W. D. Kelly, of South Pittsburg, can give information.

At Stamford, Fairfield Co., Conn., the plans of W. A. Potter, 121 East Twenty-third street, New York City, have been accepted for the new St. John's Episcopal Church. The estimated cost of the new structure is \$150,000.

At Atlanta, Georgia, the Grady Monument Committee has accepted the design of Mr. Alexander Doyle, of New York City, for a monument. The cost will be about \$30,000. The figures will be of bronze, and the shaft will be made of Georgia marble or Georgia granite.

At Springfield, Mass., the plans of Messrs. J. B. McElpatrick & Sons, 23 E. 14th street, N. Y. city, have been accepted for a new theatre. The seating capacity will be about 2000 and every modern convenience will be introduced. The Springfield Athletic club will erect a gymnasium, to cost about \$7,000.

At Hartford, Conn., the plans of Brooks M. Lincoln, 381 Main street, have been accepted for the new Second North School building, and will soon be ready for estimates. A large hall will be in the second story, hard-wood finish, steam heat, slate roof. The estimated cost is \$40,000. D. R. Woodford is chairman of the district committee.

Lot-Buyers.

Architects and others had better correspond with the following lot buyers, as many of them contemplate building.

Charles A. Leask, of York, Pa., fifteen lots at same place.

Mrs. Clinton B. Sears, Washington, D. C., lot at Narragansett Bay, Jamestown, R. I.

Patrick Doyle, of Oxford, Pa., two lots at same place.

A. B. Flit, of Middletown, Pa., lot at same place.

Sarah Lott, of Bristol, Pa., lot at same place.

Jonathan S. Wright, of Bristol, Pa., lot at same place.

John A. Green, of Marcus Hook, lot at same place.

Architects' Notes.

A. E. Yarnall, architect, has resumed his profession at his former rooms, 14 South Broad street, where he will be glad to greet his patrons and friends.

Willis G. Hale, architect, 1524 Chestnut street, Phila., has made plans for a handsome residence for B. W. Fleischer, and bids are being received for the construction.

George T. Pearson, architect, 427 Walnut street, Phila., has completed the plans for an alteration and addition to the Second Presbyterian Church, at Germantown, Pa., it is proposed to begin work at an early day.

Addison Hutton, architect, 400 Chestnut street, Phila., drew the plans for the new stores of Granville B. Haines & Co., Ninth and Market streets, and will supervise the building, George Watson and Sons being the contractors.

Chas. W. Bolton, architect, 1510 Chestnut street, Phila., has made plans for the proposed addition to the Hope Presbyterian Church, Thirty-third and Wharton streets; also, plans for a Presbyterian church at Milesburg, Pa., contracts not yet awarded for either.

Moses & King, architects, 226 Walnut street, Phila., have completed plans for a residence for E. W. Morris, to be built at Merchantville, N. J.; also, one for Dr. Hinson, of the same place, both to have all the improvements of a country home.

Minerva Parker, architect, 14 South Broad street, Phila., has plans on boards for a residence, for E. Y. Taylor, to be a three story cut stone structure, shingle roof, heated by hot air, plate glass windows and doors, and to have large porches around the exterior, inside will be fitted with all modern improvements.

Brown & Day, architects, 1305 Arch street, Phila., are about completing plans for a number of twin houses, for George L. Harvey, east side of Forty-second street, south of Baltimore avenue. They will be brick, three stories high, and will have all conveniences attached, inclusive of electric work, etc.

There seems to be no doubt any longer about the building of a large office structure, at the N. W. corner of Twelfth and Chestnut streets, Phila.; and for her, that plans, whilst they are in embryo yet, are being prepared by the architect selected, Mr. James H. Windrim, 132 S. Third street. Definite details when completed will be given in this Journal.

Wilson Brothers, engineers and architects, Drexel Building, have completed plans for an extensive heating and lighting plant, to be built on the grounds of the University, in West Philadelphia, it will have a boiler of 900 horse power, and an electric plant of 3000 burner capacity, fans for ventilating, and radiators, with all other machinery necessary.

Otto C. Wolf, architect, N. E. corner Broad and Arch streets, Phila., has made plans for an additional building for the abattoir, Thirtieth and Arch streets, Phila., (as indicated in this

Journal, March 12, 1890). The structure will be quite a large one, being 62x180 feet, and be adapted for a salting department, as well as office rooms, etc. Work will be commenced at an early day.

H. Bloomfield Bare, architect, 430 Walnut street, Phila., has made plans for a house, for Dr. Charles S. Turnbull, Mt. Airy Germantown, two-and-a-half-stories high, to be of stone, brick and shingle work, shingle roof, plate glass doors and windows, hot air heat, electric bells and wiring throughout, some fine wood carving on exterior and interior, best of sanitary plumbing. Estimates are being received for general construction.

L. W. Robinson, architect, 847 Chapel street, New Haven, Conn., has prepared plans for a handsome residence for W. A. Kelsey, at Meriden. The plans call for a two-story structure of rock-faced brown-stone, with brick and terracotta trimmings, for first story, with wood for second story, finished with shingled gables and tile roof. Interior finished in hard-wood, wood mantels, open fire places, electric bells, steam heat, stained glass windows, etc. No contracts let.

Edward F. Durang, architect, 1200 Chestnut street, Phila., has plans on the boards for a new Church of Our Lady of Mercy, Susquehanna and Park avenues. Rev. Father Coughlan in charge. It is, however, not designed to build the stately edifice, contemplated by the drawings, for a long time, the foundations and basement will be finished and roofed over, so as to temporarily accommodate the congregation until they feel warranted in funds to proceed to build such a church as will rank among the best in the State.

John J. Deery, architect, 328 Walnut street, Phila., has completed plans for a house for A. Pope, and will be built at Roanoke, Virginia. It will be stone, three stories high, very ornamental, slate roof, and fitted with all conveniences. Mr. Pope will build the house himself, hiring daily labor; also, has completed plans for a large one-story market house, to be erected at Twenty-fourth and State street, to be 125x250 feet, built of brick, with tin roof, the interior will have a new feature in the way of a gallery extending around for sale of edibles.

D. R. Miller, Harrisburg, Pa., Race and Paxton streets, has finished drawings for a brick store and office building, to be erected at Emmetsburg, Iowa, soft steel roof, hand elevator; also, plans for nine dwellings, to be erected in Harrisburg, three stories high, stone and brick, all modern improvements, owners, Messrs. Sible & Wallover; also, plans for two dwellings for Joseph E. Rhoads, three-story, of brick, modern improvements. Mr. Miller has just sent drawings to Sendi Miagi Ken, Japan, for a school and chapel.

Isaac Purcell, architect, 119 South Fourth street, Phila., has completed the plans for a handsome new church building to be erected at Wilmington, Delaware, by the Olivet Presbyterian Church, at Fourth and Broome streets. Rev. Charles E. Thompson is the present pastor in charge. The plans call for a building of stone, with a frontage of 75 feet on Broome street, and 60 feet on Fourth street. The entrance will be at one corner, surmounted by a tower eighty feet high. The roof to be steep pitched, showing gables, with large stained glass windows on each street. The seating capacity will be about 600, arranged in semi-circular form. The cost is estimated at \$20,000. A Sunday-school chapel will be erected at the West end of the church, 40 x 75 feet.

J. D. Allen, architect, 1017 Chestnut street, Phila., is engaged on plans for the alterations of H. C. Miner's Fifth Avenue Theatre Twenty-eighth street and Broadway, New York, this will include 12 new boxes and a new proscenium band, new galleries and balcony, entire new seating for 1,800, orchestra and circle seats to be of unique pattern, and all plush, the drapery to boxes will be in Elizabethian style, a separate

electric plant will illuminate the house, to be controlled by a single key-board, interior colors and decorations will be ivory-white, gold and peach. The entrance on Broadway will be very elaborate, white and gold finish. Work will be done during the summer recess, and contracts will be open to competition when plans and details are complete.

A. W. Leh, architect, 214 Second street, Bethlehem, has just completed plans for an eight-roomed school building for the borough of West Bethlehem, Pa., the building will be 86 x 71 feet, two stories high, built of brick, stone trimming, galvanized iron cornice, slate and tin roof, heated and ventilated with Smead, Wills & Co. system; also, plans for a handsome house for W. V. Krause, cashier, E. P. Wilbur Bank, to be built at the corner of New and Wall streets, Bethlehem, Pa., brick and stone trimmings, slate roof, hard-wood finish, and all modern conveniences; also, plans for two semi-detached houses, for Mr. J. A. Sheriden, to be built at Vine street, South Bethlehem, to be 40x70 feet, two stories high, of brick, ornamented with moulded brick, etc., first story finished in hard-wood, hot air heat, and all conveniences; also, the same architect has on boards the plans for the new Theological Seminary, which will be located at Bethlehem, Pa.

Building and Real Estate Notes.

The property 1622 Chestnut street, 20 x 150 feet, with three-story brick residence, has been purchased by C. L. Dexter & Co., confectioners, 1441 Walnut street, who will make alterations suitable for the firm's business.

J. D. Caldwell, builder, has received the contract for the erection of the Junior Club's house at Green and Harvey streets, Germantown, and will commence work at once, (previously noted in this journal).

The Centennial Baptist Church, 23d and Oxford streets, Phila., are making preparations to build an additional stone chapel and are desirous of starting about July 1st of this year. Rev. James Lisk pastor, 1723 N 26th street.

Jacob R. Garber, carpenter and contractor, 52 N. 13th street Phila., has been given the contract for the erection of the large market-house, to be located at 30th and Market streets and will at once begin operations.

The Y. M. C. A., of Germantown, are straining all their exertions to devise ways and means to erect a new building, upon or near their present site, and are meeting with considerable success.

Theophilus P. Chandler, Jr., Architect, Brown's Building, Fourth and Chestnut streets, Phila., has purchased a fine site for building purposes at Radnor, Pa., from L. T. Brooke, 20 S. Broad street and intends to erect himself a handsome summer residence at an early day.

Gardiner Cassatt, purchased a country place from L. T. Brooke, Real Estate broker, 20 S. Broad street, Phila., situated at Radnor, Pa., as some improvements are upon the place, no determination has been arrived at what new ones he may in the future make.

A committee has been appointed by the Baptist City Mission, to see about plans and the cost of erecting the main edifice of the Snyder avenue church, at Snyder avenue and South Seventh street. Rev. J. W. Sullivan, is the pastor.

James Z. Wambold, will erect at 3712-14 Market street, West Philadelphia, a large boarding and livery stable, it will be three stories high, fitted with hoisting elevators for Carriages, artificial flooring and all modern appliances for stable use.

At Germantown, Mr. Henry Tetlow will erect a handsome store and dwelling, 60x70 feet, at the S. E. corner of Allen's lane and Green street. The Germantown Relief Society, contemplates the erection of a building for permanent quarters.

H. Oscar Smith, builder, Tioga, has purchased of Alex. Knorr of Germantown, a fine plot of ground on which he will build quite a large number of houses; they are located on Green and other streets in Germantown and will be of pressed brick, stone trimmings and finished with all modern conveniences.

The United States Foundry Company, a N. Y. corporation has bought a piece of ground 130 x 350 feet, on the west side of Schuylkill river, near Callowhill street bridge, upon which they will soon commence to build an extensive foundry, Mr. William A. Ross, president, is located at 56 Pine street, N. Y.

The trustees of the Williamson School for Manual Training, met on the 14th inst., and decided to consider only the management of the institution, and postponed the awarding of the contracts for buildings until the next meeting, which will take place about the middle of April, unless they deem it expedient to call an extra session.

Saml. H. Brown, contractor, 1763 Frankford avenue Philada., has bought 491 x 115 feet on Lehigh avenue, Sterner, Front and Fillmore streets, near the Episcopal hospital and belonging to that institution, upon this ground Mr. Brown intends building a number of fine three and two-story houses, similar to others he has constructed in that locality.

Hunter & Nock builders, Drexel building, have purchased additional ground at Fifty-fifth street and Lancaster avenue, for building purposes and will continue their operations in that vicinity, by erecting houses corresponding to those already commenced, two and three-story, brick, stone trimming and fitted with modern conveniences, electric work, etc.

The Board of Education of Philada., have just purchased of John F. Cassidy, the property 608 Dickerson street, and 18 inches additional, which revert to the City by reason of unpaid taxes and for which no owner can be found. Upon this plot and one alongside it is designed by them to erect at an early day a Primary-school and measures will now be taken, looking to that object.

The Director of Public safety, of Philada., Hon. Wm. S. Stokley, on the 18th inst. opened the bids for the erection of the Germantown Police Station, but all bids being for a larger amount than the appropriation, no award was made. R. C. Ballin et al. & Co., contractors, Lucas building, being the lowest bidder, \$13,477, may yet receive the contract, if a transfer of items from other appropriations can be made.

The Board of Directors of the Academy of Natural Science, Nineteenth and Race streets, Phila., having declined the offer made by the Faculty of the University to move the building of the former to the University grounds, will now build the annex according to plans and specifications prepared by James H. Windrim, architect, and noted in this Journal, December 11, 1889.

The properties 245-7 North 18th street and picture-gallery adjoining, have been purchased by the Gynecian Hospital trustees of Philada., at present located at 1735 Hamilton street, and will be fitted up by them for their purposes, price paid \$30,000, the principal officers are, Alex. Fulton will erect an office building, to cost \$20,000, in the rear of 410, 412 and 414 Grant street. Henry A. Davis, Esq., has the matter in charge. Dr. E. H. Small will erect a residence at East End, from plans prepared by Chancey W. Hodgdon, 59 Ninth street, no contracts let. James N. Campbell, 814 Penn Building, has prepared plans for three brick dwellings for Mrs. Parker; also for a residence for James L. Delong, to be erected at McKeesport, Pa., no contracts let. F. J. Osterling, 516 Market street, has prepared plans for the proposed new building of the Central District and Printing Telegraph Company, at Seventh avenue and Montour way. The material will be pressed brick, with brown stone trimmings. The first floor will be fitted up as stores, the remainder for offices. The cost is estimated at \$165,000. Longfellow, Alden & Harold, 43 Sixth street, have finished the plans for the residence of Mrs. Joseph Walton, to be erected in Allegheny. The same firm has completed the plans for the Vandetgrift Building, previously reported. This building will be iron and brick, with a front of Long Meadow brown stone, a safe deposit vault system will be put in, tiled or marble floors. The building will be fire-proof throughout.

SLAG-STONE PAVEMENT.

for Side-walks and Floors is conceded to be the best production of the present century.

Slag-Stone when properly combined with the best grades of Portland Cement produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-Stone and for that reason it is cheaper than brick.

Being a non-absorbent it is superior for **Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses Etc.**

For the Cellars of Residences it expresses the highest standard of perfect Sanitation as it prevents the escape of noxious gases from the underlying soil, and will not absorb impurities. It prevents dampness, is easily cleaned and renders the whole house more comfortable and healthful.

ALSO

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner and at prices in keeping with our guarantee for first-class work.

Of course there are styles of head-
wear that you don't care to buy, but
we mean our Hat Store to have every-
thing of the sort a man or boy needs
for dress or for comfort.

The newest Heath Hats (London)
are at hand. Every make that we are
to have is here.

Knox's Derby and Silk Hats are as
near the top as any. You never see
that name in a mean Hat.

Best Philadelphia makes too. Jum-
ble them all up and you might not hit
the Heath or Knox at the first or sec-
ond choice. When a certain point of
Hat goodness is passed how many of
you make up your minds after a look
in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

PHILADELPHIA, WED'Y. APRIL 2, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

A COMPARISON of the building operations of March 1890, with those of the corresponding period of last year, shows a considerable falling off for the present season. The reason is doubtless to be found in the unfavorable weather, which has put an estoppel on many projected operations and delayed them until later in the spring. The decrease is almost wholly confined to two story houses. Our report for March 1889, showed that building permits were issued for the erection of 1401 two-story and 481 three-story dwellings, against 835 two-story and 338 three-story dwellings for the same period of 1890. Building for manufacturing purposes, including foundries factories, dye and dry houses, engine and boiler houses, etc., shows a decided increase for the present year. In comparing the first three months of 1889 with 1890, it is found that the number of operations for the first two months of this year is more than last year, owing probable to favorable weather. During January, February and March of 1889 the total number of operations was 2886, against 2728 for 1890, making a difference of only 158 operations. The monetary value however, of the present season exceeds that of last, as there is a noticeable increase in the number of large buildings. With the exception of an infirmary annex no buildings of note were begun early in the season of 1889, in fact they were conspicuous by their absence, during the year, but thus far this year, we have the Warden apartment house, valued at \$500,000, two hospitals, at \$175,000 and \$50,000, respectively, the Bingham House extension at \$125,000, the Times Annex, at \$175,000, a large storage warehouse, \$220,000, the Brown

Building extension, \$175,000 also the Bullitt Building at \$65,000, two large market houses at \$300,000 and \$60,000, besides a number of churches, school houses, chapels, etc., all of which are of considerable value. When these things are taken into consideration it is evident that thus far building operations for the year have been satisfactory, and if the needed street improvements are made, the season of 1890, will exceed any of its predecessors.

An Attractive Exhibit of Ecclesiastical Work.

Perhaps the most attractive Easter offering ever seen in this city is the exhibition of an elegant altar, with its suburb mountings surrounded by a mass of ecclesiastical goods such as altar candle sticks and candles, altar crosses, crucifixes, sanctuary lamps, paschals, and other auxiliaries for public and private worship; which can be seen in the window of the Thackara Manufacturing Company, 1524 and 1526 Chestnut street. This magnificent display is particularly attractive during the evening as under a strong light its manifold beauties, become more striking.

We mention this display as an evidence of what can be done in this line in Philadelphia and by Philadelphia mechanics and designers.

THE following appeared as an item of news in the *Evening Bulletin*, of this city on March 25th, as a testimonial of merit, it is certainly strong and pointed enough to please even Messrs. Roberts Taylor & Co. the proprietors.

Save a New Roof.

HOW THE PRESENT TOP COVERING OF THE UNITED STATES MINT WAS MADE DURABLE.

"The statement that we scraped \$1,450 in gold off the roof is incorrect," said Col. Ege, Custodian of the United States Mint, in speaking to a reporter of the *Evening Bulletin* to-day of the painting of the roof of the Mint, just finished under his direction.

The scrapings have not yet been assayed, added the Colonel, but we expect they will run between \$200 and \$300. That is, of course, more than the cost of the paint, which was \$159, but hardly as much of a profit as stated.

The statement probably originated in the fact that by this painting we save the expense of a new iron roof, which, it was estimated, would cost 1,500. By the painting we made the old roof durable, so that it will last for a number of years yet. Probably until we can get into a new building.

The roof was considerably worn?

It was; there were a great number of small holes in it, burned by acid and rust. These were all filled up with the paint, which is fire-proof and waterproof.

What kind of paint is it?

The water and fireproof roofing paint made under the Wm Roberts, Sr.'s. patent by Roberts, Taylor & Co., of North Sixth street.

Is it a good paint?

Undoubtedly it is, and exceedingly adapted for the purpose. I gave them a certificate to that effect. I have seen samples of it that have been in use and exposed to the weather for eleven years, and it appears to be just as good now as ever. It is no doubt fire-proof, as I have seen it exposed to tests, and, being Waterproof as well, it is just the thing for our roof.

Mr. Ege was hopeful of a new mint building, but was confident that the roof as now painted with the Roberts paint would last until that time."

A Club has just been formed among the leading society ladies of Philadelphia, to be known as the "Acorn Club," among whom are, Mrs. Thos. A. Biddle, President, Mrs. J. Dundas Lippincott, Vice-president, Mrs. Chas. Clark, Secretary. The club has secured No. 1504 Walnut street and will soon take measures to remodel the entire building to suit its purposes.

St. Timothy's Episcopal Church, Roxboro, Phila., Rev. R. E. Dennison, rector, has now formally assumed control of the site given for a hospital by Mr. and Mrs. J. Vaughn Merrick, and are now arranging to improve the same by erecting the necessary buildings. The name of the new structure will be "Memorial Hospital and House of Mercy, of St. Timothy's Church, Roxboro." Committees have the details in charge, and information may be obtained of the rector as to particulars.

R. C. Ballinger & Co. contractors and builders, Lucas Building, Juniper and Chestnut streets, Phila. have purchased a large brick yard plant, at Crumlyn, Pa., and will at once commence to enlarge their facilities for producing. They will build four new kilns and erect new dryers,

sheds, etc., and put in machinery for the making of bricks. They will not only produce for their own demands, but put on the Market. T. Milton Shatto, Builders' Exchange, will be the managing agent.

The article published in the daily papers with reference to a large "Gun Plant," to be established at or near Darby, Del. Co., Pa., is found, on examination, to be decidedly premature and without foundation. While the matter is in embryo, it has as yet not assumed such proportions as to be located in any particular place, no ground purchased or any definite details completed. Dr. Gatling, Col. C. Aufinger, of Delaware; Col. Sprague, and others, are the nucleus around which a company is being formed, but much remains to be done preparatory to locating the operation.

THE GREAT IMPROVEMENT IN ROOFING.

We are now ready to supply the product of entirely new machinery and processes just completed by which we not only have greatly improved the strength and durability of our well-known **ASBESTOS ROOFING**, but have also secured a degree of uniformity never before attained in any similar fabric. We offer this as the **PERFECTED** form of the portable Roofing which we have manufactured with continued improvements during the past thirty years, and as the most desirable Roofing for general purposes.

The important features of our recent improvements, for which patents have been allowed in this country and in Europe, are described in our new circular, which, with samples, will be sent free by mail.

Our Asbestos Roofing is now in use upon Factories, Foundries, Cotton Gins, Railroad Bridges, Cars, Steamboats, etc., in all parts of the world.

It is supplied ready for use, in rolls of 200 square feet, and weighs with Asbestos Roof Coating, ready for shipment, about 85 pounds to 100 square feet.

It is adapted for steep or flat roofs in all climates, and can be readily applied by unskilled workmen.

There are inferior imitations of our Asbestos Roofing, purchasers are cautioned.

Samples and Descriptive Price List free by mail.

FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,

has stood the severest tests and in no case has it
ever failed.

It is Fire Proof, as well as Damp and Moisture
proof. It never expands or contracts; it is not af-
fected by **Steam, Acids, Gasses, Vapors** or other
injurious influences, that would render a metal roof
perfectly useless in a few weeks. It is air-tight and
is not affected by atmospheric influences of any
kind; it is durable and reliable in winter and sum-
mer, and positively requires no care or attention
whatever. It will out-last the BUILDING and for
**Factories, Chemical Works, Boiler and Engine-
houses, Depots, Factories, Mills and Warehouses,**
it is without an equal. It costs less than tin or
slate, requires no painting, can be walked on with-
out injury and must not be considered in the same
light and prejudice usually bestowed upon what are
known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of
our Roofing is not only owing to our great care in
laying on a roof; but also in the scientific prepara-
tion of the Material we use. Circulars and testimo-
nials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

THE ROOF OF A HOUSE.

is only next in importance to the foundation.

A good Roof can only be obtained by the selec-
tion of proper material and careful workmanship.

If your experience in the past has caused you an-
noyance and serious loss, it will be your fault if you are
again deceived.

to have is here.

Knox's Derby and Silk Hats are as
near the top as any. You never see
that name in a mean Hat.

Best Philadelphia makes too. Jumble
them all up and you might not hit
the Heath or Knox at the first or second
choice. When a certain point of
Hat goodness is passed how many of
you make up your minds after a look
in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

Architects' Notes.

James H. Windrim, 132 South Third street, Phila., has made plans for alteration and rebuilding the County Fire Insurance Company's building, 110 South Fourth street.

Cope & Stewardson, architects, 212 South Third street, Phila., have in hand plans for the extensive alterations to the house lately purchased by Wayne McVeigh, Esq., upon which bids are being received.

A number of architects are making competitive plans for a new church, to be built for the Church of the Advent, Lutheran, at Fifth and Cumberland streets, of which the Rev. J. E. C. Fluck, 504 Cumberland street, is pastor.

H. L. Lamble, architect and engineer, 927 Chestnut street, Phila., has made plans for a large machine shop and foundry, to be almost entirely of iron construction, and built near New York city. The estimated cost is about \$80,000.

E. L. Rice, Wilmington, Delaware, has just completed the plans for seven two-story brick dwellings, to be erected by J. S. Brennan on the southwest corner of Franklin and Reed streets, Wilmington. They will contain all modern comforts and conveniences.

Theophilus P. Chandler, Jr., architect, Brown Building, 4th and Chestnut streets, Philadelphia, is preparing plans for a country residence, for Mr. Eugene Delno, Brown Bros., bankers, Fourth and Chestnut streets, to be built at Lower Merion, Montgomery Co., Pa.

Thos. P. Lonsdale, architect, American Life Building, Fourth and Walnut streets, Phila., has completed plans for a house for C. C. Butterworth, 1524 N. Sixteenth street, to be brown-stone, three-stories, 22x96 feet, will have either steam or hot water heat, undecided as yet, stained or plate glass, tile work, and all modern improvements, ranges in kitchen, best of sanitary plumbing, etc.; also, plans for a Methodist church, at Reading, Pa., brick and stone, one-story church, with two stories in Sunday-school, steam heat stained and plate glass windows, church furniture, etc.

T. Roney Williamson, architect, 138 South Fourth street, Phila., is engaged on plans for a store and office building, to be erected in Westchester, Pa., to be brick, three-story, 50x40 feet, lower floor to have open front of plate glass, slate and tin roof, to be heated by steam; also, plans for alterations to house of Mr. George Achelis, at Westchester, Pa., and plans for an entire business block, 66x200 feet, in Grand Rapids, Michigan, to be brick, copper trimmings steam heat, elevators, electric work, and to be six stories high. First floor will be one store, and remainder offices; also, plans for a number of small frame houses, for Reuben Etting, at Radford, Pa., and a stable for Mr. Sweet, of Grand Rapids, Mich., to cost about \$10,000.

TO THE
MAN OR WOMAN,
 of Sedentary Habits.

Bicycle Riding possesses more health giving influences than all the Tonics known to the realm of science.

A ten mile spin with all of one's senses keenly alive to the enchantment of the sport, through country scenes, pleasant, picturesque and beautiful, with lungs inflated with pure air, the muscles in full play and ready for a brush, the blood tingling with renewed vigor, the mind free from business cares the whole being exalted and then an appetite a wolf might envy.

Is it a wonder that Cycle Riding has its votaries by the thousands?

The Hart Cycle Company, can fit you out from its 1890 patterns now in stock, the Columbia's at the head, and it will prove the best investment you ever made.

PHILADELPHIA, WED'Y. APRIL 9, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 a. that place, where any communications for publication may be left.

The sub-committee on commerce, which has been considering the subject of a bridge across the Hudson river, at Jersey City, has agreed upon a favorable report. The estimated cost of the structure, is about \$40,000,000. It will be built upon the Cantilever plan.

Building and Real Estate Notes.

The East Baptist Church, at Hanover street and Girard avenue, will be enlarged. Rev. C. H. Woolston is the pastor.

The Roxboro Gun Club, of Roxboro, Phila., has decided to lease grounds, and to erect a club house on West Shawmont avenue.

John M. Erickson, 3949 Lancaster avenue, Phila., has purchased property on west side of Forty-second street, north of Powelton avenue.

Charles M. Grubb, builder, has been given the contract for the erection of the school house at Forty-ninth and Seneca streets, West Philadelphia.

The Y. M. C. A., of Germantown, has raised nearly \$20,000 toward a new building for the association. J. Bayard Henry, 737 Walnut street, Phila., is one of the movers in the project.

The Philadelphia Brick Company has purchased a tract of land, near Crum Creek, Ridley township, Pa., from Joseph K. Ward, and will shortly begin the manufacture of brick.

Mr. and Mrs. Conyers Button, 40 West Walnut Lane, Germantown, Phila., have rented a house on Wayne avenue, while improvements will be made to their present residence.

There has been \$7,600 raised by the Frankford Presbyterian Church for alterations. Rev. Thomas Murphy, D. D. pastor. William Foulkrod is one of the trustees.

Wm. Armstrong has been given the contract for the foundation for the Academy of Natural Sciences, Nineteenth and Race streets, and will begin work at once.

E. C. Howell, of Bristol, Pa., builder, will, in a short time, commence work upon an operation at Belmont and Mantua avenues. The houses will be of brick, stone trimmings, and fitted with all modern improvements.

The congregation of the English Lutheran Church of the Nativity, Twentieth and Tioga streets, Tioga, Phila., has purchased a lot, and will erect a chapel. Rev. E. H. Gerhart, 1635 Venango street, is the pastor.

Green Hill Presbyterian Church, Girard avenue, above Sixteenth street, will hold a congregational meeting, to consider the project of enlarging the present edifice. Rev. Julius A. Herold, pastor.

The Philadelphia Knitting Mills Company has purchased the northeast corner of Sixteenth street and Indiana avenue of W. H. Bilyeu, 1725 Franklin street, Phila. The lot is 100x100 feet.

Joseph Harvey will build at once, as a matter solely of investment, a large four-story factory, on the southwest corner of Fifth streets and Columbia avenue. No particular machinery will be placed until it has been leased or sold.

Calvary Monumental Episcopal Church, Forty-first and Oregon streets, Rev. T. P. Hutchinson, pastor, 812 North Forty-first street, contemplate putting a patent pavement around the church property at an early day.

Ground has been broken, for an extensive operation, by C. J. Hart, on Ogden, Forty-second, Forty-third streets and Westminster avenue, all to be of brick, with stone trimming, two and three-story houses.

Work will be begun on the new buildings of the Deaf and Dumb Institute, at Mount Airy. Four of the main buildings, gymnasium, boiler and supply houses will be erected, all of which have been noted in full before in this Journal.

R. C. Ballinger & Co., builders and contractors, Lucas Building, Phila., have been awarded the contract for building the patrol and station house located at Germantown, and will begin operations at an early day.

The Evangelical Lutheran Mission, of Frankford, Philada., have purchased a lot for the erection of a chapel, corner of Harrison and Cottage streets, and will at once make the effort to raise sufficient funds to start the project.

A special endeavor is being made to pay off the existing, and only mortgage on the Children's Homeopathic Hospital, 914 North Broad street, and to raise funds for the improvement and enlargement of the present buildings. The resident physician is Edmund H. Kase.

Harry R. Schoch, builder, Eighteenth street and Susquehanna avenue, has purchased quite a large tract of ground, at Fortieth and Penn-grove streets, for \$80,000, on which he will erect during the season quite a large number of brick dwellings, fitted with every modern convenience.

Joseph & Robert Fitzell, real estate operators, Commercial Union Building, Walnut street, above Fourth street, are about to commence the erection of ninety, two and three-story dwellings, 15x44 feet, at the N. W. corner 54th and Master

streets, they will have all modern improvements.

Work will begin in a short time on the new building for the congregation of the Second Presbyterian Church, of Germantown, Phila., at Green and Tulpehocken streets, previously reported. Rev. C. P. N. Mason, pastor. George T. Pearson, 427 Walnut street, Phila., architect.

Mr. Howard Wood, of the firm of the Alan Wood Iron Company, 519 Arch street, Phila., is one of a syndicate purchasing land between Chestnut Hill and Bryn Mawr. Two hundred and fifty acres have been bought at \$450 per acre. A number of large bridges will be built, and other improvements made.

The society known as the "Augustine Social and Beneficial Association," is considering the rebuilding of the hall, 329 Washington avenue, and for that purpose have appointed a committee. John Poot, 1003 Moyamensing avenue, John Follman, 1535 South Fifth street, and Charles Gilligan, these gentlemen will devise plans, ways and means. It is contemplated to erect quite a large structure.

Whitelock & Diehl, of Scranton, Pa., will soon commence the erection of a plant at the junction of Cobb's Creek and County Line, near Paschalville, Phila., the main building will be 60x68 feet with a large annex, nearly as large. The plant will be for the manufacture of glass entirely. Contract for building has been given to John McVeagh. L. G. Dutton, the company manager, will supervise the construction.

The Samuel J. Cresswell, Iron Works, located at Twenty-third and Cherry streets, Phila., propose, at an early day, to enlarge their capacity for production by extending their plant on Twenty-third street about 120 feet, and making it two-story in height, thus increasing their facilities in the pattern department, as well as the foundry and machine works, this has been necessitated by the influx of new business.

Jacob R. Jordan, builder, 1208 Federal street, Philadelphia, will begin a large operation of eighty, eight-room fourteen, seven-room and twelve, twelve-room houses, brown-stone trimmings, on Brooklyn street, Belmont and Westminster avenues and Ogden streets. On the interior they will be frescoed, have wood mantels, stained and plate glass, hot air heat, and all fitted with electric work, as well as all modern conveniences.

Stacey Reeves & Sons, carpenters and builders, 1611 Filbert street, have been awarded the contract for the erection of William Kemble's new residence, N. W. corner of Twenty-second and Green streets, the plans call for one of the most elegant mansions in the city, having elaborate electric work, dumb-waiters, marble and wood mantels, stained and plate glass, most recent and approved heat appliance, and the best of sanitary plumbing.

The Florists' Club of Philadelphia, has appointed a committee with full power to act in the matter of securing a site, and the erection of a club house with all facilities for the conduct of a general exchange in their particular business. It will be fitted in a luxurious manner with pool and billiard rooms, banquet rooms, bath and toilet rooms, and lighted with electric

light, and have all modern improvements. Information may be had of Mr. John Westcot, 1514 Chestnut street, with Pennock Bros.

Thomas P. offered in this city for the money.
Our \$20 and \$25 Suiting (mostly
all foreign fabrics) cannot be equal-

talk of the town and are simply
superb. The quantities of these
goods we are selling is the proof
of the assertion. You are not do-

SLAG-STONE PAVEMENT.

for Side-walks and Floors is conceded to be the best production of the present century.

Slag-Stone when properly combined with the best grades of Portland Cement produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-Stone and for that reason it is cheaper than brick.

Being a non-absorbent it is superior for Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses Etc.

For the Cellars of Residences it expresses the highest standard of perfect Sanitation as it prevents the escape of noxious gases from the underlying soil, and will not absorb impurities. It prevents dampness, is easily cleaned and renders the whole house more comfortable and healthful.

ALSO

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner and at prices in keeping with our guarantee for first-class work.

Building and Real Estate Notes.

The grounds of the Pennsylvania Hospital for the Insane will shortly be divided by a street.

At Frankford, Phila., Mr. Piercon has purchased a lot on Decatur street. Price, \$5,000.

Mr. O. B. Robinson, of Holmesburgh, Phila., will put two large bulk windows in his ice cream saloon.

A petition is being prepared asking for a bridge over Wissahickon creek, near Allen's Lane.

The Haworth Land Company, of Frankford, Phila., has sold four lots to Robert Beaver, who will build.

E. V. Lansdale, 210 South Fourth street, Phila., has purchased Lilly Farm, near Chestnut Hill, Montgomery Co.

J. H. Virkler, builder, 2913 Norris street, will erect thirty-one dwellings at Forty-third street and Wyalusing avenue.

Dr. Radcliffe Cheston, Germantown and Summit avenues will erect a handsome residence at Chestnut avenue and Twenty-seventh street.

Mr. Chas. Hebbard, the purchaser of "Wynnclyff," Chestnut Hill, Phila., will erect a Michigan brown-stone residence on the property, to be fitted with all modern conveniences.

A number of improvements are to be made to the South Presbyterian Church, Third and Redwood streets, during the coming summer. The Rev. Wm. Ledwith is the pastor.

P. E. Jeffries, of West Chester, Pa., has received the contract for the carpenter work of the I. V. Williamson school administration building.

At Manayunk, Philada., Fred. G. H. Werner will erect a handsome residence, stable and carriage-house, at Manayunk and Lyceum avenues. Caleb J. Wallace & Son, builders.

Lewis T. Brooke, conveyancer, 14 South Broad street, Phila., has sold, to Dr. E. O. Shakespeare, a farm, of 104 acres, near Rosemont, at over \$1,000 per acre.

J. T. Jackson & Co., 711 Walnut street, Phila., have sold for Wm. S. Huey his country seat, Montgomery and Merion avenues, near Merion Station, containing four acres, for \$25,000.

James H. Stevenson & Sons will begin a new operation, of forty houses, at Thirtieth and Diamond streets, on recently acquired ground, brick, stone trimmings, two and three stories high.

An appropriation of \$800 was passed by Councils, on Thursday last, to place new pavement in and around the school ground at Church and Musgrove streets, Germantown. The Board of Education will determine the kind it shall be.

The Hebrew Educational Societies are now taking measures to erect a building in the lower section of the city. The last meeting relative to the matter was held, on the 12th inst., in Mercantile Hall.

Sam'l H. Brown is about starting sixteen houses on the ground recently purchased from the Episcopal Hospital grounds, at Front street and Lehigh avenue, all brick, stone trimmings, and modern improvements.

Andrew Mowbray, 2801 Hummell street, has bought the N. W. corner of Fifteenth and Wharton streets from E. H. Cloud, Sixth and Walnut streets, and will erect eleven handsome dwellings, brick, with brown-stone fronts.

In addition to the property already owned by Wm. Weightman, at Thirty-ninth and Spruce streets, on which operations have just begun, Mr. Weightman is desirous to obtain the adjoining property, on Spruce street, to enlarge the operation by additional dwellings.

Oscar Smith, builder, Germantown, will soon commence the erection of about 75 seven-room houses, on Germantown road, near Wayne junction. In the same vicinity, C. O. Brown, builder, 910 Walnut st, will also erect 66 seven-room houses.

The Polyclinic Hospital, Lombard street, above Eighteenth street, will be reared to the extent of four stories over the entire structure, and the additional contract has been given to Jacob Meyers, builder and original contractor. Baker & Dallett are the architects.

Zook & Chase, 629 Walnut street, Phila., has sold the Samuel L. Tennis estate of 127 acres, near Glenlock, Chester Co., Pa., to New York parties. The mansion will be used as a summer hotel; also, 20 acres at Kirkland Station to N. H. Edgerton, 135 N. Seventh street, Phila.

C. C. Haines, builder and contractor, N. E. corner Fifth and Chestnut streets, has plans for a new club house, to be built at Gordon Heights, Del., to be three stories high, blue-stone, fancy shingle sheathing. It will be fitted inside with all comforts. Bids are being made for construction.

Local Assembly, 6541 Knights of Labor, Phila., has determined to erect a hall for their own use, and appointed a committee for that purpose, consisting of Joseph Henderson, John Keenan, Thos. B. Finney and John Hemsey. It is proposed to erect it on Long Lane Twenty-sixth Ward.

As heretofore noted by this Journal, a new Mint seems now to be a matter of realization, and a handsome amount has been recommended by the sub-committee in charge in Congress, and which is not likely to be reduced, as much of the \$2,000,000 asked for will be replaced in the Treasury by the sale of the old site.

Rev. Father Walsh, in charge of the new parish, at Eleventh and Jackson streets, has determined to erect, at an early day, a parochial house for the accommodation of the clergy. The building designed will be of stone, 40x60 feet, and three stories high, and fitted on the interior with plain but substantial comforts.

A large plant for the manufacture of ice is projected at Germantown, and a company has been formed for that purpose of the following named gentlemen: W. Cloner, butcher; Jas. Fletcher & Bro., meats and groceries; John Harkinson, confectioner; E. McEvoy, milk dealer, and others; \$40,000 in stock has been subscribed.

At the meeting of Common Council, on Thursday last, Mr. Baker introduced an ordinance for an appropriation of \$70,000 for a new school house, on Palmer street, above Thompson street; Mr. Myers, for an appropriation of \$60,000 for a school house, at Twenty-second and Berks streets; Mr. Dixon, to locate a fire engine, hose carriage and police station, at Roxboro.

Thomas H. Parks, builder, Eighteenth and Diamond streets, has devised new plans for a large operation of houses to be built on Gratz avenue, above Diamond street, they will be in pairs, with side yards, and porches on the front, three stories high, brick, and brown-stone trimmings, electric bells, and all modern conveniences.

There will be \$55,000 expended on improvements at Fairmount Park this season. \$9,000 will be used in West Park to change the course of the creek in rear of George's Hill; \$1,800 for resurfacing Wissahickon road; \$5,000 for East Park drive; \$10,000 to establishing the Washington monument; \$10,000 for bulwark wall along river; \$2,500 for a rose house; \$10,000 for improvements to Hunting Park.

Mayor Fitler, under an ordinance of City Councils, is now negotiating, with parties interested, for the purchase of several plots of ground, called Northwood Park, near Frankford, and Juniata Park, near Rowlandville, and Bartram Park, below Gray's Ferry, and from present indications there is no doubt of these properties soon being transferred, when the work of improvement must then follow.

Jacob R. Jordan, bricklayer, 1531 Tiernan street, Phila., has been given the contract for the erection of the slaughter house and cold storage warehouse, Swanson street and Snyder avenue. It will be two stories high, 60x80 feet, and have considerable artificial pavement, as well as the latest machinery applied to the business of an abattoir. Ground occupied for the whole plant will be 250x300 feet.

Bicycle Riding possesses more health giving influences than all the Tonics known to the realm of science.

A ten mile spin with all of one's senses keenly alive to the enchantment of the sport, through country scenes, pleasant, picturesque and beautiful, with lungs inflated with pure air, the muscles in full play and ready for a brush, the blood tingling with renewed vigor, the mind free from business cares the whole being exalted and then an appetite a wolf might envy.

Is it a wonder that Cycle Riding has its votaries by the thousands?

The Hart Cycle Company, can fit you out from its 1890 patterns now in stock, the Columbia's at the head, and it will prove the best investment you ever made.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

JUST as we were almost convinced that, our well cherished ideas about tariff reform were altogether wrong, and that tariff reform was a delusion and a snare, and that after all a high tax, on raw material is a double barreled blessing in disguise, along comes one, Edward H. Fitler the honored Mayor of a great city, whose name was presented before the Chicago Republican Convention for President of the United States on a high tariff platform, an officer or the Union League, an extensive manufacturer of rope and a heretofore red hot advocate of the highest possible tariff in order that American Industries should be properly protected, who deliberately calls a free trade meeting in his own business office in this city, March 22d, ult., at which a committee is appointed to visit Washington, and try hard to do the very thing that Mr. Cleveland had said ought to be done, and with eloquence mixed with facts, threats and surmises,

(Mr. Fitler) says:—"This tariff question is a serious one, for the twine and cordage manufacturers of the United States have an annual output of over \$50,000,000 worth of manufactured goods. If the tariff bill in its present shape becomes a law the industry will be practically wiped out and 15,000 people will be thrown out of employment. Our house, which is the largest, will not suspend, but we will divide up, and sending one-half of our machinery to Mexico, will transport the other half to Canada or England. In this way we will be able to compete with other manufacturers who employ cheap labor and have cheap raw material."

Now this is deucedly demoralizing to the editors of newspapers all over the land. It

makes out that the high tariff editors are a lot of fools and liars, while the heretofore, reformers like ourselves, who have got as far as the mourners bench and who since Harrison's election have been repenting in sack cloth and ashes are worse off than ever, what a cold uncharitable world this is after all, next?

IN an interview with Theophilus P. Chandler, Jr., Architect of the Warden apartment-house, now being built at 11th and Pine streets, we were informed that the work is progressing very satisfactorily and that applications are on file for almost the entire capacity of the great structure; which is very flattering to the prospects of Mr. Warden, the proprietor of the enterprise. As the Warden, is a pioneer of its kind, and already an assured success, others will likely follow of lesser or greater magnitude. In structures of this kind, Mr. Chandler seems to be in his element and a lover of his art as well.

THE new residence of Mr. Wm. Montgomery, now in course of construction on Seventh street below Norris street, this city, is to contain three elegant wood mantels, which it is said, will at least equal, if they do not excel, any ever seen in this city. The designs and detail drawings, were prepared by Architect Stuckert, 430 Walnut street. Mr. Matthew Hall, 1927 Market street, having taken the contract to make them, Mr. Hall has also contracted for the Wardrobes, China closet and Book-cases for the same house, and also for the wood-work and tileing for a fine vestibule, for the new residence of Owen McKenna, on Sixteenth street above Dauphin.

THE arrangement of the electric lights that the Executive Committee of the Metropolitan Museum of Art, New York, has determined to place throughout the entire building, has caused the committee-men a great deal of bother and worry.

There were different opinions as to the best arrangement of lights for the galleries of paintings. The question was settled by having the electricians arrange lights according to different systems in different rooms for inspection. At the meeting of the full committee, I. P. Frink's method of reflectors was unanimously adopted. With these reflectors the paintings will be evenly covered with a light without glare, and throwing the interior of the room into the shade.

Now, that this is settled upon, the work of lighting every gallery in the Museum is being rapidly pushed by Mr. Frink, and very soon the Museum will be thrown open on Tuesday and Friday nights.

Miscellaneous.

The Cataract Construction Company has been formed to utilize the power of Niagara Falls. Edward A. Woods, of New York, is president; F. L. Stetson, also of New York, is vice president, and W. B. Rankins, of the firm of Hawks, Work & Rankins, Broadway, New York, Secretary. Work on constructing a tunnel will be begun as soon as the necessary machinery can be procured. An immense electric plant will be established to furnish light, heat and power.

At Winston, Forsyth Co., N. C., a new hotel will be erected during the coming summer. Cost, about \$100,000.

At Americus, Sumter Co., Ga., it is reported the Americus Manufacturing and Improvement Company will erect a \$100,000 hotel.

At Carrollton, Carroll Co., Ga., L. C. & L. P. Mandeville, and others will erect a hotel to cost \$10,000.

On the line of the Nashville and Chattanooga R. R., near Chattanooga, Tenn., 45,000 acres of land has been purchased by H. J. Kimball, acting as an agent for an English syndicate, and a manufacturing town, to be named Kimball, will be located on the property. The company has a capital of \$2,000,000.

At New York City, Dickson & Withers, have prepared plans for a building at Bellevue Hospital, to be erected by the commissioners of Public Charities. George B. Post, 15 Cortlandt street, has drawn plans for a store for Messrs. Schermerhorn, to be erected at 4th street and Broadway. Edward H. Kendall, 1 Broadway, has finished plans for the American Express Co., at Hudson and Jay streets. R. R. Davis, 301 W. 133d street, has prepared plans for seven five-story flats, to cost, \$200,000. The school commissioners want an appropriation of \$130,000, for the purchase of a site at Park avenue and 59th street, for a new school house. Robert Ogden Goelet, will erect a six story building at 44th street and Lexington avenue, to cost \$375,000. The owners of Steinway Hall have decided to devote the building to commercial purposes. The present building is to be remodelled, four new stories to replace the hall, a small hall, to seat about 400, will be left for piano recitals, etc. Steinway Hall was erected twenty-four years ago, at a cost of \$250,000. Charles C. Haight, 111 Broadway, will prepare plans for the proposed new buildings for Columbia College. Col. Elliott F. Shepard will erect a lodging house, for girls, from plans prepared by architect R. H. Robertson, 121 East 23d street, N. Y. It is said P. T. Barnum will erect a theatre at Forty-second street and Seventh avenue. Richard M. Hunt, 154 Nassau street, will design the magnificent bronze doors, which Wm. W. Astor will have placed in Trinity Church.

Architects' Notes.

J. J. Deery, architect, 328 Walnut street, Phila., has made the plans for a large market house, to be built at Twenty-fourth and State streets, Chicago, Ill., previously reported without location.

Minerva Parker, 14 S. Broad street, Phila., has made plans for a house, for Miss Mary Botts, 40x40 feet, to be stone, shingle roof, electric bells, and all modern improvements, to be built at Germantown.

A. W. Dilks, architect, corner Tenth and Chestnut streets, Phila., has prepared plans for four dwellings, to be erected at Second and Bainbridge streets, 60x48 feet, three stories high, brick, tin roof, plate and stained glass, best of plumbing.

Frank R. Watson, architect, 518 Walnut street, Phila., has plans on hand for a large office and store building, for Fred. T. Freis, to be erected at

Orthodox street and Frankford ave. It will be three stories high, brick, stone trimmings, plate glass windows, and best of sanitary plumbing. The third story is designed for lodge rooms.

J. C. & A. F. Smith, architects, 27 North Sixth street, Reading, Pa., have plans on boards for a four-story brick house, for Mr. C. M. Groff, of that city. It will be brick and stone, 40x135 feet and very elaborately decorated on interior, have steam heat and electric work throughout, as well as all other modern improvements.

Rowe & Daggitt, architects, 122 S. Second street, Phila., have given a contract for the erection of a large music stand, gents' cottage, ladies cottage, refrigerator house, and an electric plant to George C. Stratton, Woodbury, N. J., all to be erected at Lincoln Park, below Red Bank, N. J., work to be began at once.

Willis G. Hale, architect, 1524 Chestnut street, Phila., has, upon the boards, plans for a number of fine houses to be erected by William Weightman, at Thirty-ninth and Spruce streets, to be three stories high, of brick, with stone trimmings, plate and common glass, best of plumbing, and pneumatic bells, with other modern improvements.

Baker & Dallett, architects, Fifth and Walnut streets, Phila., have made plans for the erection of a parsonage, for the Grace, M. E. Church, Wilmington, Del., it will be stone, three stories high, and have slate roof, electric bells, hot air, stained and plate glass windows, and best of sanitary plumbing; also, plans for a row of eight houses, to be built at Germantown, for Dr. Charles F. Bonsall, to be two stories high, and have modern conveniences.

S. A. Brose, Horst & Rickey Building, Trenton, N. J., has made plans for extensive alterations to the Methodist church at Morrisville, N. J., including a galvanized shingle roof, a number of handsome stained glass windows; also, a large rose window. The cost of alteration, about \$6,000; also, plans for dwelling and store for W. H. Hay, of Bristol, Pa.; also, plans for two dwellings to be erected at Trenton, and a cottage to be erected at Langhorne, Pa.

Hazelhurst & Huckel, architects, 410 Walnut street, Phila., have prepared plans for the erection of a magnificent hotel at Bradford Hill, Chester Co., Pa., twenty-nine miles from this city. The structure will be erected and owned by a syndicate who have purchased quite a large number of acres of ground, and propose to make it one of the best known hostleries in this country. The hotel proper will be large, and fitted with elevators, electric work, and every known comfort introduced. Minor details are being arranged by the company, after which work will begin on the building.

Geissinger & Hale, architects, 201 South Twelfth street, have completed plans for the erection of a building for the Pennsylvania Iron Works, at Fiftieth and Merion streets. It will be one-story brick, with iron truss frame and slate roof, and will be wired for electric arc light. Estimates are being made for construction. Also, plans for a day school to be attached to St. Michael's Lutheran Church, Trenton avenue and Cumberland street, Rev. J. P. Deck, pastor, it will be brick, two stories high and basement, tin roof, steam heat, and fitted throughout for school purposes.
